About NMDC

Established in 1958 as a Public Sector Undertaking to explore, develop and exploit mineral resources other than fuel oil and atomic minerals, NMDC is engaged in mining of Iron ore, Magnesite and Diamonds. NMDC is India's single largest iron ore producer, presently producing and selling about 35 million tonnes of iron ore from 3 fully mechanized mines in Chhattisgarh and Karnataka State. The company is diversifying into steel making and has undertaken several capital intensive projects to modernize and increase capacities to retain its domestic leadership and has also forayed overseas successfully.
