Zensar Joins Oracle Cloud Excellence Implementer Program to Drive Customer Success

Oracle Cloud Excellence Implementer Program Recognizes Zensar for Delivering Successful Oracle Cloud (Oracle Financial Cloud) Implementations in North America.

June 20, 2018, North America: Zensar, an Oracle Cloud Standard and Platinum level member of Oracle PartnerNetwork (OPN), today announced it has joined the Oracle Cloud Excellence Implementer (CEI) program and has achieved CEI status in Oracle ERP Cloud's financial management application, Oracle Financials Cloud (General Ledger, Payables, Receivables and Collections) in North America geography. Oracle launched the CEI partner program at OpenWorld 2017 to accelerate customers' digital transformation in the cloud. The program recognizes and rewards partners that continually demonstrate expertise, a successful track record, and superior customer satisfaction in delivering high quality Oracle Software as a Service (SaaS) Cloud implementations to customers.

Sandeep Kishore, Chief Executive Officer and Managing Director, Zensar said, "We are excited to be part of the Oracle Cloud Excellence Implementer program within a year of its launch in our biggest market, North America. Oracle Cloud Applications fit perfectly well in Our Return on Digital® strategy, which empowers our global customers to leverage the benefits from its business acceleration capabilities. We look forward to a deeper relationship with Oracle as we focus on deepening our expertise in this area."

The CEI program was developed to provide customers with a clear, objective and informative view of partner qualifications for implementing Oracle Cloud solutions. Through the OPN Solutions Catalog, customers are now able to identify and engage with partner firms that best align to their specific project needs. Access to this information helps customers minimize implementation risk, quickly adopt new cloud functionality, and realize the maximum potential of the Oracle Cloud.

"Oracle is committed to helping our partners drive customer success across the Oracle Cloud portfolio," said **Camillo Speroni, Vice President of Worldwide Strategic Alliances, Oracle.** "We remain committed to providing partners with the training and resources needed to drive customer advocacy, and make the journey to cloud as smooth and successful as possible for customers."

"Our Oracle practice is mature and we have had multiple successful Oracle SaaS implementations. Having achieved CEI status underlines our understanding of Oracle Cloud Applications, how we can help our customers reap maximum benefits from it. We look forward to more joint successes in future," **Prasad Deshpande, Senior Vice- President and Global Head of Central Practices Organization, Zensar.**

Business can expect to look at the following benefits from Zensar's implementation of Oracle Cloud Applications:

- Streamlined and automated financials planning and back office financials accounting operations to enable visible cost reduction
- Improved operational efficiency
- Experience in having successful deployment of Oracle Cloud Applications to support customer's accelerated business growth
