Some traders had unfair access to NSE systems: Sebi

Sebi makes it easier to raise funds via IPOs

FROM PAGE 1

Regulator concludes probe, starts enforcement process

Jayshree P. Upadhyay

MUMBAI

The capital markets regulator's probe into the National Stock Exchange of India's (NSE's) algorithmic trading platform has found that some traders had unfair access to market data and trading systems, a person familiar with the matter said.

The Securities and Exchange Board of India (Sebi) on Thursday said that it has concluded its two-and-a-half-year long investigation into the issue and has started enforcement proceedings. It did not disclose details.

"We have received the investigation reports from the forensic auditors and also our internal team reports," Sebi chairman Ajay Tyagi said after a meeting of its board. "We have taken into consideration their recommendations and based on that we have initiated enforcement proceedings against institutions and individuals."

Where Sebi's probes stand

- NSE co-location case:** Regulator concludes investigations into brokers' role in the case involving unfair access for some traders, starts enforcement
- ICICI Securities IPO:** Investigations are ongoing in violation of model code of conduct when ICICI mutual fund invested in ICICI Securities' share sale
- WhatsApp leaks case:** Probe in final stages, regulator has received reports from four companies, including HDFC Bank, Axis Bank, Tata Motors and Bata India, on alleged leak of insider information
- ICICI Bank disclosure violations:** Sebi set to receive reply from the bank
- Auditor resignations:** Regulator to look into select cases under Sebi norms, will issue a discussion paper on roles of entities auditors and valuers

Vikram Limaye, managing director and chief executive officer of NSE, indicated in a 24 May interview that it will reapply for consent once Sebi concludes its investigations and hoped the NSE listing would happen by March.

This is the second part of Sebi's probe into unfair access on NSE's co-location or algorithmic trading platform. The first part, which was concluded in April last year, focused on lapses at the exchange and its systems.

This current probe was to ascertain how much money brokers made from unfair access. Tyagi did not elaborate on the extent of these gains. Sebi probed the role of more than 20 brokers, the person cited above said on condition of anonymity. The Sebi chief said the regulator is also investigating the ICICI Securities Ltd IPO, where affiliate ICICI Prudential Mutual Fund made a large investment to bail out the IPO.

Mint first reported it on 24 April. In the case of ICICI Securities, the brokerage had cut its IPO size to ₹3,520 crore from the original target of ₹4,017 crore because of poor investor interest. Of this, a large chunk was bought by ICICI MF. Sebi is investigating ICICI MF's investment to ascertain if the fund house is in violation of the model code of conduct prescribed in Sebi's norms for mutual funds.

ICICI MF is ICICI Securities' largest public shareholder with 3.82% stake, according to the company's shareholding pattern on BSE. An email sent to ICICI MF remained unanswered at press time.

unyielding and obsolete, and was still referring to the Companies Act, which were redundant and the language was tedious," said Haldea. "The basic task for me was to rewrite the language in simple English for investors. While doing that, we found that there were many regulatory norms that were required to take care of the market practices, IPO size and international practices."

The markets watchdog has updated the references to the new Companies Act that came into force in April 2014.

Changes to governance norms for exchanges and depositories were based on the recommendations of the R. Gandhi panel, which had submitted its report in the last week of March. According to new norms, the tenure of the managing director and the CEO of an exchange, or a depository, will be capped at two terms of five years each, up to the age of 65 years.

Other changes include uniform ownership norms across exchanges and depositories. Eligible financial and foreign institutions can hold as much as 15% in depositories and clearing corporations. Independent directors can have three terms of three years each, up to the age of 75 years.

With respect to takeover regulations, Sebi has proposed changes related to revision of the open offer price. This is after public consultations on a discussion paper issued in March reviewing Substantial Acquisition of Shares and Takeovers Regulations.
