CHAIRMAN'S MESSAGE

Dear Shareholders,

It gives me immense pleasure to present you the performance of your Company for the financial year 2016-17.

This year was a period when your Company continued to focus on securing various regulatory approvals for the acquisition of Destimoney Securities Private Limited and its associates as per the shareholder agreement concluded in 2015. While most of the approvals have already been secured, we still await certain regulatory and shareholder approvals to close on this maiden acquisition for this Company. We are of the firm belief that this acquisition can be of a significant and positive value accretion for all shareholders from a medium term perspective.

Presently, we have fully secured the approvals for the acquisitions of Destimoney Distribution Private Limited and Destimoney Commodities Private Limited and are at present awaiting the approvals for Destimoney Securities Private Limited and Sarsan Securities Private Limited. Your Company is pleased by the positive cooperation and support by all regulators and associates.

Your Company proposes to consolidate all its holding and Subsidiaries for ensuring clear focus and operations in the business. Thus the agriculture and gas businesses of your Company will be merged/ acquired/ swapped by Onelife Capital Advisors Limited. Your Company intends to be a significant player in the Indian financial services space.

The contemplated acquisition of Destimoney, once concluded, should result in your Company gaining access to the financial services businesses of Equities, Commodities, Currency, Mutual Funds, Insurance and Real Estate. This would provide an immediate footprint and market access across 300 towns and cities in India, with a client base of over 80000 and employs over 2000 professionals and agents. The entities together did revenues of Rs. 786.05 Lakh for FY17.

Your Company by this acquisition is now positioned to benefit from the investment of the proceeds from the IPO in the most positive and efficient manner with potential of further gains in future. Your management is also working actively towards addressing all challenges which this acquisition may result into for providing best results and fastest outcomes for the shareholders.

Your Company has forayed into the technology domain, by choosing to develop a multipurpose mobile application for B2C connects and intends to develop this product over the next 24 months. This product should give your Company the technology edge required to build on its financial services practice. Presently, your Company has had the detailed business delivery blueprint readied for execution.

Thus, while your management worked on all the above initiatives, the non-completion of the acquisitions as planned has resulted in no revenues being reflected in terms of operating performance for FY17. But, we seek and hope to close and integrate on the same in FY18/ FY19. Your company focus therefore would target to get the best of financial services, technology and other segments. The management continues to educate, explore, plan and work on opportunities in these areas.

We thank you for your active support and cooperation in all our ventures and endeavors..

Best Regards

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDUSTRY OVERVIEW AND MACRO-ECONOMIC DEVELOPMENTS

Financial Year 2016-2017 was an eventful year both economically and politically for the world. On the political side, Brexit fears and US Presidential elections were two big events, though the markets soon shrugged off these developments. Global trade flows rebounded and consumer and business confidence is on the way to recovery, globally.

The Indian economy is on a growth trajectory, inflation remains benign and fiscal and current account position remains comfortable. FDI flows continue to remain buoyant at US\$36 billion and portfolio flows too have returned to \$8 billion in FY17 after an outflow of \$2.5 billion in FY16. What is most encouraging is that India's exports finally emerged from two years of contraction with a 5% growth in FY17, after contracting nearly 16% in FY16.

On the monetary side, RBI has moved to a neutral stance from accommodative and hence chances of further rate cut remain low. The INR has benefitted from strong FDI flows.

Overall, the macro-fundamentals of the economy remain strong and the business cycle conditions have improved. Rebound in exports, improving corporate earnings, good monsoons and the government's continued push towards infrastructure, rural development and affordable housing augur well for FY18.

FY17 was a good year for equity markets with Nifty making its all time high with a return of approx. 19% in FY17 as compared to decline of 9% in FY16. Indian markets have outperformed emerging markets in dollar terms by 230 bps. The momentum is likely to continue with an expectation of improvement in corporate earnings going forward. As regards debt markets, RBI set the ball rolling on corporate bond reforms with a comprehensive set of guidelines and other measures. These measures once fully implemented will deepen the corporate bond markets and enhance liquidity. The process is already underway as FY17 saw a sharp increase in primary market issuance and corporate bond turnover. We expect this trend to gain further momentum in FY18.

OPPORTUNITY IN THE FINANCIAL SERVICES SECTOR IN INDIA- BROKING, INSURANCE DISTRIBUTION AND LOANS: (data source: www.ibef.org)

The country's financial services sector consists of the capital markets, insurance sector and non-banking financial Companies (NBFCs). India's Gross Domestic Savings (GDS) as a percentage of Gross Domestic Product (GDP) has remained above 30 per cent since 2004. It is projected that national savings in India will reach US\$ 1,272 billion by 2019. Over 95 per cent of household savings in India are invested in bank deposits and only 5 per cent in other financial asset classes. The asset management industry in India is among the fastest growing in the world. Corporate investors accounted for around 45.9 per cent of total AUM in India, while High Net Worth Individuals (HNWI) and retail investors account for 28.6 per cent and 22.9 per cent, respectively. In the Asia-Pacific, India is among the top five countries in terms of HNWIs. RBI has allowed 100 per cent foreign investment under the automatic route in 'other financial services'.

India's equity market turnover has increased significantly in recent years. The annual turnover value in the National Stock Exchange (NSE) witnessed a CAGR of 20.7 per cent between FY96 and FY15 to reach US\$ 718 billion. During the month of October 2016, the mutual fund equity schemes attracted a net inflow of US\$ 1.40 billion.

The Government of India has taken various steps to deepen the reforms in the capital markets, including simplification of the Initial Public Offer (IPO) process which allows qualified foreign investors (QFIs) to access the Indian bond markets.

We remain very bullish on the prospects for India as a whole the financial services sector in particular.

DIGITAL OPPORTUNITY - THE EMERGING FRONTIER:

The Indian IT sector is expected to grow at a rate of 12-14 per cent for FY2016-17 in constant currency terms. The sector is also expected triple its current annual revenue to reach US\$ 350 billion by FY 2025.

Employees from 12 Indian start-ups, such as Flipkart, Snapdeal, Makemytrip, Naukri, Ola, and others, have gone on to form 700 start-ups on their own, thus expanding the Indian start-up ecosystem. India ranks third among global start-up ecosystems with more than 4,200 start-ups. Total spending on IT by banking and security firms in India is expected to grow 8.6 per cent year-on-year to US\$ 7.8 billion by 2017.

India's internet economy is expected to touch Rs 10 trillion (US\$ 146.72 billion) by 2018, accounting for 5 per cent of the country's GDP.

The public cloud services market in India is slated to grow 35.9 per cent to reach US\$ 1.3 billion according to IT consultancy, Gartner. Increased penetration of internet (including in rural areas) and rapid emergence of e-commerce are the main drivers for

continued growth of data centre co-location and hosting market in India. The Indian Healthcare Information Technology (IT) market is valued at US\$ 1 billion currently and is expected to grow 1.5 times by 2020. India's business to business (B2B) e-commerce market is expected to reach US\$ 700 billion by 2020 whereas the business to consumer (B2C) e-commerce market is expected to reach US\$ 102 billion by 2020.

Cross-border online shopping by Indians is expected to increase 85 per cent in 2017, and total online spending is projected to rise 31 per cent to Rs 8.75 Lakh Crore (US\$ 128 billion) by 2018. Post the government's announcement of demonetisation of specific currency denominations, digital payment platforms such as Paytm, MobiKwik, Oxigen witnessed a sharp spike in user transactions, app downloads and merchant enquiries, thereby indicating a greater demand towards digital payments by consumers. India ranks among the top five countries in terms of digitalisation maturity as per Accenture's Platform Readiness Index, and is expected to be among the top countries with the opportunity to grow and scale up digital platforms by 2020.

Annexure “B” to the Independent Auditors’ Report

(Referred to in paragraph 5B(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (‘the Act’)

We have audited the internal financial controls over financial reporting of **ONELIFE CAPITAL ADVISORS LIMITED** (“the Company”) as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Control over Financial Reporting (‘the Guidance Note’) issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on audit of Internal Financial Controls over Financial Reporting (‘the Guidance Note’) issued by the Institute of Chartered Accountants of India and the Standards on Auditing as specified under Section 143 (10) of the Act, to the extent applicable to an audit of internal financial controls. Those Guidance Note and the

standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with the generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note.

1 Significant Accounting Policies:**1.1 Basis of preparation of financial statements:**

The financial statements have been prepared in accordance with the historical cost convention on an accrual basis and comply with the applicable Accounting Standards specified under section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014.

These financial statements have been prepared as required under relevant provision of the Companies Act, 2013 and the presentation is based on the Schedule III of the Companies Act, 2013. All assets and liabilities are classified into current and non-current generally based on the criteria of realization / settlement within twelve months period from the balance sheet date.

1.2 Use of estimates:

The preparation of the financial statements in conformity with GAAP requires the Management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements. Actual results could differ from those estimates. Any revision to accounting estimates is recognized in the period in which such revisions are made.

1.3 Revenue recognition:

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured and is recognized on accrual basis.

1.4 Fixed assets:

Fixed assets are stated at cost less accumulated depreciation and impairment loss if any. Cost comprises the purchase price and any cost, attributable to bringing the asset to its working condition for its intended use.

Intangible assets are recognized only if it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably. The intangible assets are recorded at cost and are carried at cost less accumulated amortization.

1.5 Depreciation:

a Depreciation is provided on "Straight Line Method" basis at the rates specified in Schedule II to the Companies Act, 2013. Depreciation is charged on pro-rata basis for assets purchased/sold during the year.

b Fixed assets costing up to ₹ 5,000 individually are fully depreciated in the year of purchase.

1.6 Investments:

Quoted Investments are valued at cost or market value whichever is lower. Unquoted investments are stated at cost. The decline in the value of the unquoted investments, other than temporary, is provided for. Cost is inclusive of brokerage, fees and duties but excludes Securities Transaction Tax, if any.

1.7 Employee Benefits:**a Short term employee benefits**

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Undiscounted value of benefits such as salaries and bonus are recognized in the period in which the employee renders the related service.

b Defined contribution plans:

The Company is not covered under the Employees State Insurance Act and the Provident Fund Act.

c Defined benefit plans:

The Company's Gratuity plan is a defined benefit plan. The liability under the plan is determined on the basis of an independent actuarial valuation carried out at the year end. The actuarial valuation method used by independent actuary for measuring the liability is the Projected Unit Credit Method. Actuarial gains and losses arising on such valuation are recognised immediately in the Statement of Profit and Loss.

As per the Company's policy, leave earned during the year do not carry forward, they lapse if the current period's entitlement is not used in full and do not entitle employees to a cash payment for unused entitlement during service.

1.8 Operating Leases:

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased assets are classified as operating leases. Operating lease payments are recognized as an expense in the Statement of profit and Loss as when they are incurred.

1.9 Taxation:

Income Tax expense comprises of current tax (i.e. amount of tax for the year determined in accordance with the income tax law) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the year).

The deferred tax charge or credit and the corresponding deferred tax liabilities or assets is recognized using the tax rates that have been enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognized only to the extent that there is a reasonable certainty that the assets can be realized in future. However, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognized only if there is a virtual certainty of realization of such assets. Deferred tax assets are reviewed as at each balance sheet date and written down or written up to reflect the amount that is reasonable or virtually certain (as the case may be) of realization.

1.10 Earnings Per Share:

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all potential dilutive equity shares, except where result would be anti-dilutive.

1.11 Impairment:

The Fixed Assets or a group of assets (Cash generating unit) are reviewed for impairment at each Balance Sheet date. In case of any such indication, the recoverable amount of these assets or group of assets is determined, and if such recoverable amount of the assets or cash generating unit to which the assets belongs is less than it's carrying amount, the impairment loss is recognized by writing down such assets to their recoverable amount. An impairment loss is reversed if there is change in the recoverable amount and such loss either no longer exists or has decreased.

1.12 Provisions, Contingent Liabilities and Contingent Assets:

A provision is recognized when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are not recognized in the financial statements. A contingent asset neither is recognized nor disclosed in the financial statements.

1.13 Cash Flow Statement:

Cash flow statement is prepared segregating the cash flows from operating, investing and financing activities. Cash flow from operating activities is reported using indirect method as set out in Accounting Standard (AS) -3 "Cash Flow Statement". Under the indirect method, the net profit is adjusted for the effects of:

- a transactions of a non-cash nature;
- b any deferrals or accruals of past or future operating cash receipts or payments; and
- c items of income or expense associated with investing or financing cash flows.

Cash and cash equivalents comprise cash at bank and in hand and demand deposits with banks and are reflected as such in the cash flow statement. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

ANNEXURE 'A' TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in paragraph 6(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of **Onelife Capital Advisors Limited** ('the Holding Company') and its subsidiary companies as at March 31, 2017 in conjunction with our audit of the consolidated financial statements of the Holding Company for the year ended and as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its subsidiary companies, are responsible for establishing and maintaining internal financial controls based on the respective internal control over financial reporting criteria established by the Holding Company and its subsidiary companies incorporated in India considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the 'Guidance Note'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Holding Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India

-2-

and the Standards on Auditing as specified under Section 143 (10) of the Act, to the extent applicable to an audit of internal financial controls over financial reporting. Those Guidance Note and the standards require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiary companies incorporated in India, in terms of their reports referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us and based on consideration of reporting of the other auditors as mentioned in the other matters paragraph, the Holding Company and its subsidiary companies, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Holding Company and its subsidiary companies considering the essential components of internal control stated in the Guidance Note.

Other Matter

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to seven subsidiary companies, is based on the corresponding reports of the auditors of such companies incorporated in India. Our opinion is not qualified in respect of this matter.

ONELIFE CAPITAL ADVISORS LIMITED**1 Principles of Consolidation**

The Consolidated Financial Statements consist of Onelife Capital Advisors Limited (“the Company” or “the Holding Company”) and its subsidiary companies (collectively referred to as “the Group”). The Consolidated Financial Statements have been prepared on the following basis:

- a The financial statements of the Company and its subsidiary companies have been combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after fully eliminating intra-group balances and intra-group transactions resulting in unrealized profits or losses as per Accounting Standard 21 – “Consolidated Financial Statements” specified under section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014.
- b The difference between the cost of investment in the subsidiaries and the Company’s share of net assets at the time of acquisition of shares in the subsidiaries is recognized in the financial statements as Goodwill or Capital Reserve as the case may be.
- c Minority’s share of net profit for the year of consolidated subsidiaries is identified and adjusted against the Profit After Tax of the Group.
- d Minority Interest in the net assets of consolidated subsidiaries is identified and presented in the consolidated Balance Sheet separately from liabilities and equity of the Company’s shareholders. Minority interest in the net assets of consolidated subsidiaries consists of:
 - i The amount of equity attributable to minority at the date on which investment in a subsidiary is made; and
 - ii The minority share of movements in equity since the date the holding subsidiary relationship came into existence.
- e The financial statements of the subsidiaries used in the consolidation are drawn up to the same reporting date as that of the Company i.e. March 31, 2017
- f The financial statements of the holding company and its subsidiary have been consolidated using uniform accounting policies for like transactions and other events in similar circumstances and are presented in the same manner as Company’s separate financial statements.
- g The list of subsidiary companies which are included in the consolidation and the Company’s holdings therein are as under:

2 Significant Accounting Policies:

2.1 Basis of preparation of financial statements:

The financial statements have been prepared in accordance with the historical cost convention on an accrual basis and comply with the applicable Accounting Standards specified under section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014.

These financial statements have been prepared as required under relevant provision of the Companies Act, 2013 and the presentation is based on the Schedule III of the Companies Act, 2013. All assets and liabilities are classified into current and non-current generally based on the criteria of realization / settlement within twelve months period from the balance sheet date.

2.2 Use of estimates:

The preparation of the financial statements in conformity with GAAP requires the Management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements. Actual results could differ from those estimates. Any revision to accounting estimates is recognized in the period in which such revision is made.

2.3 Revenue recognition:

- i Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured and is recognized on accrual basis.
- ii Revenue is recognized on transfer of significant risk and reward in respect of ownership.
- iii Sales / turnover for the year includes sales value of goods and other recoveries such as insurance, transportation and packing charges but excludes sales tax, value added tax and recovery of finance and discounting charges.
- iv Insurance / duty drawback and other claims are accounted for as and when admitted by appropriate authorities.
- v Dividend on investments is recognized when the right to receive is established.

2.4 Inventories:

Inventories are valued at cost or net realizable value whichever is lower. Cost of inventories comprises all costs of purchase, conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis

2.5 Fixed assets:

Fixed assets are stated at cost less accumulated depreciation and impairment loss if any. Cost comprises the purchase price and any cost, attributable to bringing the asset to its working condition for its intended use.

Intangible assets are recognized only if it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably. The intangible assets are recorded at cost and are carried at cost less accumulated amortization.

2.6 Depreciation and amortization:

- a Depreciation is provided on "Straight Line Method" basis at the rates specified in Schedule II to the Companies Act, 2013. Depreciation is charged on pro-rata basis for assets purchased/sold during the year.
- b Fixed assets costing up to Rs. 5,000 individually are fully depreciated in the year of purchase.

2.7 Foreign currency Transactions:

Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of transactions. Foreign currency monetary assets and liabilities are translated at the year-end rate. The difference between the rate prevailing on the date of

transaction and on the date of settlement and also on translation of monetary items at the year is recognized, as the case may be, as income/ expense for the year.

2.8 Investments:

Quoted Investments are valued at cost or market value whichever is lower. Unquoted investments are stated at cost. The decline in the value of the unquoted investments, other than temporary, is provided for. Cost is inclusive of brokerage, fees and duties but excludes Securities Transaction Tax, if any.

2.9 Employee Benefits:

a Short term employee benefits:

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Undiscounted value of benefits such as salaries and bonus are recognized in the period in which the employee renders the related service.

b Defined contribution plans:

The Company is not covered under the Employees State Insurance Act and the Provident Fund Act.

c Defined benefit plans:

Gratuity

The Company's Gratuity plan is a defined benefit plan. The liability under the plan is determined on the basis of an independent actuarial valuation carried out at the year end. The actuarial valuation method used by independent actuary for measuring the liability is the Projected Unit Credit Method. Actuarial gains and losses arising on such valuation are recognised immediately in the Profit & Loss Account.

Leave Encashment

As per the Group's policy, except in case of one subsidiary, leave earned during the year do not carry forward, they lapse if the current period's entitlement is not used in full and do not entitle employees to a cash payment for unused entitlement during service. In case of one subsidiary, Destimoney Commodities Private Limited, the Company provides for its compensated absences, which is a defined benefit scheme, based on actuarial valuation at the balance sheet date carried out by an independent actuary using the Projected Unit Credit Method.

2.10 Borrowing Costs:

Borrowing costs that are directly attributable to the acquisition, construction or production of an qualifying asset are capitalized as part of the cost of that asset. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. Other borrowing costs are recognized as an expense in the period in which they are incurred.

2.11 Operating Leases:

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased assets are classified as operating leases. Operating lease payments are recognized as an expense in the Statement of profit and Loss as when they are incurred.

2.12 Taxation:

Income Tax expense comprises of current tax (i.e. amount of tax for the year determined in accordance with the income tax law) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the year).

The deferred tax charge or credit and the corresponding deferred tax liabilities or assets is recognized using the tax rates that have been enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognized only to the extent that there is a reasonable certainty that the assets can be realized in future. However, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognized only if there is a virtual certainty of realization of such assets. Deferred tax assets are reviewed as at each balance sheet date and written down or written up to reflect the amount that is reasonable or virtually certain (as the case may be) of realization.

Minimum Alternate Tax (MAT) paid on book profits, which give rise to future economic benefits in the form tax credit against the future income tax liability, is recognized as an asset in the balance sheet if there is convincing evidence that the Company will pay normal tax within the period specified for utilization for such credit.

2.13 Cenvat / value Added Tax:

Cenvat / value Added Tax benefit is accounted for by reducing the purchase cost of the materials / fixed assets / services

2.14 Earnings Per Share:

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all potential dilutive equity shares, except where result would be anti-dilutive.

2.15 Impairment:

The Fixed Assets or a group of assets (Cash generating unit) are reviewed for impairment at each Balance Sheet date. In case of any such indication, the recoverable amount of these assets or group of assets is determined, and if such recoverable amount of the assets or cash generating unit to which the assets belongs is less than its carrying amount, the impairment loss is recognized by writing down such assets to their recoverable amount. An impairment loss is reversed if there is change in the recoverable amount and such loss either no longer exists or has decreased.

2.16 Provisions, Contingent Liabilities and Contingent Assets:

A provision is recognized when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are not recognized in the financial statements. A contingent asset is neither recognized nor disclosed in the financial statements.

2.17 Cash Flow Statement:

Cash flow statement is prepared segregating the cash flows from operating, investing and financing activities. Cash flow from operating activities is reported using indirect method as set out in Accounting Standard (AS) -3 "Cash Flow Statement". Under the indirect method, the net profit is adjusted for the effects of:

- a transactions of a non-cash nature;
- b any deferrals or accruals of past or future operating cash receipts or payments; and
- c items of income or expense associated with investing or financing cash flows.

Cash and cash equivalents comprise cash at bank and in hand and demand deposits with banks and are reflected as such in the cash flow statement. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.18 Segment Reporting:

The Company identifies primary segments based on the nature of risks and returns, the organization structure and the internal reporting system. The operating segments are the segments for which separate financial information is available and for which operating profit / loss amounts are evaluated regularly by the Board of Directors in deciding how to allocate resources and in assessing performance.

The accounting policies adopted for segment reporting are in line with the accounting policies of the Company. Segment revenue, segment results, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment.

Inter-segment revenue is accounted on the basis of transactions which are primarily determined based on market / fair value factors.

Revenue, expenses, assets and liabilities which relates to the Company as a whole and are not allocable to segments on reasonable basis have been included under "unallocated revenue / results / assets /liabilities".

2.19 Prior Period Items:

Prior period items are included in the respective heads of accounts and material items are disclosed by way of Notes on financial statements.
