**Vice Chairman and Managing Director of the company, Mr Anil Jain said:**

“ We are pleased to share with you the results for the quarter and half year ended September 2018. The performance of the Company has been above expectations in both the periods under consideration while still improving working capital cycle impactfully. During the second quarter, the Company has weathered the prevailing macro economy headwinds like rise in crude price, rupee depreciation and liquidity tightness among others. The Projects business has emerged as an additional driver to growth in our Plastics and MIS Divisions. For the second half of this year, we are positive on achieving our target growth and margins in all businesses and geographies. We would continue our focus on operational efficiency, working capital management and foreign exchange management, in our endeavor to generate free cash flow and significantly deleverage in the second half of this year. We are mindful of volatile external situations and shall remain cautious while pursuing new initiatives.
