India consumption growth

Driven by rising affluence, rapid urbanization and changing consumption patterns

Further, rising affluence...

It is anticipated that by 2025, the top two categories elite and affluent will account for 40% of the total consumption (2016: 27%)

Source: Boston Consulting Group

Note: Income distribution – Elites correspond to household income of more than Rs. 20 Lacs, Affluent between 10-20 Lacs, Aspirers between 5-10 Lacs, Next Billion between 1.5-5 Lacs and Strugglers less than 1.5 Lacs

... rapid urbanization and changing consumption patterns towards higher quality and lifestyle products are the key growth drivers

By 2025, 40% of India's population is expected to migrate to cities and will account for about 60% of the total expenditure
