FOR IMMEDIATE RELEASE

Mumbai : December 20, 2018

Time Technoplast has emerged as a leading producer of High Pressure Pipes and Corrugated Pipes for variety of applications including water, sewerage, effluent, industrial, etc. It already has healthy order book.

Company has now launched a new generation multilayer pipes for power / communication cable ducts with silicone in-lining. It has also developed associated components to offer as a complete package. These technology driven innovative products conform to international standards and are used for high performance applications. Such pipes/ducts are being introduced for the first time in the country and have substantial business potential.

Further to our earlier communication about receipt of first major order from reputed EPC Contractors for new generation power cable ducts at a value of over Rs. 40 crores in June '18, the Company is pleased to inform that it has further received additional orders for this innovative product, all adding upto Rs.150 crores, to be supplied within the current Financial Year.

The supplies made against the earlier order have been well received by the customers/EPC Contractors and Company is hopeful of getting additional / repeat orders which are in the pipe line.

Such power ducts are being manufactured for the first time in the country and will find multiple applications for Smart Cities and other advanced infrastructure projects.
