## KPIT launches its First Center of Excellence for PTC Technology in the U.S.

A Customer Experience Center showcasing solutions by KPIT on PTC's ThingWorx Industrial Innovation Platform

**Raleigh, North Carolina, USA, July 30, 2018:** KPIT Technologies (BSE: 532400; NSE: KPIT) has launched the first Center of Excellence (CoE) showcasing PTC technology in the US, at KPIT's Raleigh, North Carolina location. The launch event, themed "Elevate to the Connected World with Smart Manufacturing and Connected Products," demonstrated how to build great customer experiences on the ThingWorx® Industrial Innovation Platform using KPIT accelerators.

The hands-on demos focused on Journeys to Excellence in manufacturing across the value chain of Model – Make – Move – Manage. Industrie 4.0 technologies used included connected devices, integrated sensors, the ThingWorx platform and augmented & virtual reality. Customers participating in the CoE launch experienced how KPIT has enabled faster time to market by creating a closed loop manufacturing cycle between engineering, product manufacturing, supply chain and service using ThingWorx.

Excited about the launch of the first KPIT CoE in the US, Probodh Chiplunkar, Head of Digital Business at KPIT said, "It is the first of its kind in the US, and the second CoE that PTC and KPIT have collaborated on globally. Companies today want to create digital experiences for their users that are fast to build, yet scalable for the enterprise. Enabled by our accelerators built on PTC technologies, companies can quickly integrate IT and Operations Technologies for a connected manufacturing experience and better business outcomes, like a safer workplace, improvement in manufacturing OTD and unparalleled customer service."

Digital technologies such as Industrial IoT, Cloud and Augmented Reality integrated with existing technologies in the manufacturing value chain have the power to change how companies deliver seamless experiences for customers and employees. KPIT demonstrations included:

- IntelliAsset™ – platform for asset visualization, analytics and action in near real time
- KwikPick - hands-free Warehouse Picking solution with Wearable Glasses
- EWI – AR-based electronic work instructions solution
- Global Product Registration - seamlessly track and manage regulatory registrations and compliance from PTC's Windchill® PLM solution
- iLink™ – enabling seamless integration between business systems like PLM, ERP, EAM and others

Other demos included solutions around remote collaboration, line clearance, Vuforia® AR-based design reviews, and custom Navigate® role-based apps.

*"KPIT is building solutions that provide value for discrete and process manufacturing industries," said Mike DiTullio, executive vice president, marketing and sales, PTC. "With an engaging user experience, KPIT's accelerators integrate diverse systems using PTC's ThingWorx, Navigate and Vuforia products. KPIT has shown true collaboration with the launch of this second CoE worldwide."*

Catherine Kniker, Chief Revenue Officer, ThingWorx and Vuforia, said, "This customer experience center at KPIT's location in Raleigh offers one of the best ways for customers to try out PTC technology. Being co-located with the talent KPIT has put together in manufacturing, engineering and digital technology, the CoE showcases digital innovation while producing assets that can be easily replicated by customers."

**About KPIT Technologies Ltd.**

KPIT (BSE: 532400, NSE: KPIT) is a global technology company specializing in providing IT Consulting and Product Engineering solutions and services to [Automotive](#), [Manufacturing](#), [Energy & Utilities](#) and [Life Sciences](#) companies.
