# AAR rules out GST refund for post-sales discounts

n a setback to the common na setback to the common market practice of trade discounts, the Authority for Advance Rulings (AAR) of Maharashtra has ruled out a goods and services tax (GST) refund in the case of post-sales discounts offered by manufacturers to dealers.

urseto dealers.

The case pertains to UltraTech Cement, which Sought clarity over the possibility of GST refund in the case of discount offered to its dealers after sale. The move is expected to result in a slew of litigation and prompt the industry to re-

The applicant, UltraTech Cement, cites an example where a dealer has to sell a 50 where a dealer has to sell a 50 kg cement bag to the final customer at 259, against the original purchase price of 2500. The street of the first purchase price of 2500. The street of the first purchased on the trade practice allowed that there will be compensation that there will be compensation in the form of rate places of significant correction of case of significant correction of

difference or trade discount in case of significant correction of prices," it said. However, AAR ruled that according to GST law, the discount given after the goods have been sold has to be established in terms of agreement signed before or at the

time of sale of goods.

This means that the discount to be given has to be mentioned in the terms of the agreement entered into at the time of 3alc. The wordings of section 15 (3) (b) (d) of the CGSP Act clearly states that the quantum of discount given after the supply of goods has taken place has to be there in the agreement. It can

practice.

There are two kinds of dis-

practice.
There are two kinds of discounts. One, where discounts are offered on the invoice itself and second, when discount are offered post sale on account of market correction or to liquidate old inventory. While GST benefit is offered in the first case, refund of GST paid is not allowed in the second case.

The ortain cases, due to the highly competitive and dynamic market conditions, the authorised dealers or stockists of the manufacturers have to self stock at a price lower than the purchase price to continue in business and are in turn compensated for the rate difference by the manufacturer

er, the application said. For example, in case of mobile phones, older versions are sold at a discount to liquidate inventory. Besides, in case of GST rate reduction from 28 per cent to 18 per cent, manufacturers may offer discount to dealers in lieu of the lower GST rate that they had to offer to the customer or nold stock, it is also a common practice within manufacturers to offer dismanufacturers to offer dismanufacturers to offer dis-

manufacturers to offer dis-count to traders for doing a cer-tain number of sales during the quarter.

The GST Council, in the last

meeting, reduced rates on a range of items in the 28 per cent category, including refrigera-tors, small TVs, paints and washing machines.

## Jaitley sees GST rate cut on ACs, cement with rise in revenue

Union Minister Arun Jaitley exuded confidence that GST rates on cement, ACs and televisions will be cut as tax re-

visions will be cut as tax revisions will be cut as tax revisions and only luxury and sing goods will attract the highest slab of 28 per cent. Beechook post, Jalley termed the pre-GST indirect tax regime, during which most of the household fterns attracted a levy of 31 per cent, "Congress Legacy Tax," The past one year, Legacy Tax," The past one year, Legacy Tax, "The past one year, the added, has seen rate reduction in 384 commodities. Referring to services sector, Resaid os different categories of services have witnessed their rate reduction.

The net revenue loss which Government have suffered on account of the reduction of lax on goods and services is about 2700 billion. Since State Covernments have been guaranteed a 14 per cent increase over their pre-GST revenues for the first five years, this burden has entirely been borne from the share of the Central Government," Jailley said.
