--	--

Dear Sirs/Madam,

Subject:- Regulation 30 (Disclosure of events or information) SEBI (Listing Obligation and Disclosure Requirements), Regulations 2015

The Company has earlier on the 25th of October 2017 informed its shareholders about the launch of its new product called **AQUASTRIKE VCF: The Ecofriendly, nontoxic solution for Mosquito outbreak in several countries!**

We are pleased to inform our shareholders that the company has **received its maiden trial order from Vietnam**, The product will be commercially sold in Vietnam.

Aquastrike VCF is a non toxic, non polluting, Eco-friendly solution, produced in Malaysia with European design engineering. Simply poured on the water surface, just 1ml of the solution quickly covers a square meter of water surface, the chemical based liquid forms a thin molecule film, that doesn't stop water oxygenation (thus safe for marine life and ecology) but alters the water surface tension. As a result, larvae and pupae are unable to attach their breathing siphon and end up drowning. The adult mosquitoes while in the process of laying eggs on the water surface drown due to lower surface tension. Aquastrike is approved by Ministry of Health in Malaysia and declared as **Non-Pesticide** by the **Pesticide Board** and allowed to use freely by consumers.

Kindly take the same in your records.

Thanking You.

Yours faithfully,

For FINEOTEX CHEMICAL LIMITED
