### **Explanatory Statement to item No. 7, 8 and 9 relating to Approval of Bajaj Finserv Ltd. Employee Stock Option Scheme, Issue and allotment of equity shares to employees of holding and subsidiary company(ies), and Acquisition of equity shares from secondary market through trust for implementation of BFS-ESOS**

The members of the Company vide special resolution dated 15 July 2009, had accorded their consent for the Employee Stock Option Scheme, for the Employees of the Company, its holding or subsidiary companies, framed pursuant to the Securities and Exchange Board of India (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 (hereinafter referred to as 'SEBI Guidelines'). The Scheme was not implemented by the Company. Securities and Exchange Board of India (SEBI) has, vide its notification dated 28 October 2014, notified the Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 (hereinafter referred to as 'SEBI Regulations') for regulation of, inter alia, employee stock option schemes of the listed companies and has since repealed the SEBI Guidelines.

Stock options have long been recognised internationally as an effective instrument to align the interest of employees with those of the company and its shareholders, providing an opportunity to employees to share the growth of the company, and to create long-term wealth in the hands of the employees. It creates a sense of ownership between the company and its employees, paving the way for a unified approach to the common objective of enhancing overall shareholders value.

In the present competitive economic environment in the country and in the long-term interests of the Company and its shareholders, it is necessary that the Company adopts suitable measures for attracting and retaining qualified, talented and competent personnel. An employee stock option scheme, designed to foster a sense of ownership and belonging amongst personnel, is a well-accepted approach to this end. It is, therefore, appropriate to consider an Employee Stock Option Scheme for the employees of the Company, its holding and subsidiary company(ies), if any.

The Board of Directors of the Company at its meeting held on 20 May 2009 has constituted a Compensation Committee, consisting of a majority of independent directors, for the administration and superintendence of BFS-ESOS and has approved appointment of merchant banker as required under the SEBI Regulations.

Based on the recommendation of the Compensation Committee and subject to the approval of members, the Board of Directors of the Company, at its meeting held on 17 May 2018 approved the BFS-ESOS for the benefit of permanent Employees and/or Directors of the Company and/or its holding or subsidiary company(ies), if any, as may be permissible under the SEBI Regulations.

### **Disclosure/main features of BFS ESOS pursuant to the SEBI Regulations and the Companies Act, 2013 are as under:**

#### **1. Brief description of the Scheme:**

The BFS-ESOS provides for grant of stock options to the permanent Employees and/or Directors of the Company and/or its holding or subsidiary company(ies), if any, as may be permissible under the SEBI Regulations (hereinafter referred to as 'Employees'). Each stock option will be, upon exercise, converted into one fully paid-up equity share of the Company of face value of ₹ 5.

## **2. Total number of stock options to be granted:**

Total stock options up to 4,500,000 convertible into 4,500,000 equity shares of the face value of ₹ 5 each fully paid-up would be available for being granted under the BFS-ESOS. Each option when exercised would be converted into one equity share of ₹ 5 each fully paid-up. Vested options lapsed due to non-exercise and/or unvested options which get cancelled due to resignation of the Employees or otherwise, would be available for being re-granted at a future date.

Considering the maximum number of stock options that may be granted under the BFS-ESOS, the dilution of the interest of public shareholders is expected to be 1.15% approximately.

## **3. Identification of classes of Employees entitled to participate in the Scheme:**

The class of Employees eligible for participating in the BFS-ESOS shall be determined on the basis of grade of the Employee, role/designation of the Employee, length of service with the Company, his role in and contribution to overall performance of the Company, the performance of profit centre/division to which he/she belongs, merits of the Employee, past performance record, future potential of the Employee and/or such other criteria that may be determined by the Compensation Committee at its sole discretion from time to time.

The stock options granted will not be transferable to any person and shall not be pledged, hypothecated, mortgaged or otherwise alienated in any manner. However, in the event of death of stock option grantee while in employment, the right to exercise all the options granted to him till such date shall be transferred to his nominees or legal heirs.

## **4. Requirements of vesting and maximum period of vesting:**

The stock options granted shall vest so long as the Employee continues to be in the employment of the Company, its holding and subsidiary company(ies), if any. The Compensation Committee may, at its discretion, lay down certain performance metrics on the achievement of which the granted options would vest, the detailed terms and conditions relating to such performance-based vesting, and the proportion in which options granted would vest. The options would vest not earlier than one year and up to 10 years from the date of grant of options as may be decided by the Compensation Committee at the time of each grant. The exact proportion in which and the exact period over which the options would vest would be determined by the Compensation Committee.

## **5. Exercise price:**

The exercise price for the purpose of grant of options will be the closing market price one day prior to the date of grant on the stock exchange where the highest trading volume of the equity shares of the Company is registered.

## **6. Exercise period and the process of exercise:**

The exercise period may commence from the date of vesting and will expire on completion of eight years from the date of vesting of options, or such period as may be decided by the Compensation Committee at its sole discretion from time to time. The Compensation Committee will decide on the expiry period of options for Employees leaving the Company after grant of options in their favour. The equity shares arising out of exercise of vested options would not be subject to any lock-in period after such exercise.

The options will be exercised by the Employees by a written application to the designated officer of the Company/trust set up for the purpose of administration of the BFS-ESOS to exercise the options in such manner, and on execution of such documents, as may be prescribed by the Compensation Committee from time to time.

The option will lapse if not exercised within the exercise period, if specified. The option may also lapse under certain circumstances as determined by the Compensation Committee even before expiry of the specified exercise period.

## **7. The appraisal process for determining the eligibility of the Employees for the Scheme:**

The appraisal process for determining the eligibility of the Employee will be specified by the Compensation Committee and will be based on criteria such as grade of the Employee, role/designation of the Employee, length of service with the Company, his role in and contribution to overall performance of the Company, the performance of profit centre/division to which he/she belongs, merits of the Employee, past performance record, future potential of the Employee and/or such other criteria that may be determined by the Compensation Committee at its sole discretion from time to time.

#### **8. Maximum number of options to be issued per Employee and in aggregate under the scheme(s):**

The maximum number of options granted per Employee will not exceed 800,000 options [i.e., 0.5% of total shares as on 31 March 2018]

Total stock options up to 4,500,000 convertible into 4,500,000 equity shares of the face value of ₹ 5 each fully paid-up would be available for being granted under the BFS-ESOS.

#### **9. Maximum quantum of benefits to be provided per employee:**

The maximum quantum of benefits underlying the options issued to an employee shall be equal to the difference between the option exercise price and the market price of the shares on the exercise date.

#### **10. Whether the Scheme is to be implemented and administered directly by the Company or through a Trust:**

The BFS-ESOS is proposed to be implemented and administered through Bajaj Finserv ESOP Trust (hereinafter referred to as 'Trust'). However, in the case of primary issue, the scheme may be implemented and administered directly by the Company as permitted under the SEBI Regulations.

The Company and/or its holding and subsidiary company(ies) may provide an interest free loan to the Trust to the extent required by it for the purchase of and/or subscription to equity shares of the Company for the purpose of issue of equity shares to the Employees of the respective company on exercise of stock options granted to them. The loan will be repaid by the Trust to the respective company upon receipt of exercise price by the Trust on exercise of stock options.

#### **13. Maximum percentage of secondary acquisition that can be made by the Trust for the purposes of the Scheme:**

The Trust can undertake secondary acquisition of equity shares of the Company so that the total number of shares under secondary acquisition held by the Trust shall not exceed, at any time, 5% of the paid-up equity shares of the Company as on 31 March 2018. Further, the number of equity shares of the Company that can be acquired by the Trust from the secondary market in any financial year shall not exceed 2% of the number of paid-up equity shares of the Company as at the end of the previous financial year.

#### **14. Disclosure and Accounting Policies:**

The Company and its holding and subsidiary company(ies), if any, shall comply with the disclosure and accounting policies prescribed by SEBI Regulations and any other authorities concerned, from time to time. The difference between the fair value of the options on the date of grant and the exercise price will be borne by the Company as an expense and amortised over the vesting period. # Chairman's Letter

## Dear Shareholder,

Bajaj Finserv is the holding company under which there are three key financial sector businesses: (i) lending through Bajaj Finance Ltd. (BFL), which is itself a listed company; (ii) general insurance, under Bajaj Allianz General Insurance Company Ltd., or BAGIC; and (iii) life insurance, under Bajaj Allianz Life Insurance Company Ltd., or BALIC. The insurance businesses are unlisted. In addition, there are wind-farm assets in Maharashtra with an installed capacity of 65.2 MW.

Let me briefly share with you the key achievements of your Company in FY2018 under BFL, BAGIC and BALIC.

## Lending: Bajaj Finance Ltd. (BFL)

In a tough year where real GDP is expected to have grown by 6.6% — less than the 7.1% achieved in FY2017, and 8.2% in FY2016 — BFL has continued to deliver outstanding results.

- Standalone assets under management (AUM) increased by 34% to ₹ 80,444 crore. Consolidated AUM rose by 40% to ₹ 84,033 crore.
- Total income rose by 33% to ₹ 13,329 crore.
- Profit after tax also increased by 44% to ₹ 2,647 crore.
- BFL's net NPA at 0.38% was among the lowest in the NBFC industry.
- Capital adequacy as on 31 March 2018 was 24.71%, which was well above the RBI norms.

## General Insurance: Bajaj Allianz General Insurance Company Ltd. (BAGIC)

BAGIC is a composite insurer offering various types of general insurance including motor, marine, health and various forms of corporate insurances. It ranks among the more profitable general insurers vis-a-vis peers of comparable size. Its combined ratio of 92.3% - a ratio below 100% indicates that the Company's core insurance business is profitable - is among the best in the industry.

BAGIC's results for FY2018 were as follows:

- Some 13 million policies were issued in the year, versus 10 million in FY2017.
- Gross written premium (GWP) rose by 23% to ₹ 9,487 crore.
- Net earned premium grew by 23% to ₹ 6,059 crore.
- Profit after tax increased by 27% to ₹ 921 crore.
- Solvency margin as at 31 March 2018 stood at 276%, which was well above the regulatory minimum margin of 150%.
- Return on average equity was 23%, same as the previous year.

## Life Insurance: Bajaj Allianz Life Insurance Company Ltd. (BALIC)

BALIC has also done reasonably well for FY2018, recording strong growth in new business, as the figures below indicate.

- Individual rated new business (NB) premium increased by 38% to ₹ 1,397 crore.
- NB premium grew by 29% to ₹ 4,291 crore.
- Gross written premium (GWP) grew by 23% to ₹ 7,578 crore.
- 13th month persistency saw improvement: up at 77% versus 68% in FY2017.
- Assets under management (AUM) grew by 5% to ₹ 51,970 crore as on 31 March 2018.
- Profit after tax was ₹ 716 crore.
- Solvency margin as at 31 March 2018 was 592%, which was well above the regulatory minimum margin of 150%.

I am also pleased to share with you several pieces of good news.

Firstly, BFL and BAGIC have again had record years – BFL has recorded its highest ever assets under management and profit after tax while BAGIC has registered its highest ever gross written premium and profit after tax.

Secondly, for the first time since their incorporation, BAGIC and BALIC have declared dividends of 100% and 70% respectively.

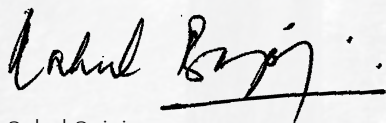

Finally, your Managing Director, Sanjiv Bajaj, has been selected by a prestigious jury as the Ernst and Young (EY) 'Entrepreneur of the Year for India, 2017'. My congratulations to him and BFS on this award.

So, as you can see, all the cylinders are firing. BFL continues to perform extraordinarily – delivering industry beating performance. BAGIC has also done very well. And BALIC has stabilised to produce growth with profit.

I hope that we will see even better performance next year.

Thank you for your support.

Yours sincerely,

Rahul Bajaj  
Chairman

## Lending

The Company participates in the financing business through Bajaj Finance Ltd. (BFL), a company listed on The Stock Exchange, Mumbai (the BSE) and the National Stock Exchange (NSE). On 29 September 2017, BFL was included in the benchmark Nifty Fifty index of the top 50 stocks in India.

BFL also operates through a 100% subsidiary, namely, Bajaj Housing Finance Ltd. ('BHFL' or 'Bajaj Housing') which is registered with National Housing Bank (NHB) as a Housing Finance Company (HFC) for its mortgage business. BHFL started its operations in FY2018 and all the incremental mortgage business is now done through BHFL.

During financial year 2017-18 or FY2018, BFL raised approximately ₹ 4,500 crore through Qualified Institutional Placement (QIP) route by issuing 2,66,27,218 equity shares of face value of ₹ 2 each and a premium of ₹ 1,688 per share. ## Macroeconomic Overview

FY2018 began uncertainly with the economy still dealing with the impact of demonetisation of ₹ 500 and ₹ 1,000 bank notes. Further, second quarter (July-September 2017) saw considerable disruption in economic activity on account of teething troubles that accompanied the rollout of the Goods and Services Tax (GST). The third quarter, however, has shown an uptick — posting 7.2% GDP growth vis-a-vis the same quarter in the previous year. This has prompted some to argue that the economy has recovered from demonetisation and the transition to GST, and that one should now expect a period of higher growth.

As it stands, however, the second advance estimates of national income for FY2018 released by the Central Statistics Office (CSO) on 28 February 2018 forecasts real GDP growth for the year at 6.6%, which is 50 basis points less than the 7.1% growth witnessed in FY2017.

Table 1 gives data on real GDP and gross value added (GVA) growth over the last four financial years.

**Table 1: Growth in Real GDP and GVA, India**

Particulars	FY2015	FY2016	FY2017	FY2018(E)
Real GDP growth	7.5%	8.2%	7.1%	6.6%
Real GVA growth	7.2%	8.1%	7.1%	6.4%

**Source:** Government of India, Central Statistics Office (CSO). (E) denotes estimate.

There are, however, some worrying trends. The first is the rising current account deficit (CAD). Slowdown in export growth and a sharp rise in crude oil prices threatens India's CAD, which crossed 2% of GDP during the quarter ended 31 December 2017. Though manageable, the room for manoeuvre is getting reduced, especially if crude oil prices remain above US\$ 70 per barrel. The second is rising inflation. 'Core inflation' (that is, excluding food and fuel) averaged at 4.7% during FY2018, which exceeds the RBI's medium-term target of 4%. If this continues, one could expect the RBI to again pursue a tight monetary policy. The third is the slower than anticipated bankruptcy resolution, which has effectively put a brake on bank credit.

Moreover, market interest rates have begun to harden. Bank lending rates have started rising; and other market driven interest rates such as that of the benchmark 10-year Government security have seen significant volatility during January-March 2018.

A positive is India should see higher GDP growth in next year. RBI has issued a growth forecast of 7.4% for FY2019. BFS, too, expects higher GDP growth, but is also prepared for greater uncertainties and higher interest rates.

## Annexure 1 to Independent Auditors' Report

**Annexure 1 referred to in paragraph (f) under the heading 'Report on other legal and regulatory requirements' of our report of even date on the consolidated financial statements of Bajaj Finserv Ltd.**

### **Report on the internal financial controls under clause (i) of sub-section 3 of section 143 of the Companies Act, 2013 ('the Act')**

In conjunction with our audit of the consolidated financial statements of Bajaj Finserv Ltd. as of and for the year ended 31 March 2018, we have audited the internal financial controls over financial reporting of Bajaj Finserv Ltd. (hereinafter referred to as the 'Holding Company') and its subsidiary companies and its jointly controlled entity, which are companies incorporated in India, as of that date.

#### **Management's responsibility for internal financial controls**

The respective Board of Directors of the Holding Company, its subsidiary companies and its jointly controlled entity, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

#### **Auditor's responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, both, issued by Institute of Chartered Accountants of India, and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

#### **Meaning of internal financial controls over financial reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

## Annexure 1 to Independent Auditors' Report (Contd.)

- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### Inherent limitations of internal financial controls over financial reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### Opinion

In our opinion, the Holding Company, its subsidiary companies and its jointly controlled entity, which are companies incorporated in India, have, maintained in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Timing differences are the differences between taxable income and accounting income for a period that originate in one period and are capable of reversal in one or more subsequent periods.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the Balance Sheet date. Deferred tax assets are recognised and carried forward only to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. If the Company has unabsorbed depreciation or carry forward business losses, deferred tax assets

are recognised only if there is virtual certainty supported by convincing evidence that such deferred tax assets can be realised against sufficient future taxable profits.

At each Balance Sheet date, the Company re-assesses unrecognised deferred tax assets. It recognises previously unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realised.

Deferred tax asset (net of the deferred tax liability) is disclosed on the face of the Balance Sheet. The break-up of deferred tax assets and deferred tax liabilities into major components of the respective balances has been disclosed in the notes.

#### **p. Service tax/goods and service tax (GST)**

Effective 1 July 2017, applicability of Service Tax has been replaced by Goods and Service Tax (GST). Service tax/GST collected is considered as a liability against which service tax/GST paid for eligible input services, to the extent claimable, is adjusted and the net liability is remitted to the appropriate authority as stipulated. Unutilised Service Tax credits if any outstanding on 30 June 2017 were eligible to be carried forward and utilised against future GST liability within specified time. Unutilised GST credits, if any, are carried forward under 'Others – Unutilised GST carried forward' and disclosed for adjustments in subsequent periods and GST liability to be remitted to the appropriate authority is disclosed under 'Others- GST payable'. Service tax/GST paid for eligible input services not recoverable by way of credits is recognised in the Revenue Account as expenses under a separate line item.

#### **q. Provisions, contingent liabilities and contingent assets**

A provision is recognised when an enterprise has a present obligation as a result of a past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are neither recognised nor disclosed in the financial statements.

### A. Bajaj Allianz Life Insurance Company Ltd.

#### 1. Actuarial method and assumptions

Liabilities for life insurance policies (Reserves) are determined by the Appointed Actuary in accordance with the IRDAI Regulations and relevant practice standards and guidance notes issued by the Institute of Actuaries of India.

Non-linked business is reserved using the prospective gross premium method of valuation. The non-linked business is predominantly participating and the reserves are established having regard to the assumptions as to future experience, including the interest rate that will be earned on premiums not yet received, together with associated bonus rates. Regular premium participating and non-participating business has been reserved using an interest rate range from 6.50% per annum to 7.50% per annum (previous year: 6.25% per annum to 7.25% per annum), which includes an increase of 25 basis points compared to previous financial year. Further, margin for adverse deviations as per APS 7 issued by Institute of Actuaries of India is considered.

Assumptions as to the future bonus rates are set to be consistent with the interest rate assumptions. Provision has been made for bonus distribution in respect of business in force at the valuation date on a basis considered appropriate by the Appointed Actuary having taken into account the reasonable expectations of policyholders.

The policies under Invest Plus and Invest Plus Premier products in the non-linked non-par business has been reserved using an interest rate 7.00% (previous year: 6.75%) and the Guaranteed Investment Return (GIR) consistent with the interest rate assumption.

Linked business has been reserved using the unit price of the respective unit funds prevailing at the valuation date plus a non-unit reserve to allow for the cost of insurance and any expenses and commissions in excess of future charges.

Mortality assumptions are based on the published 'Indian Assured Lives Mortality (2006-2008) ultimate mortality table' with adjustments to reflect expected experience and with an allowance for adverse deviation. Assumptions for morbidity and for the incidence of accidental death are based on terms available from reinsurers and the standard morbidity rate table 'CIBT 93 (Critical Illness Base Table for year 93)'.

Reserve are sufficient to allow for any adverse lapse experience. Further, it has been ensured that for each policy the reserve is sufficient to pay the minimum guaranteed surrender value.

Commission has been allowed for at the Company's table rates with an allowance for service tax/goods and service tax. Maintenance expenses have been allowed for in accordance with pricing assumptions with an allowance for adverse deviation and are adjusted to reflect actual experience of the Company where such amount allowed are not adequate. An additional reserve has been included to allow for the contingency of closure to new business as is required by guidance notes (APS1) issued by the Institute of Actuaries of India.

Reserves for group term business have been calculated having regard to the unearned gross premium and expenses already incurred. The group non-linked non-par savings business has been valued having regard to the accrued account value of the members of the group schemes.

### A. Bajaj Allianz Life Insurance Company Ltd. (Contd.)

As per the IRDA (Treatment of Discontinued Linked Insurance Policies) Regulations, 2010, a segregated fund called 'Discontinued Policy Fund' is maintained for the discontinued policies of the products which are launched on or after 1 September 2010. The fund value as at the date of discontinuance after deducting the discontinuance charges as applicable by said regulations is credited to the discontinued fund. As an assured return is guaranteed on this fund, reserve is held towards the shortfall in meeting the guarantee on the reporting date, if any.

Provisions have been made for the incurred but not reported death claims (IBNR) based on the Company's past experience of delay in reporting the event of deaths.

Reserves are held for free look option given to the policyholders based on the free look cancellation rate which varies between 0.04% and 3.79% (previous year: 0.04% and 3.79%).

Where minimum surrender value is guaranteed, the minimum reserve under those policies has been set as the guaranteed surrender value. In all other cases the minimum reserve has been set to zero.

Additional reserves are held for substandard lives and guaranteed insurability options available.

Provisions for future claims in payment are made as part of other contingency reserves.

The Appointed Actuary is satisfied that the nature and extent of reinsurance arrangements require no additional reserve to be set aside. All reserves have been calculated using gross exposure and gross office premiums.

### 33 Cash flow statement

Two subsidiaries of the Company carrying out insurance business, are mandated by IRDA regulations to draw up cash flows on direct method due to the unique nature of their business and reporting framework. Owing to the impracticability to draw up meaningful cash flow statements of these two subsidiaries on the indirect method as done by the parent, a detailed consolidated cash flow statement on a consistent method across the group is not possible.

However, to better view cash flows of the group, the cashflow statement has been drawn up at an activity level on the basis of their independent cash flows statements.

The independent cash flow statements of the two insurance subsidiaries are attached herewith for viewing.

Consolidated cash flows for the year could be better viewed when summarised as follows:

## Annexure 2 to Independent Auditors' Report

### Annexure 2 referred to in paragraph 2(f) under the heading 'Report on other legal and regulatory requirements' of our report of even date

#### Report on Internal Financial Controls under Clause (i) of sub-section 3 of section 143 of the Companies Act, 2013 (the 'Act')

We have audited the internal financial controls over financial reporting of Bajaj Finserv Ltd. (the 'Company') as of 31 March 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

#### Management's responsibility for internal financial controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

#### Auditor's responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the 'Guidance Note') and the Standards on Auditing as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

#### Meaning of internal financial controls over financial reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

## Annexure 2 to Independent Auditors' Report (Contd.)

(3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Inherent limitations of internal financial controls over financial reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

The Company has prepared these financial statements to comply in all material respects with the Accounting Standards notified under section 133 of the Companies Act, 2013 read together with paragraph 7 of the Companies (Accounts) Rules, 2014, as amended and the Companies (Accounting Standards) Amendment Rules, 2016 and the RBI guidelines/regulations to the extent applicable.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. The Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities. The accounting policy adopted in preparation of financial statements are consistent with those followed in previous year.

### 1) Use of estimates

Estimates and assumptions used in the preparation of the financial statements and disclosures are based upon Management's evaluation of the relevant facts and circumstances as of the date of the financial statements, which may differ from the actual results at a subsequent date.

### 2) Revenue recognition

#### a) Income

The Company recognises income (including rent, etc.) on accrual basis to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. However, where the ultimate collection of revenue lacks reasonable certainty, revenue recognition is postponed.

- (1) Income from debentures and bonds is accrued over the maturity of the security, net of amortisation of premium/discount, thereby recognising the implicit yield to maturity, with reference to the coupon dates, where applicable.
- (2) Dividends are recognised in the Statement of Profit and Loss only when the right to receive payment is established.
- (3) On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the Statement of Profit and Loss. Profit/loss on sale of investments is recognised on the trade date.

#### b) Wind-farm income

Income from windpower generation is recognised on acceptance by Maharashtra State Electricity Distribution Company Ltd. (MSEDCL) of units generated and after giving allowance for wheeling and transmission losses. Simultaneously, relevant entitlements for generating green energy are recognised to the extent the ultimate collection is reasonably certain.

### 3) Property, plant and equipment and depreciation/amortisation

#### A. Property, plant and equipment

- i) Property, plant and equipment, capital work in progress except land are carried at cost of acquisition or construction as the case may be, less accumulated depreciation and amortisation. Land is carried at cost

of acquisition. Cost comprises of the purchase price including import duties and non-refundable taxes, and directly attributable expenses incurred to bring the asset to the location and condition necessary for it to be capable of being operated in the manner intended by the Management. The Company identifies and determines cost of each component/part of the asset separately, if the component/part has a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset. When significant parts of property, plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the Statement of Profit and Loss as incurred.

- ii) Gains or losses arising from derecognition of property, plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.
- iii) Land and buildings acquired/constructed, not intended to be used in the operations of the Company are categorised as investment property under Investments.

### B. Depreciation and amortisation

- (a) Leasehold land  
Premium on leasehold land is amortised over the period of lease.
- (b) On other tangible assets
  - i. a. Depreciation is provided on the straight line method over the useful lives of the assets.
  - b. Where a significant component (in terms of cost) of an asset has an economic useful life shorter than that of its corresponding asset, the component is depreciated over such shorter life.
  - c. Useful life of assets are determined by the Management by internal technical assessments.
  - ii. Assets which are depreciated over useful life/residual value different than those indicated by Schedule II to the Companies Act, 2013 are as under:

#### **Asset class having residual value at ₹ 1**

---

Computers

---

Furniture

---

Office equipment

---

Electric fittings

---

- iii. Depreciation on additions is being provided on pro rata basis from the month of such additions.
- iv. Depreciation on assets sold, discarded or demolished during the year is being provided upto the month in which such assets are sold, discarded or demolished.
- v. The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

### C. Impairment of assets

An assessment is done at each Balance Sheet date as to whether there are any indications that an asset may be impaired. If any such indication exists, an estimate of the recoverable amount of the asset/Cash Generating Unit (CGU) is made. Where the carrying value of the asset/CGU exceeds the recoverable amount, the carrying value is written down to the recoverable amount.

#### 4) Investments

- a) Current investments representing debt securities with a maturity less than 1 year and those intended to be held for a period less than 1 year from the date on which the investment is made are stated at the lower of cost adjusted for amortisation and diminution; and fair value.
- b) Debt securities, other than current, are carried at cost, less amortisation of premium/discount, as the case may be, and provision for diminution, if any, as considered necessary.
- c) Other long-term investments (eg. equity, mutual funds, etc.) are carried at cost. However, provision for diminution is made to recognise a decline, other than temporary, in the value of the investments. Current investments are valued at the lower of cost or fair value.
- d) Long-term investments are carried at cost. However, provision for diminution is made to recognise a decline, other than temporary, in the value of the investments.
- e) Long-term investments maturing within 12 months from the close of the year (current maturities) are disclosed as current investments.
- f) The Management has laid out guidelines for the purpose of assessing likely impairments in investments and for making provisions based on given criteria. Appropriate provisions are accordingly made, which in the opinion of the Management are considered adequate.
- g) Investment property represents immovable property not intended to be used for the Company's own operations and is carried at cost, less depreciation computed in the manner prescribed under Schedule II to the Companies Act, 2013.

#### 5) Employee benefits

##### a) Compensated absences and long-term incentive plan

Compensated absences entitlements are recognised as a liability, in the calendar year of rendering of service, as per the rules of the Company. As accumulated leave can be availed and/or encashed at any time during the tenure of employment the liability is recognised on the basis of an independent actuarial valuation.

The Company's liability towards long-term incentive plan, being a defined benefit plan, is accounted for on the basis of an independent actuarial valuation.

They are therefore measured at the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation.

Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in Statement of Profit or Loss.

##### b) Gratuity

The Company operates defined benefit plan for its employees, viz., gratuity. Payment for present liability of future payment of gratuity is being made to an approved gratuity fund, which fully covers the same under cash accumulation policy and debt fund of the Life Insurance Corporation of India (LIC) and Bajaj Allianz Life Insurance Company Ltd. (BALIC). However, any deficit in plan assets managed by LIC and BALIC as compared to the liability on the basis of an independent actuarial valuation is recognised as a liability.

The liability or asset recognised in the Balance Sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets.

Notes to standalone financial statements for the year ended 31 March 2018 (Contd.)

## 2 Summary of significant accounting policies followed by the Company (Contd.)

The defined benefit obligation is calculated annually by an independent actuarial valuation using the projected unit credit method in conformity with the principles and manner of computation specified in Accounting Standard 15. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in Statement of Profit or Loss.

### c) Defined contribution plans

The Company operates three defined contribution plans for its employees:

- Contribution to superannuation fund as per the scheme of the Company
- Contribution to provident fund is made to Government Provident Fund Authority
- Contribution to Employees Pension Scheme 1995 is made to Government Provident Fund Authority

The Company recognises contribution payable to these fund/schemes as an expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the Balance Sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the Balance Sheet date, then excess is recognised as an asset to the extent that the prepayment will lead to, for example, a reduction in future payment or a cash refund.

## 6) Taxation

- a) Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, in accordance with the Income-tax Act, 1961 and the Income Computation and Disclosure Standards prescribed therein. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.
- b) Minimum alternate tax (MAT) paid in a year is charged to the Statement of Profit and Loss as current tax. MAT is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income-tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal tax during the specified period.
- c) Deferred tax resulting from timing difference between book profits and taxable profits are accounted for to the extent deferred tax liabilities are expected to crystallise with reasonable certainty. However, in case of deferred tax assets (representing unabsorbed depreciation or carried forward losses) are recognised, if and only if there is virtual certainty that there would be adequate future taxable income against which such deferred tax assets can be realised. The carrying amount of deferred tax assets are reviewed at each reporting date. The Company writes-down the carrying amount of deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

## 7) Provisions and contingent liabilities

The Company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

## 2 Summary of significant accounting policies followed by the Company (Contd.)

### 8) Operating leases

#### As a lessee

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are charged to the Statement of Profit and Loss on a straight line basis over the period of the lease.

#### As a lessor

Leases where the lessor substantially retains all the risks and rewards of ownership are classified as operating leases. Lease income on such operating leases are recognised in the Statement of Profit and Loss on a straight line basis over the lease term which is representative of the time pattern in which benefit derived from the use of the leased asset is diminished. Initial direct costs are recognised as an expense in the Statement of Profit and Loss in the period in which they are incurred.

### 9) Cash and cash equivalents

In the cash flow statement, cash and cash equivalents include cash in hand, demand deposits with banks, other short-term highly liquid investments with original maturities of 3 months or less.

### 10) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining the Company's earnings per share is the net profit for the period. The weighted average number of equity shares outstanding during the period and all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of share outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

### 11) Segment reporting

- a) Identification of segments  
The Company's operating businesses are organised and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets.
- b) Inter-segment transfers  
The Company generally accounts for inter-segment sales and transfers at cost plus appropriate margins.
- c) Allocation of common costs  
Common allocable costs are allocated to each segment according to the relative contribution of each segment to the total common costs.
- d) Unallocated items  
Unallocated items include general corporate income and expense items which are not allocated to any business segment.
- e) Segment accounting policies  
The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.
