22. RATIONALE AND BENEFITS

The amalgamation of the Transferor Company with the Transferee Company would inter alia have the following benefits:

- a. The Transferor Company and the Applicant Company are operating in complementary/similar line of business and can be conveniently combined for mutual benefit as this would increase the profitability of the Transferee Company. The Transferee Company and the Transferor Company are in the information technology services business which can be carried out more efficiently as one amalgamated entity. The Transferor Company is engaged in big data analytics solutions and this will help the Transferee Company expand its digital service offerings. The Transferee Company will also be able to fully integrate the Applicant Company's big data platform viz. MaxIQ with its existing analytics platform.
- b. One of the chief reasons necessitating the amalgamation is that the Transferor Company is a wholly-owned subsidiary of the Transferee Company as the entire shareholding of the Transferor Company is held by the Transferee Company and its nominee.
- c. A consolidation of the Transferor Company and the Transferee Company by way of amalgamation would thereby lead to a more efficient utilization of capital for enhanced development and growth of the consolidated business in one entity.
- d. The Scheme is commercially and economically viable and feasible and is in fact fair and reasonable.
- e. The proposed amalgamation will result in administrative and operations rationalization, organizational efficiencies, reduction in overheads and other expenses and optimal utilization of various resources. It will prevent cost duplication and will result in synergies in operations. The synergies created by the amalgamation would increase operational efficiency and integrate business functions.
- f. Since the Transferor Company is already a wholly owned subsidiary of the Transferee Company, the management of the two aforementioned companies have evaluated the plan and strategy for both the Companies and feel that merging the two entities will be effective in obtaining synergy in the operations of the Transferor Company and the Transferee Company.
- g. Since, two of the Key Managerial Personnel of the Transferee Company are the Directors of the Transferor Company, the proposed amalgamation will reduce managerial overlaps, which are necessarily involved in running two entities.

23. SALIENT FEATURES OF THE SCHEME

The salient features of the Scheme are, inter alia, as under:

- a. The Scheme envisages the amalgamation of the Transferor Company with the Transferee Company pursuant to the applicable provisions of the Companies Act, 2013 in the manner provided for in the Scheme.
