GRADUAL RECOVERY EXPECTED

GST, bank problems pushed India growth downward: UN

GDP is forecast to grow 7.2% in 2018 and 7.4% next year

PRESS TRUST OF INDIA
United Nations, May 8

INDIA'S ECONOMIC GROWTH was pushed downward in 2017 due to the Goods and Services Tax (GST) as well as protracted issues of corporate and bank balance sheet problems, according to a UN report which said the country is expected to recover gradually and grow at 7.2% in 2018.

According to estimates in the UN Economic and Social Commission for Asia and the Pacific's (ESCAP) flagship publication the Economic and Social Survey of Asia and the Pacific, India's GDP grew at 6.6% in 2017, down from 7.1% in 2016.

The report said that India's GDP is forecast to grow 7.2% in 2018 and 7.4% next year.

In India, the recently introduced GST as well as weak corporate and bank balance

sheets resulted in modest economic growth, but signs of recovery emerged in the second half of 2017, it said.

"The recently introduced Goods and Services Tax (GST) as well as protracted issues of corporate and bank balance sheet problems pushed the growth rate of India downward" in 2017, it said.

Developing Asia-Pacific economies are on track to record an overall growth rate of 5.8% in 2017, compared with 5.4% the previous year. They are projected to grow by 5.5% in both 2018 and 2019, with a slight moderation in China offset by a recovery in India and steady performance in the rest of the region.

"In India, a gradual recovery is expected; private investment is expected to revive as the corporate sector adjusts to GST, infrastructure spending increases and corporate and bank balance sheets improve with government support," the report said.

Tax reform and strengthening tax collection could also add as much as 8% to the gross domestic product (GDP) of

countries such as Myanmar or Tajikistan; and about 3 to 4% in larger countries, like China, India or Indonesia, according to ESCAP.

Further, weak corporate and bank balance sheets in India also contributed to a sharp slowdown in investment; thus, simply lowering policy interest rates was not enough to revive investment in that country. In India "the new bankruptcy code and the recapitalisation package for public sector banks are expected to support a gradual recovery in private investment."

The report said that consumption also strengthened in India as the impacts of demonetisation faded.

On the problem of India's bad loans, the report said the share of non-performing loans

in the country has doubled, and defaults on corporate bonds and syndicated loans have surged in recent years. By mid-2017, distressed bank loans reached a record high of ₹9,50,000 crore (\$148 billion), but more recent revelations suggest that the actual figure may be higher.

"The banking problem is closely related to high corporate leverage; thus, the two problems are known as the 'twin balance sheet' challenge. If it does not effectively address that challenge, India will continue to face weak private investment and modest economic growth," it said.

While it has been acknowledged that the GST has reduced the complexity of its taxation system, its tax laws still are perceived to be second most complex in the Asia-Pacific region — after those of China.

The report further noted that inflation accelerated in 2017 mainly as a result of increased food and fuel prices following severe floods in several countries and rising global oil prices.

I-T dept detects ₹100-crore evasion after raids on Delhi's catering & tent companies

PRESS TRUST OF INDIA
New Delhi, May 8

THE INCOME TAX Department (ITD) has unearthed an over ₹100 crore of black money and undisclosed income after it raided some major catering and pandal (tent) operators in the national capital region over the weekend.

Officials said a total of 43 premises of three major tent and catering operators were raided (searched and surveyed) since May 3 by the sleuths of the Delhi investigation wing of the ITD and till now a cash amount of ₹1.82 crore and jewellery worth ₹2.4 crore has been seized from them.

The catering, tent and pandal operators, who are in the business of organising big and fat weddings and other family celebrations in the NCR, have not been identified.

The department found that the operators were largely 'dealing in cash' and the sleuths have seized their mobile phones on which they used to deal with their clients, through SMSes and WhatsApp chats.

"All these messages on mobile phones and documents showing undisclosed cash receipts have been seized and

are being scrutinised. "These businessmen were evading tax for many years by under-reporting their sales and service charges," a senior official said.

Officials said about 15 bank lockers of these operators have also been frozen and the amount of black money or undisclosed income detected in this case could go well over the prima facie estimate of ₹100 crore.

"Some of these entities have also claimed bogus expenses in the form of purchases from shell companies," the official said.

The extent of evasion, in some cases, is about 100% of the income earned, he said.

The department is also scanning the list of those high-profile clients who were dealing with these caterers and pandal services by paying in cash, the official said.

ED registers money laundering case against Kerala-based PFI

PRESS TRUST OF INDIA
New Delhi, May 8

KERALA-BASED 'RADICAL' outfit PFI has been booked under criminal charges of money laundering by the Enforcement Directorate (ED) for its alleged links with terror activities and funding, officials said on Tuesday.

The move has come days after BJP president Amit Shah had said that if the party forms government in Karnataka, it would recommend a ban against the outfit which allegedly also operates in some parts of the poll-bound state.

The central probe agency has filed a case under the Prevention of Money Laundering Act (PMLA), based on a 2013 FIR of the NIA and a subsequent chargesheet.

Officials said the agency will look into the alleged role of the 'radical' outfit Popular Front of India (PFI) with respect to suspected terror funding and possible cere-

in Kerala's Idukki district, organising a training camp in Kannur from where the NIA allegedly seized swords, country-made bombs and ingredients for making IEDs, murder of RSS leader Rudresh in Bengaluru and the plans to carry out terror attacks in South India by involving another outfit, Islamic State Al-Hindi.

The NIA had filed its case against the PFI in 2013, after taking it from the state police, for allegedly organising a terror camp in Kannur in that year.

The anti-terror probe organisation, National Investigation Agency (NIA), had submitted a report on the PFI to the Union home ministry a few months back claiming that the group has been involved in terror activities, including running terror camps and making bombs, and it was a fit case to be banned under the Unlawful Activities (Prevention) Act (UAPA).

The cases which the NIA cited to claim PFI's alleged involvement in terror acts are: chopping of a professors palm

of assets by using "tainted" funds.

The anti-terror probe organisation, National Investigation Agency (NIA), had submitted a report on the PFI to the Union home ministry a few months back claiming that the group has been involved in terror activities, including running terror camps and making bombs, and it was a fit case to be banned under the Unlawful Activities (Prevention) Act (UAPA).

Inflation index for 10 services from June

PRESS TRUST OF INDIA
New Delhi, May 8

THE GOVERNMENT WILL come out with a Producers Price Index (PPI) next month for 10 services including telecom and railways on experimental basis, a government official said on Tuesday.

The move will help track inflation in these services, which will also include ports, postal, insurance, banking, transportation and air travel. "Services PPI will be released next month," the official said.

Two major indices are used currently for tracking price movement — Wholesale Price Index (WPI) and Consumer Price Index (CPI).

While the WPI measures price movement of goods in

wholesale markets, the CPI tracks inflation at retail level and also includes certain services.

While the incidence of taxes are accounted for in WPI and CPI, the PPI would reflect the cost at producers point sans taxes.

PPI measures the average change in the price a producer receives for his goods/services sold in the domestic market/exports.

In case of railways, price movement would be tracked for freight tariff and passenger fares. On the other hand, the index of banking would include direct services and fees.

The PPI for services assumes significance the sector contributes about 60% in the country's gross domestic product (GDP).

Nestle asked to deposit GST reduction gains

PRESS TRUST OF INDIA
New Delhi, May 8

NESTLE INDIA SAID on Tuesday that it has been asked by the National Anti-Profitteering Authority to provisionally deposit the sum computed by the company gained from GST rate reduction in Consumers Welfare Fund.

While it did not disclose the amount set aside, Nestle said in a filing that it has taken appropriate measures to pass on commensurate benefits of GST to consumers and will continue to do so. Nestle India said it had a discussion with the authority even as it was in the process of taking the next step to pass on the benefits to consumers.

"At the company's request, the authority through its communication has advised us to provisionally deposit the amount computed by us, suo moto, in the Consumer Welfare Fund to be constituted under Central GST and furnish the necessary documents," the firm added. Last year on November 15, the government had slashed GST rates on 178 items, including FMCG ones, from 28% to 18%.

Nestle India said: "In situations where the benefit could not be passed on instantly by reduction in MRP or increase in grammage, the amount was set aside to be subsequently passed on and was not reckoned either in sales or in profit."
