Shalby Naroda with 267 bed capacity launches its state-of-the art Radiation Therapy Centre

Ahmedabad, February 5, 2018

Shalby Hospitals, (Shalby Limited), one of the fastest growing multi-specialty tertiary care hospitals chain with leadership in Total Knee Replacement (TKR), added one more feather to its cap by launching state- of- the- art Radiotherapy Centre at its recently commissioned Naroda Shalby Hospital for the treatment of cancer patients. Naroda Shalby is the fourth multi-specialty hospital of the group in the city of Ahmedabad.

The Department of Oncology & Oncosurgery at Shalby Naroda has commissioned its Radiotherapy Centre equipped with Varian Trilogy Radiotherapy machine with FFF technology, the first of its kind in Gujarat on February 4, 2018, coinciding World Cancer Day. This latest model of Linear Accelerator with Flattening Filter Free (FFF) beam technology provides flexibility to clinicians to deliver conventional therapies to treat a wide range of tumors throughout the body. It also enables treatment of highly complex cancer types that require extreme targeting precision. The launch ceremony of this facility has been done at the hands of cancer survivors as a tribute to their fight against this dreaded disease.

Trilogy (FFF) is capable of performing all high-end treatments like; Intensity Modulated Radiotherapy (IMRT), Image Guided Radio Therapy (IGRT), RapidArc Therapy, Stereotactic Body Therapy (SBRT), Stereotactic Radiotherapy and Radio-surgery (SRT, SRS) and RPM GATING.

The department of Oncology at Shalby Naroda offers a wide range of treatment lines to cancer patients including; radiation oncology, surgical oncology, palliative care, medical oncology, diagnostic and interventional radiology such as Mammography, CT Scan, advanced X-ray, USG and MRI. Biopsy for cancer detection as per approved radiology guidelines are also performed at Shalby Naroda.

"The most modern multi-specialty amenities of this hospital are greatly benefiting the rapidly developing areas of Ahmedabad viz; Naroda, Sardarnagar, Shahibaug, Memco, Kalupur, Bapunagar, Vastral, Maninagar, CTM, Ramol, Isanpur, Vatva, Ghodasar, Chiloda, Dehgam, Krishnanagar, Kubernagar, Odhav, Bhat, Sughad, Nikol, Kathwada, Bilasiya, the northern part of Gujarat and the catchment areas of the neighboring states of Rajasthan and MP. With the spread of 6 hospitals in Gujarat, 4 in Ahmedabad and 2 in Surat and Vapi, Shalby hospitals has become the largest hospitals chain in the state. The Varian Trilogy that Shalby has introduced in Gujarat for the first time can treat cancer patients effectively with highly conformal dose distributions. This will reduce the treatment time, which will bring significant advantages to the patients" said Dr. Vikram Shah in a press statement.

Dr. Nilay Brahmachari, Chief Operating Officer at Shalby Naroda opined that "with a large set up of OPDs and 14 modern Operation Theatres, the hospital has started catering to patients from across the geographies. This radiation center is the first Private Centre of its kind in the entire

Eastern Ahmedabad. With Varian Trilogy incorporating FFF Technology, we have better grip and command to fight cancer, very effectively. Our Oncology department with its comprehensive cancer care, under one roof, will be a boon to needy cancer patients in this part of the city and its drainage area. Naroda Shalby is already catering international patients and we further hope to enhance our international patient base with this new feather in our cap”.
