CTE achieves AWS Oracle Enterprise Applications Competency Status

Bengaluru, 21 August, 2017: [Cambridge Technology Enterprises Limited](#) (NSE: CTE; BSE: 532801), a leading global technology company transforming organizations into "AI-first" leaders, is pleased to announce that it has achieved the Amazon Web Services (AWS) Oracle Enterprise Applications Competency Status.

The AWS Oracle Competency program highlights that companies must have extensive experience, demonstrable technical proficiency and proven success assisting customers implementing Oracle applications, including providing its clientele with the quality support services they need. CTE is committed to achieving the highest level of customer satisfaction in the industry. CTE is an Oracle Gold Level Partner and has extensive knowledge of the Oracle product suites from application management to upgrades and support that allows it to take advantage of their rich capabilities, creating innovative solutions to tackle the most challenging business problems. CTE helps its clients improve efficiency and realize savings in their IT Investments.

CTE specializes in providing design and implementation of Oracle R12 modules and applications based on customer's requirements. Oracle E-Business Suite application development services comprises of Reports, Interfaces Conversions & Extensions and Application Development Frame Work (ADF). Regular database and application maintenance tasks, Performance Management, Patching and Cloning, Monitoring database performance and implement tuning when necessary.

The success highlights the company's ability to support its AWS clients and their Oracle applications by providing support for Oracle database administration, middleware, UNIX system administration, the installation and configuration of Oracle Weblogic Server, mailing solutions and backup and recovery solutions.

CTE is one of the few organizations in the world with 100 percent AWS certified Cloud Operations Centre with the ability to provide 24/7 management of Public, Hybrid and Private cloud architectures. CTE's best-in-class cloud competency has been instrumental in establishing and managing cloud programs for large and small enterprises alike including Iron Mountain, Recall, Cengage Learning and Pega Systems.

CTE joined AWS Partner Network (APN) in January 2015, rapidly graduating to the standard tier and was promoted to the Advanced tier within six months of re-entering

the APN program at AWS. CTE continues to expand its practice both in cooperation with AWS and a trusted advisor to its clientele by achieving competency in Oracle.

Peter Buckley, VP-Business Development at CTE, said “Cambridge Technology is dedicated to its broad customer base by offering a set of comprehensive services to meet their diverse IT needs. The addition of AWS Oracle Enterprise Applications Competency strengthens our position in the marketplace.”

In acknowledgment of the achievement, Aashish Kalra, Chairman of CTE, commented, “CTE is excited to achieve the AWS Oracle Enterprises Applications Competency Status. This speaks volumes about our team’s deep expertise in implementing Oracle applications, and to our successful track record of providing these capabilities to our customers in helping them harness the full potential of Amazon Web Services.”

About Cambridge Technology Enterprises

Cambridge Technology Enterprises (CTE) is a leading global technology company transforming organizations into "AI-first" leaders.
