To

Board of Directors of **The Supreme Industries Limited**

We have audited the quarterly standalone financial results of **The Supreme Industries Limited** ('the company') for the quarter and year ended 31 March 2018, attached herewith, being submitted by the Company pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

These standalone quarterly financial results as well as the year to date financial results have been prepared on the basis of the standalone Ind AS financial statements, which are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial results based on our audit of such standalone financial statements, which have been prepared in accordance with the recognition and measurement principles laid down in Accounting Standard prescribed under Section 133 of the Companies Act, 2013 read with relevant rules issued thereunder; or by the Institute of Chartered Accountants of India, as applicable and other accounting principles generally accepted in India.

We conducted our audit in accordance with the auditing standards generally accepted in India. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial results are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts disclosed in financial results. An audit also includes assessing the accounting principles used and significant estimates made by management. We believe that our audit provides a reasonable basis for our opinion.

In our opinion and to the best of our information and according to the explanations given to us these quarterly financial results as well as the year to date standalone financial results:

- (i) are presented in accordance with the requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 in this regard; and
- (ii) give a true and fair view of the net profit and other financial information for the quarter and year ended 31 March, 2018.

**Emphasis of Matter:**

Without qualifying, we draw attention regarding the under utilization of capacity of the Company's composite cylinder unit situated at Halol (Gujarat) having carrying value of fixed assets (excluding freehold land) Rs. 7309 lacs as on March 31, 2018. As explained by the management, Composite cylinders being a very technical product, getting various approvals is a long drawn process. Recently, BIS standards have also been published which will facilitate introduction of these cylinders in the domestic market. The Company is getting good enquiries from the export market and hopeful of significant breakthrough in near future. The cylinder product has also been procured by an oil marketing company for carrying out test marketing and it is confident of getting favourable response. In view of the same, no impairment provisioning is considered necessary. (Refer Note 5)

**Other Matter:**

The Statement includes the results for the Quarter ended 31st March, 2018 and corresponding quarter ended of the previous year being the balancing figure between audited figures in respect of full financial year and the published year to date figures up to the third quarter of the current and previous financial year which were subject to limited review by us.

#### **(J) Business Outlook**

**Mr. M. P. Taparia, Managing Director, The Supreme Industries Limited, said:**

The effect of Demonetization , GST and RERA looks to have settled down to a large extent. The economy is moving to formal sector slowly, but surely from informal sector. The several initiatives taken by Government to boost rural income and infrastructure are now fructifying to boost business in several segments which are catered by the Company . The Company, therefore, envisaged a faster growth in business from April 2019 and beyond.

Due to hardening of Polymer Prices and lack of new capacity build up of the PVC resin all around the world, the PVC prices have moved to higher band. For the year 2019-20, it is expected that the PVC price trend will remain on higher side. In spite of increase in Crude prices, the prices of Polythene will move to a lower level over the year as several new plants are starting in USA based on the low feed stock cost of Shale gas. Overall, the polymer prices will remain affordable.

The Company expects to commission two new Greenfield plants in production this year – one at Telangana and another at Rajasthan. The Company's additional construction of buildings in existing plants and start up of production at those sites will also go in production this year at Malanpur, Khopoli, Hosur and Kharagpur.

The Company intends to start two new plants at Andhra Pradesh and Assam. Land acquisition process has started. They may partially go into production next year.
