Cambridge Technology Enterprises appraised at CMMI Level 5

Bengaluru, 16 August, 2017: Cambridge Technology Enterprises Ltd (NSE: CTE; BSE: 532801), a leading global technology company focused on Artificial Intelligence as a service (AlaaS) to transform organizations into "AI-first" leaders, is pleased to announce that it has been appraised at Level 5 of the CMMI Institute's Capability Maturity Model Integration (CMMI)[®] v1.3 for its services. The appraisal was performed by QAI Consulting.

CMMI[®] is a capability improvement approach that provides organizations with the essential elements of effective processes that ultimately improve their performance. An appraisal at maturity level 5 indicates that the organization is performing at an "optimizing" level. At this level, an organization continually improves its processes based on a quantitative understanding of its business objectives and performance needs. The organization uses a quantitative approach to understand the variation inherent in the process and the causes of process outcomes.

In order for CTE to build a practice that is innovative, it has laid the foundation of a self-learning organization and as part of that CTE is continually proud to be one of the ~30 companies appraised at this level for services in India. CTE is also one of the few organizations in the world with 100 percent AWS certified Cloud Operations Centre with proven experience of over 10 million instance management hours.

In the past, CTE has been appraised at CMM Level 5 v1.1, CMMI Level 5 v1.2, CMMI L5 v1.3 for development and maintenance projects and maintaining this highest level in CMMI for its services.

In acknowledgment of the achievement, Aashish Kalra, Chairman of CTE, commented, "CTE achieves a milestone to become a self-learning and innovating organization and being appraised at the highest level of CMMI for our services demonstrates our focus and commitment towards continuous process maturity, innovation and delivering value to our customers. We are continually proud to maintain the highest standards of software quality & engineering in our organization and be part of a select group of global companies appraised at the highest level."

About Cambridge Technology Enterprises

Cambridge Technology Enterprises (CTE) is a leading global technology company transforming organizations into "AI-first" leaders. CTE is enabling its customers to create AI solutions that transform their businesses and industries; helping build AI platforms and solutions. CTE enables organizations by providing a range of AI services; by helping solve the world's complex and most interesting business challenges with AI. CTE gives organizations unparalleled access to cutting-edge technology by bringing together the best-in-industry using its years of expertise in building solutions for some of the world's largest and most innovative enterprises; leveraging Big Data, Cloud & Machine Learning experience. CTE's products and services address all the transformational AI needs of an organization — from strategic workshops and ready-to-deploy solutions, to implementation of transformative business solutions through its AI as a Service (AlaaS). CTE's expertise across multiple domains makes it the preferred choice for organizations seeking an AI Partner to innovate and leapfrog the market. CTE is assessed at Maturity Level 5 for CMMI v1.3 with ISO 9001:2008, ISO 27001:2005 certifications.
