MANAGEMENT DISCUSSION AND ANALYSIS

THE COMPANY HAS 2 DIVISIONS VIZ.

1. 100% EOU Unit at Nanjangud - Karnataka - Manufacturing High Quality Silk and Velvet Fabrics.
2. Exports Division at Kolkata - Exporting Industrial Leather Hand Gloves, Silk & Cotton Fabrics and made- ups manufactured on Handloom etc.

1. EOU UNIT AT NANJANGUD

A. INDUSTRY STRUCTURE AND DEVELOPMENT

The Textile Industry is highly power, man-power & capital intensive industry. We experienced mixed experience due to recovery in USA & financial crisis in European continent. China is still a big threat to us in International Market due to availability of cheap labour and high quality silk yarn in the country.

B. OPPORTUNITIES AND THREATS

The globalization of all markets, economic or political upheavals anywhere in the world affects all the markets & inflation and high volatility in exchange markets be cited as potential threats but the biggest threat for the time being in increase in cost of raw material in the international market and high power and labour cost in the country. Quality of Indian fabrics and the growth momentum in India, despite rising inflation, may be taken as an opportunity for Indian exports.

C. OUTLOOK

Due to recession worldwide the confidence of export market has badly affected. However, the Company has taken effective control measures to cope up slowdown and explore new markets. The Company is on way to better realization by way of cost curtailment and expecting better results in the current year.

2. TRADING DIVISION (LEATHER HAND GLOVES & SILK FABRICS MANUFACTURED ON HANDLOOM)

A. INDUSTRY STRUCTURE AND DEVELOPMENT

Due to recovery in USA & other continent, the sale started picking up. However financial crisis in Europe & recessions in Africa & other market had an adverse impact on our sales volume. However, we are continuously trying to improve quality output and addition of new markets, with increase in varieties of hand gloves.

B. OPPORTUNITIES AND THREATS

India's share in global market for Industrial Gloves is very minimal and hence, there exists big scope for future growth. In silk fabrics margins will be under pressure but there is scope for increase in turnover to new markets.

C. OUTLOOK

The future outlook appears to be better.

3. COMMON TO ALL DIVISIONS

A. Risks and Concerns

High power and manpower cost, stringent labour laws, and shortage of skilled workers are the biggest risk concerning this industry. High volatility in foreign exchange rates also poses a great risk as our unit is mainly into export business. The wide fluctuation in cost of Raw Material like Cotton, Viscose & Polyester Fiber, silk yarn & finished leather has also become a major risk factor.

Foreign Exchange Risk

The Company's policy is to systematically hedge a part of its foreign exchange risks.

Interest rate Risk

The Company's borrowings are on floating rate basis. On account of inflation in the country, the company feels risk arising out of a change of its interest rate structure by RBI is very much there on different loans of the company.

**Commodity Price Risk**

Due to continuing high inflation the company is exposed to the risk of price fluctuation on raw materials and other inputs. These risks are significant considering the present situation in the country.

B. Internal Control Systems and their adequacy

The company has appropriate internal control system for business process across various divisions with regard to efficiency of operations, financial reporting, compliance with applicable laws and regulations. The company has kept highly skilled technical and administrative people at our mill, due to which the internal control systems are strictly maintained i.e. increasing productivity and cutting cost at every stage. Under the supervision of highly experienced technical people, we are able to produce highest quality of products for export market. Regular internal audits and checks ensure that responsibility is executed effectively. The Audit Committee of the Board of Directors actively reviews the adequacy and effectiveness of internal control systems and suggests improvements for strengthening them.

C. Financial performance with respect to Operational Performance

The Company could achieve a turnover of ₹ 11657 Lakhs and net Loss of ₹ 207.62 Lakhs during the year under review.

D. SEGMENTWISE PERFORMANCE

E. MATERIAL DEVELOPMENT IN HUMAN RESOURCES/INDUSTRIAL RELATIONS FRONT, INCLUDING NUMBER OF PEOPLE EMPLOYED

The company presently has 382 employees on its rolls (As on 31/03/2017). These are basically human resource assets and are integral in Company's on-going success. They have played a significant role and enabled the company to deliver better performance year after year. The cost of staff and workers is increasing abnormally due to high cost of living and there is a shortage of skilled workers. We have to keep extra hands and train them to cover our requirement of workers. Strong emphasis is therefore given to build and nourish the human resource assets; The Company has had very harmonious relations with its workforce during the year.

F. CAUTIONARY STATEMENT

Statement made in this report describing the Company's objective, projections, estimates, expectations or predictions may be "forward looking statements" within the meaning of applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations include global and Indian demand supply conditions, finished goods price, feed stock availability and prices, cyclical demand and pricing in the Company's markets, changes in government regulations, tax regimes, economic developments within India and the countries where the Company conducts its business and other factors such as litigations and labour negotiations.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the

Company are being made only in accordance with authorizations of the Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
