## Press Release

### **KPIT expands mobility solution portfolio - Adds AIS-140 compliant telematics system**

**Pune, India | 14 February 2018:** KPIT (BSE: 532400, NSE: KPIT), today confirmed the availability of **India's first ARAI (Automotive Research Association of India)-certified AIS- (Automotive Industry Standard)-140 compliant vehicle telematics and emergency button solution** in line with the Ministry of Road Transport and Highways (MoRTH), Government of India's notification dated Nov 28<sup>th</sup> 2016. The AIS-140 regulation, applicable from April 1<sup>st</sup>, 2018, mandates a vehicle tracking device and one or more emergency button(s) in all existing and new public service vehicles.

KPIT's product is designed keeping in view the Indian operating conditions and aligned to future AIS140 roadmap such as Vehicle Health Monitoring, CCTV Camera, Passenger Information System etc. It can seamlessly integrate with the governments' command center and send emergency alerts as mandated in the regulation. KPIT product is designed for easy installation on the aftermarket vehicles apart from new vehicles.

In addition to the standard specifications, the product has provision to integrate market-first features like **Journey Risk Management** for driver safety , **CAN based Diagnostics** for easy maintenance, and **End of line diagnostic tools**. Transport operators will have an option to avail KPIT's cloud platform to ensure higher operational efficiency through real-time tracking, route optimization, driver behavior monitoring, etc.

**Sachin Tikekar, President and Board Member, KPIT** said, *"We are very excited to be part of India's safety mission towards developing intelligent transport systems and proactively support government initiatives in this direction. With AIS-140 telematics systems being designed and manufactured in India, they embody the 'Made in India, for India' promise. We truly believe that AIS-140 regulation will be pivotal in making public transport safer for all."*

## Salient Features of AIS-140 Vehicle Tracking system

- Easy to install
- Real-time vehicle updates
- Easy-to-integrate peripherals like voice box, LED Boards, etc.
- Battery backup upto 8-hour

## About KPIT

KPIT is a global technology company focused on automotive engineering and mobility solutions. Leveraging the company's two decades of experience in automotive engineering, KPIT is building engineering solutions and products to create safe, smart, and sustainable mobility in India and other developing countries addressing segments such as passenger buses, school buses, and commercial vehicles.
