## ***8K Miles Achieves ISO/IEC 27001:2013 Information Security Management System Certification***

Chennai, India June 11, 2018 - **8K Miles Software Services Limited** (NSE:8KMILES; BSE:512161), announced today that the Company has achieved ISO/IEC 27001:2013 Certification for Information Security Management System for providing Cloud Services, Identity Access Management, Big Data and IT Management. Given the way the public cloud adoption is accelerating at the enterprise level and the demand for highly secure systems growing at a rapid pace, this major milestone will help 8K Miles in providing our customers a secure platform for their Cloud Transformation and Managed Services.

*Suresh Venkatachari, Chief Executive Officer of 8K Miles* stated, "Achieving the ISO/IEC 27001:2013 was a major milestone for us in providing highly secure Cloud Transformation and Managed Services to all our customers. This demonstrates our continuous commitment to enhance our competencies to provide the level of secure solutions that our enterprise customers have started to expect from us. Combined with our Nexgen MSP competency, we are uniquely positioned to offer highly secure solution to our customers from Cloud Transformation to Operations to Optimization covering the complete spectrum in cloud services making as a partner of choice for our customers in the competitive market place" *Mr. Venkatachari* added, "This shows that at 8K Miles, we constantly strive to add value to our customers and ISO certification is just one such initiative in that endeavor".

*Ravi Chandran, EVP and Head of India Operations,* added "The ISO Information Security Management Certification is an acknowledgement of our security policies and procedures that we have been practicing for long in order to provide the highly secure solution for our customers in the cloud journey. Equally importantly, the certification covers the core areas that we are actively engaged with our enterprise customers - providing Cloud Services, Identity Access Management, Big Data and IT Management. This milestone along with our other accredited Public Cloud competencies and our platform-centric approach to Cloud Transformation and Managed Services make our solutions truly compelling in the market place as it provides the level of speed of transformation while ensuring the stringent security requirements of the customer are not compromised"

**About 8K Miles Software Services ([www.8kmiles.com](http://www.8kmiles.com))**

8K Miles Software Services is a global Cloud & Security solutions provider and Next Generation Cloud MSP headquartered in the San Francisco Bay area and a publicly traded company listed on Indian Stock Exchanges (NSE and BSE). 8K Miles Software Services offers secure Cloud solutions allowing for organizations in highly regulated industries to embrace the Cloud and that can meet GxP, HIPAA, PCI, SOX and GLB making it easy to meet regulatory compliance on the Cloud. 8K Miles CloudEz platform combines Automation, Security, Governance and Validation for regulatory compliance, helping to reduce costs and time to market. 8K Miles MISP provides automation capabilities for onboarding SaaS Applications and any cloud applications to Cloud Identity Management platforms.
