Solix Technologies Showcases Common Data Platform at Oracle OpenWorld 2018

End-to-end big data application framework features AI-driven analytics

October 23, 2018 — San Francisco – ORACLE OPENWORLD — Solix Technologies, Inc. (**www.solix.com**), a leading provider of big data applications and Gold level member of Oracle PartnerNetwork (OPN), today announced it will be showcasing the Solix Common Data Platform (CDP) at Oracle OpenWorld 2018, the annual Oracle conference for business decision makers, IT management and end users, October 22-25, 2018 in San Francisco. The Solix CDP is an end-to-end big data application framework featuring uniform data collection, retention management, and advanced analytics for structured and unstructured data. Attendees can check out the Solix CDP at booth #3408 during the event.

The Solix CDP was recently recognized as a leader in Enterprise Data Platforms by research firm Frost & Sullivan. "The Solix Common Data Platform (CDP) provides granular knowledge and control of every data record from the moment it enters the system until the moment it is put in extended backup storage or purposefully deleted, and that makes Solix CDP vital to the value generation of an organization," said Alexander Michael, Director, Frost & Sullivan, ICT Practice.

The Solix CDP provides a best practice Information Lifecycle Management (ILM) compliance framework for data governance and secure access to all enterprise data through text search, structured query, and advanced analytics. Vertical-specific solutions of the Solix CDP include:

- Solix Data-driven Banking for retail banking, commercial banking, trading & capital markets, investment banking, and wealth management organizations.
- Solix Data-driven Finance for CFOs and finance and accounting shared services teams, powered by Emagia advanced analytics.
- Solix Data-driven Government for government agencies, reduce data center costs while strengthening compliance.
- Solix Data-driven Healthcare for providers, payers, pharmaceuticals, and medical equipment suppliers.

"MRP and ERP revolutionized how enterprises manage their data, and the Solix CDP is the next logical evolution — leveraging AI-driven analytics to give enterprises more insight than ever before," said Sai Gundavelli, Founder/CEO, Solix Technologies, Inc. *"We look forward to showcasing its capabilities at Oracle OpenWorld 2018."* To learn more about the Solix CDP, click here.

About Solix Technologies

Solix Technologies, Inc., is a leading big data application provider that empowers data-driven enterprises with optimized infrastructure, data security and advanced analytics by achieving Information Lifecycle Management (ILM) goals. Solix Big Data Suite offers an ILM framework for Enterprise Archiving and Enterprise Data Lakeapplications with Apache Hadoop as an enterprise data repository. The Solix Enterprise Data Management Suite (Solix EDMS) enables organizations to implement Database Archiving, Test Data Management (Data Subsetting), Data Masking and Application Retirement across all enterprise data. About Oracle PartnerNetwork

Oracle PartnerNetwork (OPN) is Oracle's partner program that provides partners with a differentiated advantage to develop, sell and implement Oracle solutions. OPN offers resources to train and support specialized knowledge of Oracle's products and solutions and has evolved to recognize Oracle's growing product portfolio, partner base and business opportunity. Key to the latest enhancements to OPN is the ability for partners to be recognized and rewarded for their investment in Oracle Cloud. Partners engaging with Oracle will be able to differentiate their Oracle Cloud expertise and success with customers through the OPN Cloud program – an innovative program that complements existing OPN program levels with tiers of recognition and progressive benefits for partners working with Oracle Cloud.
