## Nestlé India launches KIT KAT Dessert Delight - a unique premium innovation!

As a part of its vision to innovate whilst capturing the evolving consumer palette, Nestlé India, has now launched the all new "KIT KAT Dessert Delight" which pushes the boundaries of innovation.

The classic KIT KAT coated wafers now comes with a rich indulgent taste inspired by desserts. Long enjoyed and loved as a delightful treat for break times, the all new KIT KAT Dessert Delight now comes in a unique "finger-tablet" shape that has been developed exclusively for the Indian market.

Speaking about the new launch, Mr. Nikhil Chand, General Manager, Chocolates & Confectionery, Nestlé India said: "KIT KAT has been a benchmark for innovation in the coated wafer category. Keeping the brand's ethos in mind, we aim to provide an exciting new offering to our consumers through KIT KAT Dessert Delight. This not only has a unique taste inspired by Desserts, but also a very distinct 'finger-tablet' shape with 12 shareable cubes. It comes in an all-new premium packaging and will initially be launched in select cities."

The product will be launched in a phased manner and is currently available at an MRP of INR 55 (50g pack) in select cities and online on 'bigbasket' in these regions.
