For over seven decades innovation and sustainable business practices have been the cornerstone of growth at Excel Industries Limited. Yet in today's fast-paced and competitive business climate, it may even be more crucial to embrace growth-fuelling expansion opportunities.

We have always considered growth and expansion as an integral part of our business cycle. Over the years, we have successfully upgraded our existing product lines and introduced new products across all verticals. Besides, we have generously invested towards environment compliant practices and promoted sustainable business growth.

Growth and expansion is the result of our future demand anticipation and understanding customer's mindset. It further reflects our domain expertise and the sustainable edge that we have built over the years.

Excelling Sustainability

Established in 1941 and headquartered in Mumbai, we are amongst India’s first domestic chemical manufacturers. We have pioneered indigenous chemical technology and adopted sustainable waste management practices in India.

Over the years, we have adopted several innovative chemical process breakthroughs and adopted best-in-class technological enhancement in our operations. Our product lines comprise chemicals for Agro Industry, Specialty Chemicals, Polymer Inputs and Pharmaceutical APIs & Intermediates.

As a responsible corporate, we are equally sensitive to the needs of the environment and community. Our Environment & biotech division has recently installed state-of-the-art effluent treatment plant and developed innovative solutions in the areas of waste management, thus contributing to sustainable environmental practices.

Chairman's Message

While we continue to strengthen our endeavours towards implementing environment-friendly practices, we have further charted out our next phase of sustainable growth and expansion path.

Dear Stakeholders,

It is my honour to present you this year's annual report. It is no secret that a successful business is one that has the ability to change in order to meet the societal needs. I am pleased to share that your Company has been successful in creating markets by understanding societal needs and generating solutions and has adopted progressive growth and expansion strategies for a bright future ahead.

The stakeholders are becoming increasingly interested in sustainability and our impact on the environment. We are constantly adopting new processes and analysing the impact they are having on the future. In order to build a customer-oriented product development company, we have introduced innovative production techniques and modelling high quality sustainable products. While we continue to strengthen our endeavours towards implementing environment-friendly practices, we have further charted out our next phase of sustainable growth and expansion path.

I am glad to report that Mr N R Kannan has joined us as the Chief Executive Officer. He possesses in-depth knowledge and experience in the chemicals business. His dynamic leadership qualities will further aid sustainable development of the Company.

We devote ourselves for the well-being of the business and society at large. Our continuous research and development efforts allow us to upgrade our product portfolio across the segment, with near-zero impact on the environment. We seek to maximize this value by focusing on the basics: a sound financial structure, solid revenue base, and steady growth. We also strive to earn your trust and respect by practicing corporate responsibility, ethics, and integrity in all areas of governance.

Thank you once again for your interest in the Company and relentless support. Everyone at Excel Industries pledges to do our best to become a global leading company. We shall achieve this recognition not only within the market, but also among customers around the world. We hope for your continued support and encouragement in 2018-19 as well.

Best Wishes,

Ashwin C Shroff

At Excel, we are preparing to capitalise on growth opportunities in the coming years and building a sustainable future

The financial year 2017-18 saw a massive shake up in the supply of chemicals across the world. The Chinese Ministry of Environmental Protection has enforced stringent norms and strict penalties on the chemical manufacturers flouting the environmental norms. This has resulted in many plant shutdowns and softening of China's chemical exports. The industry had to deal with this new normal and shortage of raw materials. The strong demand-pull owing to the vacuum created by the Chinese suppliers has created opportunities and challenges for the chemical industry globally. The Indian Chemical Industry is at an inflection point. Excel is well positioned to deal with the changing environment.

Our business model has sharply evolved over the years. It allows us to flexibly adapt to the changing business environment. We have also developed an efficient risk management framework that identifies the possible external risks and makes us ready to mitigate and deliver good results. At Excel, we are preparing to capitalise on growth opportunities in the coming years and building a sustainable future.

During the year, we continued to remain market-focussed and made continuous improvements in terms of quality and cost towards managing the customers in a better way. We have dedicated resources in place to capture further market share by becoming the preferred supplier for all of our products. Besides, our API intermediates products continued to witness stable demand. Over the years we have put steady efforts for the growth of this business. We also received DGCI approval for manufacturing Tenegliptin API. This gives us an opportunity to market this product. Today our products are successfully accepted and positioned for growth in the coming years.

At Excel Industries, it's our management philosophy to contribute to the progress of society through our products that meet the societal needs. Since inception of the Company sustainable and ethical way of working has always been our core focus. Our growth and expansion plans are largely centered around business well-being, keeping in mind the best environmental practices. During 2017-18, we have made significant investments in upgrading our effluent treatment plant to further reduce the environmental load. It further improves the process and overall efficiencies. We are also 'Responsible Care' certified member of ICC.

Going ahead, we aim to strengthen our market share and positioning for all our products. We also look forward to building strategic relations with our customers for a sustained growth and also focus on enhancing cash flow cycles and overall business efficiencies.

Sustainable practices have enabled innovative waste management techniques

India generates a whopping 69 million tonnes of Municipal Solid Waste (MSW) annually out of which 80% is indiscriminately disposed of at dump yards in an unhygienic manner. With Swachh Bharat and Smart Cities Mission, the limelight thrown on waste management is fast transforming the domain into a lucrative business space. India is definitely headed on the right path but how fast are we adapting and innovating for a revolutionary change is still the question.

Design and policy driven sustainable technological solutions are where we should be headed as a country fighting its garbage. With a well-grounded expertise in waste management, Excel is right at the forefront of this drive. Our journey has been evolutionary and disruptive at the same time, starting with urban scale centralised MSW treatment solutions, we transcended into decentralised organic waste converters (OWC) and recently introduced ORCOmin a well-designed compact composter to manage smaller quantities of waste. At Excel we are constantly exploring and iterating our solutions to make it smart, cost-effective and accessible to a larger audience.

CEO's Perspective

As a business, we are now at a juncture that presents multiple opportunities.

Dear Shareholders,

Since my joining Excel Industries Limited in July 2017, it has been an exciting journey so far. There had been some rapid changes in the industry, which had tested our team's responsiveness and agility. While my primary role was to enhance customer and market focus, I also initiated rigorous monthly reviews of the operations to further enhance efficiencies.

As a business, we are now at a juncture that presents multiple opportunities. While our core phosphorous business presents good platform for growth, a strong focus on our customers in select export markets, backed up by commensurate service levels in these areas will be key to its success. In Pharma, we plan to consolidate our positions with aggressive growth in the market share for our existing products. Work is underway to obtain relevant regulatory approvals to support growth plans in both areas.

Future is built on what efforts we take now. A specific team has been formed to work on new business development to generate product ideas for future. Plans are to leverage on our core business while creating new verticals for future. Work has begun at both business and R&D side in this direction.

There is a new leadership team in place across several functions of the company. New perspectives, new thoughts bring in a churn to create new ideas. While this is so, it is equally important to remain grounded to Excel's core values, one of which has been people orientation. Increased focus on goal setting and performance orientation, both as individuals and as teams, is being emphasised to facilitate delivery of above plans.

Together, we look forward to building a responsive and sustainably growing organisation.

Best Wishes,
N R Kannan

Glimpses of 2018-19

Launch of ORCOmin

The Company added ORCOmin to Excel's family of organic waste converter systems. It is the most aesthetically pleasing composting machine that revolutionises composting. ORCOmin is available in two capacities of 25 kg/day and 50 kg/day at a price point that is significantly lower than any other solution available anywhere globally.

Effluent Treatment Plant – Reduce, Reuse and Recycle

Adopting conservation and best effluent treatment practices are very important pre-requisites for sustainability of chemical industries. Accordingly, your Company is committed to adopt and follow good environmental standards and the same is reflected in actual practice. Our fully operative effluent treatment facility is equipped with features of auto neutralisation, equalisation tanks, secondary and tertiary treatment. The sludge from primary and secondary treatment is removed mechanically, after which it is fed to a sludge dewatering unit and provided fully automatic filter press for efficient dewatering.

Result: Reducing trend in water consumption per ton of product produced. Our production volumes have increased and we have been able to minimize generation of hazardous wastes through consistent efforts.

Corporate Social Responsibility

At Excel, Corporate Social Responsibility (CSR) involves integration of social, environmental and economic concerns. Aligned with the Company's vision, our CSR initiatives, enhance value-creation in the society through our services, conduct and initiatives, so as to promote sustainable growth for the society.

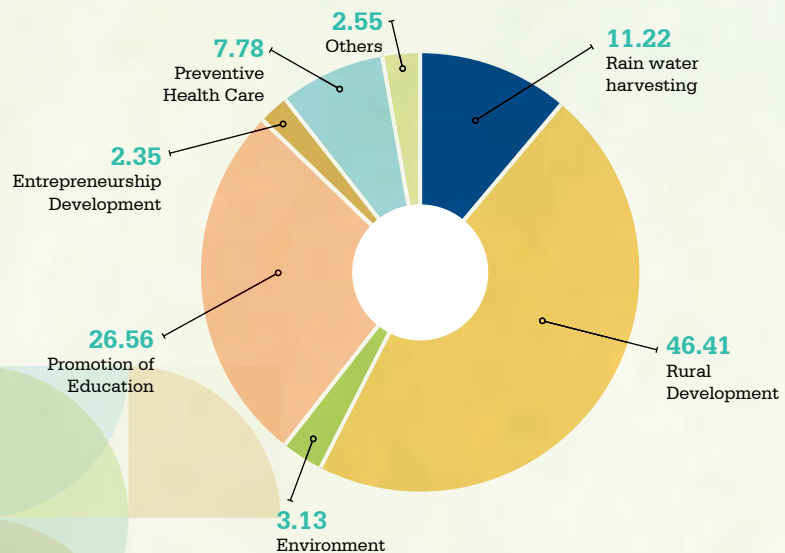

The projects undertaken are designed to work on conservation of natural resources, capacity building of farmers and rural community for their sustainable development and livelihood improvement through adaptation of climate smart agriculture methods, addressing acute health issues through effective preventive health measures, empowering women to become entrepreneurs and addressing GHG issues through tree plantation.

CSR SPENDS IN 2017-18 (Rs lakhs)

ACTIVITY-WISE ACTUAL ALLOCATION (%)

After having started from one village Excel has now spread its activities to total of about 50 villages in Roha and Lote (Khed) in Maharashtra. In Kutch, Gujarat, Excel is working extensively to address the issues in agriculture caused especially by the climate change impact. It is working towards making the farmers adapt the climate smart agriculture methods with the help of Florida Agriculture and Mechanical University, USA.

Conservation of Natural Resources : About 18,500 Cubic Meter (185 lakh litre) water holding capacity is generated for rain water harvesting by constructing 5 permanent check dams, repairing one damaged check dam and deepening of 2 small rivers, benefiting 14 villages having 7,000 population and 2,000 cattle.

More than 900 temporary check dams were also built after monsoon which could hold 2.6 lakh cubic meter water, benefitting 15,000 population and cattle. This has also largely supported the Rabi crops like various types of vegetables, pulses, oil seeds and ground nuts.

Community participation is an important aspect of any sustainable rural development activity. People OWN up the responsibility very obviously when they themselves are the CREATORS.

Typical process of Check dam construction: Bhostekar Wadi, Roha.

Location survey by CSR Team with Mr. Padhye, the expert from Krushi Vidnyan Kendra, Roha, for its suitability, safety of the surrounding, storage stretch and capacity.

Shramadan by villagers. The entire village, men and women alike, participate in Shramadan. They work in rotation and with unprecedented discipline.

Excel provided the material like cement, gravel, sand and the design as endorsed by the experts. All the masonry work and allied work like clearing and levelling the place, collecting loose boulders is carried out by villagers.

New Initiatives 2017-18

Recharging of borewell

With excessive drawing of water and very low rate of recharge, many of the borewells have the tendency to dry upon depletion of storage. Some of the borewells dried up without fetching much water. Artificial recharge was the solution which needed to be tried.

A Zilla Parishad School in Khed had dug a borewell which did not fetch much water and subsequently dried up. Provision for artificial recharge by rain water was made. Roof rain water was also harvested and led to borewell pit. Today, the school draws 1,000 litres of water per day which satisfies its needs. This experience was shared with the farmers in Roha during the two field days organised for dissemination of SRT method. Drawings printed on paper were distributed to willing farmers.

Preventive health measures : recycling of domestic waste water

Every house has soak pits for sewage which have the tendency to overflow if the waste water from kitchen and bathrooms is also led to the pits. This often spreads around the house in open. The puddles formed by this stinking water attracts mosquitoes and flies become a source of diseases.

About 100 women (houses) have responded to the appeal to recycle this waste water and use it for growing vegetables in their backyard. It allowed them to earn Rs. 1,000/- on an average in 2 months. This was a result of house-to-house campaign and awareness drive, undertaken before monsoon, on preventive health aspects such as personal hygiene, hazards of open sewage

and the importance of overall cleanliness including the surroundings.

Low-cost ferro-cement tanks for water storage for community and individual households

Several villages in Roha (and in Konkan in general) especially in the hilly areas face acute water shortage. Their main source of water supply is dug wells of varying capacities.

Roof rain water harvesting and storing in durable tanks was one of the solutions which could help in keeping the water storage intact in dug wells, the source of supply.

Jalvardhini, a social organisation is extensively promoting low cost ferro-cement tanks for water storage. Iron mesh is used for preparing the structure of desired size tanks. A layer of cement with fine sand mixed well in water is applied from both the sides. Chicken mesh cover holds the cement layer further.

A demonstration cum training program was organised in Hardi village. The material cost is about Rs. 5000/- for about 1,300 litre tank as against Rs. 10,000/- required for equivalent plastic tank. The construction is simple and can be easily replicated by any common unskilled villager.

Co-operative farming : fresh vegetables fetch better price and get sold briskly

Farmers in Konkan possess marginal land. Vegetables fetch better money as compared to rice and pulses. Normally these vegetables are grown in rabi season in Konkan area unless the land is sloppy which prevents puddling. Cultivation of vegetables needs consistent attention because of the series of activities such as land preparation, fetching proper seeds, sowing, watering, fertigation, weeding, pest management etc. It becomes difficult for an individual to attend the stages in time.

For effectively managing these activities, we created two groups of women from two villages. They were encouraged to join hands together and work in co-operation. One group consisted of 30 women with total 10 acres land allotted to them. The other group consisted of 30 women with total 5 acre land allotted to them. The activities allowed them to earn about Rs. 4000/- to Rs. 6000/- each per month, from November till March. The success of these two groups will help in promoting co-operative farming going ahead.

Use of homemade sewage filter containing layers of coal, sand and gravels.

Kitchen garden : using domestic waste water

70% of 800 women between the age group of 12 to 40 were found having low haemoglobin and low BMI. Also, it was observed that though most of the houses have toilets connected to soak pits for sewage which overflow if the waste water from kitchen and bathrooms is also led to this pit. This spreads around the house in open. The puddles formed by this stinking water attracts mosquitoes and flies become a source of diseases.

House to House campaign and awareness drive, was under-taken before monsoon, on preventive health aspects such as personal hygiene, hazards of open sewage and the importance of overall cleanliness including the surrounding.

With the dual objectives of (i) prevention of spread of diseases like malaria, typhoid, loose motion, and (ii) to get green leafy vegetables, chilly / coriander even in summer as a concept of kitchen garden using sewage / waste water was promoted. Seeds were provided at subsidised prices.

About 100 women (houses) have responded to the appeal to collect this waste water and use it for growing vegetables in their backyard which created an average saving of Rs. 1000/- in 2 months. Homemade filters containing charcoal, sand, gravel are also being used for filtering sewage water.

ONGOING PROJECTS :

Collaboration with agriculture department in promoting climate smart agriculture techniques, increasing response to Ragi cultivation and making and marketing value-added products are major achievements in the ongoing projects under agriculture and women empowerment. Activities under Swachh Bharat Abhiyan, tree plantation and campaign for preventive health measures were also carried out.

ANNEXURE V TO DIRECTORS' REPORT

SECRETARIAL AUDIT REPORT

FORM NO. MR-3

FOR THE FINANCIAL YEAR ENDED 31ST MARCH, 2018

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To
The Members
EXCEL INDUSTRIES LIMITED
184-187, Swami Vivekanand Road
Jogeshwari (West)
Mumbai – 400 102

I have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **EXCEL INDUSTRIES LIMITED** having **CIN: L24200MH1960PLC011807** (hereinafter called "the Company"). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on 31st March, 2018 generally complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended 31st March 2018 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - (c) The Securities and Exchange Board of India (Registrar to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
- (v) The Drugs and Cosmetics Act, 1940 and The Drugs and Cosmetics Rules, 1945.

As per the explanations given to me in the representations made by the management and relied upon by me, during the period under review, provisions of the following regulations/guidelines were not applicable to the Company:

- (i) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;

- (ii) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
- (a) The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014;
 - (b) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009;
 - (c) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008;
 - (d) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998; and
 - (e) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009.

I have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards 1 & 2 issued by the Institute of Company Secretaries of India under the Companies Act, 2013.
- (ii) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.

During the period under review the Company has generally complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above to this report.

I further report that:

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is generally given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were generally sent at least seven days in advance and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

Majority decision is carried through and as informed, there were no dissenting members' views and hence not recorded as part of the minutes.

I further report that as per the explanations given to me in the representations made by the management and relied upon by me, there are adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

As per the explanations given to me and the representations made by the management and relied upon by me, I further report that, during the audit period, there were no other specific events/actions in pursuance of the above referred laws, rules, regulations, guidelines, etc., having a major bearing on the Company's affairs.

MANAGEMENT DISCUSSION AND ANALYSIS

The Businesses in which the Company operates can be categorised as follows:

- Chemicals
- Pharmaceutical Intermediates and Actives
- Environment & Biotech

Management Discussion and Analysis – Chemicals Business

The Company is a leading producer of specialty and performance chemicals. The annual turnover of the Chemicals Business for the year 2017-18 was ₹ 594.15 crores compared to ₹ 487.27 crores in the financial year 2016-17.

The product portfolio of Chemicals Business comprises of Agrochemical Intermediates, Specialty Chemicals and Polymer Inputs.

In this report, the industry structure, outlook, opportunities and threats for each of the above product groups are sought to be discussed.

INTERMEDIATES FOR AGROCHEMICALS

Industry Structure

The Company is a leading supplier of specialty intermediates to agrochemical producers.

The Agrochemicals Sector has an important role to play in food security and improvement of agricultural productivity. In recent years, India has emerged as a hub for the production of generic agrochemicals. India is the fourth largest producer of agrochemicals (after USA, China and Japan).

Production of Agrochemical Technicals requires several basic and advanced intermediates. In the last decade, China had emerged as a major supplier for many key intermediates. Till recently, the agrochemical intermediate industry in China was characterized by multiple players with large capacities. Hence for many years, there was easy availability of key agrochemical intermediates from China due to which the prices remained at low levels. The Indian producers of agrochemical intermediates faced intense price competition from China.

In the last one year, the Chinese Government started to enforce the pollution control norms very strictly. Due to this, several Chinese producers of agrochemical intermediates who were not complying with the norms had to abruptly stop production. This led to a tightness in availability of these intermediates, resulting in opportunities for Indian producers to increase volumes with improved realizations.

The industry view is that the above changes in China are structural in nature and part of a long term lasting trend. This will bring about rationalization of capacities with bigger companies upgrading their treatment systems for environmental compliance. Smaller companies who are unable to upgrade their treatment systems will cease to operate. These changes are likely to result in scales of operations that are realistically aligned to market demands, thereby resulting in improved realizations to Indian manufacturers.

Outlook for the Industry

- As per the advance forecasts, the country is likely to experience a normal monsoon during the year 2018-19.
- The change in industry structure/dynamics due to the developments in China augurs well for Indian producers of Agrochemical Intermediates. Many multinational companies have started looking at India as a reliable long term partner for supply of Agrochemical Intermediates and Indian Companies with good R & D and Manufacturing strengths and a track record in Environment, Health and Safety (EHS) stand to gain.
- Considering the above, the outlook for Indian Agrochemical Industry looks favorable in the short as well as medium term.

Opportunities

- The Company is a leader in the production of intermediates required for the production of Organophosphorous (OP) Insecticides. Because of the factors mentioned in the section “Outlook for the Industry”, the demand conditions for OP insecticides are expected to be favourable in the financial year 2018-19.
- The Company has focused on building on its strength in process R & D and manufacturing. We have continuously invested in manufacturing, R & D, Effluent Treatment and Safety. Thus the Company is well poised to take advantage of opportunities accorded by the favorable demand situation and the structural changes in the agrochemical intermediates industry.

Threats

- Agrochemicals are under the constant scanner of regulatory agencies and environmental activists. Any adverse impact due to regulatory action on any of the major molecules consuming the intermediates produced by the Company can have a negative impact on the Company's products. In order to mitigate this risk, the Company is actively pursuing development of intermediates based on chemistries other than the ones in which it is currently established.

Speciality Chemicals

The Company is a major producer of a wide range of Specialty and Performance Chemicals like Organophosphonates, Biocides, and mining chemicals.

Industry Structure

- Organophosphates and related products account for a major portion of the turnover of the Specialty Chemicals Product group. The Company produces a biocide which gives good performance and is highly cost effective. The Company is the major producer of this biocide in the country.
- Traditionally, Organophosphonates have been characterized by excess supply, commoditization and intense price competition. For the past few years, prices were at unsustainably low levels. Above mentioned changes in China had helped Indian manufacturers with improved realization. On the raw material front, there has been a substantial increase in the prices of certain key inputs, mainly driven by the commodity cycle. This has partly offset the gains of improved price realizations. Going forward, we expect the pressures of price competition and high raw material prices to continue for this product segment.
- Production of Specialty and Performance Chemicals call for certain core competencies and strengths in R&D, manufacturing and Applications Development. Effluent Treatment is an important factor in the sustainable production of these chemicals. India is being looked at as a future hub for manufacture of such specialty chemicals.

Opportunities

- The US Government has imposed an anti-dumping duty on the import from China of one of the large volume Organophosphonates. The Company has taken advantage of this situation and increased its exports to US.
- The Company has all the strengths in R & D, Manufacturing, Environment, Health and Safety (EHS) and Effluent Treatment (ETP) which are required for sustainable production of specialty chemicals. Thus it is well positioned to take advantage of the opportunities in the specialty chemicals space. The Company is working on certain new chemistries which will yield a pipeline of downstream specialty chemicals. Work on some of these products are currently underway and is expected to be commercialized soon.

Threats

- As mentioned above, the organophosphonate group products are characterized by excess supply, commoditization and intense price competition. China is a major player with huge manufacturing capacities. This makes these products vulnerable to pricing pressures.
- The biocide manufactured by the company has been under regulatory scanner for some time now. There is a threat of the same being phased out.

POLYMER INPUTS

Industry Structure

Polymer Inputs/Additives are a class of functional chemicals which are used to impart special properties/functional characteristics to Polymers. These include Catalysts, Flame Retardants, Clarifying Agents, Branching and Cross-Linking Agents, Plasticisers etc. With the increasing use of Polymers in various applications like automobiles, electronics, construction industry, power equipment, aerospace etc. there is a good potential for Polymer Inputs and Additives.

In recent years, the Company has been able to establish itself as a leader in the range of polymer inputs produced by it.

The Company has been able to attain market leadership for the products produced by it.

Opportunities

With its established position for the polymer input products manufactured by it, the Company is ideally placed to take advantage of the market opportunities by expanding on the range of its offerings.

Threats

- The market for the polycarbonate branching agent manufactured by the company has reached a phase of maturity and demand is likely to remain stable / gradually decline in the future.
- A shift to new generation products by the customer might adversely impact the sale of some of the products manufactured by the Company.
- The Company is actively working on expanding its product range in order to mitigate this threat. Phosphorous based Polymer Additives is one of the areas of focus.

PHARMACEUTICAL INTERMEDIATES AND ACTIVES

The Indian pharma industry, which is expected to grow over 15 per cent per annum between 2015 and 2020, will outperform the global pharma industry, which is set to grow at an annual rate of 5 per cent between the same periods. The Indian market is expected to grow to about US\$ 55 billion by 2020, thereby forecast to emerge as the sixth largest pharmaceutical market globally by absolute size. Branded generics dominate the pharmaceuticals market, constituting nearly 80 per cent of the market share (in terms of revenues). The sector is expected to generate 58,000 additional job opportunities by the year 2025.

The Indian API industry and its latest trends

India's API manufacturing industry is 3rd largest in world in terms of volume & 13th largest in terms of value & is expected to grow at a CAGR of 17%. India's API production has doubled in the last couple of years in generic sector. API market in India is currently highly fragmented but is expected to become consolidated in the coming years due to increasing competition. According to a report by Frost & Sullivan, in the pharmaceutical industry, sourcing of APIs is now being considered as a crucial part of industry's strategic plan and India is one of the top countries from which APIs are sourced. Although in terms of value the demand for APIs still comes from the United States and Europe, the role of the Asia Pacific region as an important demography for sourcing of APIs is becoming more prominent. Another noticeable aspect in the pharmaceutical industry today is the patent expiry of proprietary products resulting in expansion of generic sector. As a result of this the Contract Manufacturing Organizations in countries like India are expected to witness a strong upsurge in demand of APIs in generics.

The increased environmental restrictions within China and consequent shutting down of several chemical factories has resulted in improved prices for several intermediates and APIs. Non-availability of basic and critical building blocks has prompted Indian importers to explore with domestic manufacturers, resulting in better capacity utilization for Indian manufacturers.

Performance and Outlook

The Pharma business recorded a turnover of ₹ 32.42 crore in the financial year 2017-18. The turnover increased by 35.08% Y-O-Y basis. The growth is majorly due to increase in market share of existing molecules and launch of new molecules. The Company has obtained DCGI approval for manufacture and sale of an Anti-diabetic molecule.

ENVIRONMENT AND BIOTECH

Industry Structure and Development

Municipal Solid Waste Management activity in India continues to move ahead with a lot of intent and regulatory push since the advent of 'Swachh Bharat Abhiyaan' 3 years ago. What appeared to be a campaign focusing merely on clean appearance of the city and building of toilets in the rural areas, the country witnessed a conscious shift in focus towards de-centralized composting.

Many Urban Local Bodies (Municipalities) mandated Bulk Waste Generators via written notices to segregate waste and treat their wet waste within their premises. Your Company has played a significant role in providing Organic Waste Converter systems to these Bulk Waste Generators in India.

Opportunities and Threats

Conducted by the Ministry of Housing and Urban Affairs, 'Swachh Survekshan' has become an important annual survey for ranking cleanest cities in India. The Swachh Survekshan has laid enough emphasis on successful installation and operation of de-centralized composting systems by Bulk Waste Generators in cities. One sees more cities aspiring to rank among the cleanest cities, thereby adopting various solid waste management measures. This opens up huge opportunities for Excel's Organic Waste Converter machines as well as sale of treat range products such as Bioculum and Sanitreat.

While the opportunities are immense, the threat of competition is also increasing. Since the concept of de-centralized composting is still very fresh, various low cost and low performing solutions have flooded the market. Since the adoption of these systems by Bulk Waste Generators is primarily due to the strict mandate, there is a lot of price sensitivity and the lowest priced product have won business in many cases.

Your Company will need to actively explore the opportunities, weigh the risk of liabilities and also ensure we remain competitive at all times. Continuous innovation, newer solutions with high barrier to entry and focus on differentiation continue to be our strategy to face the above threat.

Segment Performance and Outlook

The ENBT business recorded a turnover of ₹ 16.95 crore in the financial year 2017-18. The turnover increased by 1.60% Y-O-Y basis. The growth is mainly due to increase in sales.

The FY 2018-19 will see a steady increase in demand for de-centralized composting systems such as Excel's OWC and ORCO min. It is expected that the Indian government will continue to push the case for Swachh Bharat Mission in the wake of it's commitment to offer a 'Clean India' by 2nd October 2019. The market is also likely to mature in that a lot of non performing solutions in the market may not be able to sustain and the ones that are able to offer a good solution at a good price will continue to do well. Opportunities for centralized Municipal Solid Waste Management will continue to be fewer than expected as the municipalities still grapple with issues of uniform concession agreements, funding, land availability and remunerative returns on the output such as compost, RDF and power.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

Your Company has put in place adequate internal financial controls with reference to the financial statements, some of which are outlined below:

Your Company has adopted accounting policies which are in line with the Accounting Standards prescribed in the Companies (Accounting Standards) Rules, 2006 that continue to apply under Section 133 and other applicable provisions of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014. These are in accordance with generally accepted accounting principles in India. Changes in policies, if any, are approved by the Audit Committee in consultation with the Auditors.

The policies to ensure uniform accounting treatment are prescribed to the subsidiaries of your Company. The accounts of the subsidiary companies are audited and certified by their respective Auditors for consolidation.

The Company has proper and adequate system of internal audit and control which ensures that all the assets are safeguarded against loss from unauthorized use and that all transactions are authorized recorded and reported correctly.

The Company continuously improves upon the existing practices for each of its major functional areas with a view to strengthen the internal control systems.

The Company has assigned internal audit function to a firm of Chartered Accountants. Regular internal audit and checks are carried out to ensure that the responsibilities are discharged effectively. All major findings and suggestions arising out of internal audit are reported and reviewed by the Audit Committee. The management ensures implementation of these suggestions and reviews them periodically.

Management's Responsibility for the Standalone Ind AS Financial Statements

2. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements to give a true and fair view of the financial position, financial performance (including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified in the Companies (Indian Accounting Standards) Rules, 2015 (as amended) under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

3. Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit.
4. We have taken into account the provisions of the Act and the Rules made thereunder including the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.
5. We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.

Opinion

6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view, in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.

7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

8. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2018, and its total comprehensive income (comprising of profit and other comprehensive income), its cash flows and the changes in equity for the year ended on that date..

Other Matters

9. The comparative financial information of the Company for the year ended March 31, 2017 and the transition date opening balance sheet as at April 1, 2016 included in these standalone Ind AS financial statements, are based on the previously issued statutory financial statements for the years ended March 31, 2017 and March 31, 2016 prepared in accordance with the Companies (Accounting Standards) Rules, 2006 (as amended), which were audited by the predecessor auditor who expressed an unmodified opinion vide reports dated May 26, 2017 and May 27, 2016 respectively. The adjustments to those financial statements for the differences in accounting principles adopted by the Company on transition to the Ind AS have been audited by us.

Our opinion is not qualified in respect of this matter.

Report on Other Legal and Regulatory Requirements

10. As required by the Companies (Auditor's Report) Order, 2016, issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act ("the Order"), and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure B a statement on the matters specified in paragraphs 3 and 4 of the Order.
11. As required by Section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Cash Flow Statement and the Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.
 - (e) On the basis of the written representations received from the directors as on March 31, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018 from being appointed as a director in terms of Section 164 (2) of the Act.
 - (f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in Annexure A.

- (g) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our knowledge and belief and according to the information and explanations given to us:
- (i) The Company has disclosed the impact of pending litigations as at March 31, 2018 on its financial position in its standalone Ind AS financial statements – Refer Note 48;
 - (ii) The Company has long-term contracts as at March 31, 2018 for which there were no material foreseeable losses. The Company did not have any derivative contracts as at March 31, 2018;
 - (iii) There was a delay in transfer to Investor Education and Protection Fund of Rs. 1.27 lakhs in respect of proceeds of fractional bonus shares issued in the earlier years.
 - (iv) The reporting on disclosures relating to Specified Bank Notes is not applicable to the Company for the year ended March 31, 2018.

Annexure A to Independent Auditors' Report

Referred to in paragraph 11(f) of the Independent Auditors' Report of even date to the members of Excel Industries Limited on the standalone Ind AS financial statements for the year ended March 31, 2018.

Report on the Internal Financial Controls with reference to standalone Ind AS financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls with reference to standalone Ind AS financial statements of Excel Industries Limited ("the Company") as of March 31, 2018 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143(10)

of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to standalone Ind AS financial statements were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

(All amounts in INR lakhs, unless otherwise stated)

BACKGROUND

Excel Industries Limited (the Company) is a public limited company domiciled in India. Its shares are listed on BSE Limited and National Stock Exchange of India Limited. The Company is engaged in manufacturing and selling of Chemicals, Pharma intermediates and Environmental products. Chemicals comprising of Industrial and Specialty chemicals and Pesticides Intermediates. Environmental products comprising of Soil Enricher, Bio-Pesticides and other Bio-products. The Company caters to both domestic and international markets. The Company is also engaged in manufacturing activity on behalf of third parties.

1. SIGNIFICANT ACCOUNTING POLICIES:

This note provides a list of the significant accounting policies adopted in the preparation of these standalone financial statements. These accounting policies have been consistently applied to all the years presented by the Company unless otherwise stated.

These standalone financial statements were authorised for issue by the Company's Board of Directors on May 25, 2018.

A. Basis of preparation**(i) Compliance with Ind AS**

The standalone financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

These financial statements for the year ended March 31, 2018 are the first financial statements of the Company prepared in accordance with Ind AS. For all periods up to and including the year ended March 31, 2017, the Company prepared its financial statements in accordance with the Generally Accepted Accounting Principles (hereinafter referred to as 'previous GAAP') used for its statutory reporting requirement in India. Refer Note 54 for an explanation of how the transition from the previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows. The Company has adopted the Ind AS standards in accordance with Ind AS 101 *First time adoption of Indian Accounting Standards*.

The date of transition to Ind AS is April 01, 2016. Refer Note 54 for the first time adoption exemptions availed by the Company.

(ii) Historical Cost Convention

The standalone financial statements have been prepared on historical cost basis except the following:

- certain financial assets and liabilities (including derivative instruments) is measured at fair value;
- assets held for sale – measured at lower of carrying amount or fair value less cost to sell;
- defined benefit plans – plan assets measured at fair value;

(iii) Amended standards adopted by the company

The amendments to Ind AS 7 require disclosure of changes in liabilities arising from financing activities, refer note 25(f).

(iv) Current and non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle (twelve months) and other criteria set out in the Schedule III to the Act.

B. Segment Reporting

Operating segments are reported in a manner consistent with internal reporting provided to the Chief Operating Decision Maker (CODM). The Chairman and Managing Director is designated as CODM. Refer Note 45 for segment information presented.

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

(All amounts in INR lakhs, unless otherwise stated)

1. SIGNIFICANT ACCOUNTING POLICIES (Contd.)**C. Foreign Currency translation****(i) Functional and presentation currency**

Items included in the standalone financial statements of the company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The standalone financial statements are presented in Indian Rupee (INR) which is the functional and presentation currency of the Company.

(ii) Transaction and balances

Foreign currency transactions are translated into the functional currency at the exchange rates on the date of transaction. Foreign exchange gains and losses resulting from settlement of such transactions and from translation of monetary assets and liabilities at the year-end exchange rates are generally recognized in the profit and loss.

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the Statement of Profit and Loss, within finance costs. All other foreign exchange gains and losses are presented in the Statement of Profit and Loss on a net basis.

Non-monetary foreign currency items are carried at cost and accordingly the investments in shares of foreign entity are expressed in Indian currency at the rate of exchange prevailing at the time when the original investments are made or fair values determined. Exchange differences arising on the settlement of monetary items or on translating monetary items are recognized in the Statement of Profit or Loss.

D. Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are inclusive of excise duty and net of returns, trade allowances, rebates, value added taxes, goods and service tax (GST) and amounts collected on behalf of third parties.

The company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the company's activities as described below. The company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

Sale of goods:

Revenue from sale of goods is recognised when all the significant risks and rewards of ownership of the goods have been passed to the buyer usually on delivery of the goods. The Company collects sales taxes and value added taxes (VAT) and Goods and Service Tax (GST) on behalf of the government and, therefore, these are not economic benefits flowing to the Company. Hence, they are excluded from revenue. Excise duty deducted from revenue (gross) is the amount that is included in the revenue (gross) and not the entire amount of liability arising during the year.

Income from services

Revenues from service contracts are recognised pro-rata over the period of the contract as and when services are rendered. The Company collects service tax GST on behalf of the government and, therefore, it is not an economic benefit flowing to the Company. Hence, it is excluded from revenue.

Export incentives

Income from export incentives such as Duty drawback / MEIS scheme etc. are recognised on accrual basis to the extent the ultimate realisation is reasonably certain.

Interest Income

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "other income" in the statement of profit and loss.

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

(All amounts in INR lakhs, unless otherwise stated)

1. SIGNIFICANT ACCOUNTING POLICIES (Contd.)**Dividend**

Dividend income is recognised when the Company's right to receive dividend is established by the reporting date.

E. Government Grant

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the company will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

F. Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the Balance sheet method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit and loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Minimum Alternative Tax (MAT) credit, which is equal to the excess of MAT (calculated in accordance with provisions of Section 115JB of the Income tax Act, 1961) over normal income-tax is recognised as an item in deferred tax asset by crediting the statement of profit and loss only when and to the extent there is convincing evidence that the company will be able to avail the said credit against normal tax payable during the period of fifteen succeeding assessment years.

G. Leases**As a lessee**

Leases of property, plant and equipment where the company, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate.

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

(All amounts in INR lakhs, unless otherwise stated)

1. SIGNIFICANT ACCOUNTING POLICIES (Contd.)

Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the statement of profit and loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to statement of profit and loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

As a lessor

Lease income from operating leases where the company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

H. Impairment of Non-Financial Assets

At the end of each reporting period, the company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized in the profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in statement of profit and loss.

I. Cash and Cash Equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

J. Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

(All amounts in INR lakhs, unless otherwise stated)

1. SIGNIFICANT ACCOUNTING POLICIES (Contd.)**K. Inventories**

Raw materials, stores and spares, packing material, work in progress, stock in trade and finished goods are stated as lower of cost and net realisable value. Cost of Raw material and traded goods comprises of cost of purchases. Cost of work-in-progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Cost includes the reclassification from equity of any gains or losses on qualifying cash flow hedges relating to purchases of raw material but excludes borrowings costs. Costs are assigned to individual items of inventory on the basis of first-in first-out basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated costs necessary to make the sale.

L. Non-current assets (or disposal groups) held for sale and discontinued operations

Non-current assets (or disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement.

An impairment loss is recognised for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset (or disposal group) is recognised at the date of de-recognition.

Non-current assets (including those that are part of a disposal group) are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale continue to be recognised.

Non-current assets classified as held for sale and the assets of a disposal group classified as held for sale are presented separately from the other assets in the balance sheet. The liabilities of a disposal group classified as held for sale are presented separately from other liabilities in the balance sheet.

A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the statement of profit and loss.

M. Investments and other financial assets**(i) Classification**

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit and loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

(All amounts in INR lakhs, unless otherwise stated)

1. SIGNIFICANT ACCOUNTING POLICIES (Contd.)

in equity instruments, this will depend on whether the company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The company reclassifies debt investments when and only when its business model for managing those assets changes.

(ii) Measurement

At initial recognition, the company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit and loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit and loss are expensed in profit and loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt Instruments**Amortised cost:**

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

Fair Value through Other Comprehensive Income (FVOCI)

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit and loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method. Foreign exchange gains and losses are presented in other gains and losses and impairment expenses in other expenses.

Fair Value through Profit and Loss (FVTPL)

Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit and loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit and loss and is not part of a hedging relationship is recognised in profit and loss and presented net in the statement of profit and loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Equity instruments

The company subsequently measures all equity investments at fair value. Where the company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit and loss following the derecognition of the investment. Dividends from such investments are recognised in profit and loss as other income when the company's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit and loss are recognised in other gain/(losses) in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

(All amounts in INR lakhs, unless otherwise stated)

1. SIGNIFICANT ACCOUNTING POLICIES (Contd.)**Impairment of financial assets**

The company assesses if there is any significant increase in credit risk pertaining to the assets and accordingly creates necessary provisions, wherever required.

N. Derivatives and hedging activities

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period and impact is recorded in the profit and loss account.

The full fair value of a hedging derivative is classified as a non-current asset or liability when the remaining maturity of the hedged item is more than 12 months; it is classified as a current asset or liability when the remaining maturity of the hedged item is less than 12 months. Trading derivatives are also classified as a current asset or liability when expected to be realised/settled within 12 months of the balance sheet date. Refer note 43 for disclosure of various derivatives financial instruments.

O. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

P. Property, Plant and Equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation/amortisation and impairments, if any. Historical cost includes tax, duties, freight and other incidental expenditure that is directly attributable to the acquisition of the items. Indirect expenses during construction period, which are required to bring the asset in the condition for its intended use by the management and are directly attributable to bringing the asset to its position, are also capitalized. Cost may also include transfers from equity of any gains or losses on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit and loss during the reporting period in which they are incurred.

Capital work-in-progress comprises cost of fixed assets that are not yet ready for their intended use at the year end.

Transition to IND AS

On transition to Ind AS, the company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at April 1, 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

Depreciation methods, estimated useful lives and residual value

As per technical evaluation of the company the useful life considered for the following items are different than the life stipulated in Schedule II to the Companies Act 2013

Description of Asset	*Depreciation rates	Schedule II Rates (SL Method)
Buildings	1.58%-31.67%	1.58%
Road	9.50%-20.58%	9.50%
Plant and Machinery - Metallic	5.28%	4.75%
Plant and Machinery - Non-metallic	11.88%	4.75%
Electrical Installations	9.50%-32.64%	9.50%

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

(All amounts in INR lakhs, unless otherwise stated)

1. SIGNIFICANT ACCOUNTING POLICIES (Contd.)

Assets individually costing INR 25,000 or less are depreciated fully in the year of acquisition.

The property, plant and equipment acquired under finance leases is depreciated over the asset's useful life or over the shorter of the asset's useful life and the lease term if there is no reasonable certainty that the company will obtain ownership at the end of the lease term.

The useful lives have been determined based on technical evaluation done by the management's expert which are higher than those specified by Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit and loss within other gains/(losses).

Q. Investment property

Investment properties are properties that is held for long-term rentals yields or for capital appreciation (including property under construction for such purposes) or both, and that is not occupied by the Company, is classified as investment property.

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Investment properties are depreciated using the straight-line method over their estimated useful lives. Investment properties generally have useful life of 25-40 years. The useful life has been determined based on technical evaluation performed by the management expert.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer.

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit and loss in the period of derecognition.

Transition to Ind AS

On transition to Ind AS, the company has elected to continue with the carrying value of all of its investment properties recognised as at April 1, 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of investment properties.

R. Intangible assets and Amortisation

Intangible assets are amortised over their respective individual estimated useful lives on a straight line basis, but not exceeding the period given here under:

Category	Useful life
Computer software	4 years

Transition to Ind AS

On transition to Ind AS, the company has elected to continue with the carrying value of all of intangible assets recognised as at April 1, 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of intangible assets.

S. Trade and other payables

These amounts represent liabilities for goods and services provided to the company prior to the end of financial year which are unpaid. Trade and other payables are presented as

(All amounts in INR lakhs, unless otherwise stated)

1. SIGNIFICANT ACCOUNTING POLICIES (Contd.)

current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

T. Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit and loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit and loss as other gains/(losses)

Borrowings are classified as current liabilities unless the company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

U. Borrowing Costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

Other borrowing costs are expensed in the period in which they are incurred.

V. Provisions, Contingent Liabilities and Contingent Assets

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made.

Provisions for legal claims, service warranties, volume discounts and returns are recognised when the company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that

reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

A contingent asset is disclosed and not recognised, where an inflow of economic benefits is probable.

W. Employee Benefits**(i) Short-term obligations**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employee's services up to the end of the reporting and are measured at the amounts expected to be paid when the liabilities are settled.

(ii) Other Long-term employee benefit obligationsLeave Obligation:

The liabilities for leave obligation (annual leave) which are not expected to be settled wholly within 12 months after the end of the period in which the employee render the related services. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the Projected Unit Credit method. The benefits are discounted using the market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligations. Remeasurements as a result of experience adjustments and changes in actuarial assumptions (i.e. actuarial losses/ gains) are recognised in the Statement of Profit and Loss.

Long Service awards:

The Company provides for the long service awards for eligible employees as per the scheme announced by the Company. The liability towards the long services awards is provided at each balance sheet date on the basis of independent actuary valuation.

Defined benefit plan — Gratuity

The liability or asset recognised in the balance sheet in respect of gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. The estimated future payments are discounted using market yields determined by reference to high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms approximating to the terms of the related obligation.

The net interest cost, calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of the plan assets, is recognised as employee benefit expenses in the statement of profit and loss. Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit and loss as past service cost.

(All amounts in INR lakhs, unless otherwise stated)

1. SIGNIFICANT ACCOUNTING POLICIES (Contd.)**Defined benefit plan — Voluntary early separation scheme:**

The Company also have a defined benefit plan for its employees, i.e. Medical Voluntary retirement scheme in which employees suffering from continued ill-health not amounting to occupational disease and thereby unable to perform normal duties of their post. Under the Scheme, the benefits will be given for a retired employee for a maximum period up to 10 years or age of retirement, whichever is earlier. In case of early death of the employee, the legal heir of the employee shall get 50% of separation benefit for the rest of the benefit period. The costs of providing benefits under the said plan is determined on the basis of actuarial valuation at each year-end. Separate actuarial valuation is carried out for the plan using the projected unit credit method. Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet. This Scheme is not funded.

Defined Contribution Plan — Provident Fund:

The Company pays provident fund contributions to publicly administered provident funds as per local regulatory authorities. The Company has no further obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due.

Defined Contribution Plan — Superannuation Fund:

The Company makes contribution to the Superannuation Scheme, a defined contribution scheme, administered by insurance companies. The Company has no obligation to the scheme beyond its monthly contributions.

There are no obligations other than the contribution payable to the Superannuation Fund Trust. The Company recognises contribution payable to the Superannuation Fund as an expenditure, when an employee renders the related service. The contribution is charged to the statement of profit and loss of the year when the contribution accrues. The scheme is funded with a insurance company in the form of qualifying insurance policies.

(iii) Bonus plans

The company recognises a liability and an expense for bonuses. The company recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

X. Contributed equity

Equity shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Y. Dividends

Provision is made for the amount of any dividend declared, being appropriately authorized and no longer at the discretion of the Company, on or before the end of the reporting period but not distributed at the end of the reporting period.

Z. Earnings Per Share

The Company presents basic and diluted earnings per share data for its ordinary shares. Basic earnings per share is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year. Diluted earnings per share is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for own shares held, for the effects of all dilutive potential ordinary shares.

1. SIGNIFICANT ACCOUNTING POLICIES (Contd.)**AA. Rounding of amounts**

All amounts disclosed in the standalone financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

2. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the financial statements requires management to exercise judgment and to make estimates and assumptions. These estimates and associated assumptions are based on historical experiences and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognised in the period in which the estimate is revised if the revision affect only that period, or in the period of the revision and future periods if the revision affects both current and future period.

The areas involving critical estimates or judgements are as under:

(a) Estimation of current tax expenses and payable:

Taxes recognized in the financial statements reflect management's best estimate of the outcome based on the facts known at the balance sheet date. These facts include but are not limited to interpretation of tax laws of various jurisdictions where the Company operates. Any difference between the estimates and final tax assessments will impact the income tax as well the resulting assets and liabilities.

(b) Estimated fair value of unlisted securities:

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Company uses its judgement to select a variety of methods and make assumptions that are mainly based on the market conditions existing at the end of each reporting period.

(c) Useful lives of property, plant and equipment and Intangible assets:

Depreciation and amortisation is based on management estimates of the future useful lives of the property, plant and equipment and intangible assets. Estimates may change due to technological developments, competition, changes in market conditions and other factors and may result in changes in the estimated useful life and in the depreciation and amortisation charges.

(d) Estimation of defined benefit obligation:

The liabilities of the Company arising from employee benefit obligations and the related current service cost, are determined on an actuarial basis using various assumptions.

(e) Impairment of financial assets (including trade receivables):

Allowance for doubtful receivables represent the estimate of losses that could arise due to inability of the Customer to make payments when due. These estimates are based on the customer ageing, customer category, specific credit circumstances and the historical experience of the group as well as forward looking estimates at the end of each reporting period.

(f) Estimation of Provisions and contingencies:

Provisions are liabilities of uncertain amount or timing recognised where a legal or constructive obligation exists at the balance sheet date, as a result of a past event, where the amount of the obligation can be reliably estimated and where the outflow of economic benefit is probable. Contingent liabilities are possible obligations that may arise from past event whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events which are not fully within the control of the Company. The Company exercises judgement and estimates in recognizing the provisions and assessing the exposure to contingent liabilities relating to pending litigations. Judgement is necessary in assessing the likelihood of the success of the pending claim and to quantify the possible range of financial settlement. Due to this inherent uncertainty in the evaluation process, actual losses may be different from originally estimated provision.

41. EMPLOYEE BENEFIT OBLIGATIONS (Contd.)**(d) Assumptions:****The principal financial assumptions used in valuation of Gratuity are as follows:**

Particulars	As at March 31, 2018	As at March 31, 2017	As at April 1, 2016
Discount rate (per annum)	7.70%	7.40%	7.75%
Salary growth rate (per annum)*	8.50%	8.50%	8.50%
Attrition rate (derived based on age)	1.00% to 5.00%	1.00% to 5.00%	1.00% to 5.00%
Mortality rate	% of Indian Assured Lives Mortality (2006-08)		

* The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion, and other relevant factors such as supply and demand factors in the employment market. (The expected rate of return on plan assets is based on the current portfolio of assets, investment strategy and market scenario.)

(e) The sensitivity of the defined benefit obligation to changes in the weighted key assumptions are:

Gratuity	As at March 31, 2018			As at March 31, 2017		
	Change in Assumption	Increase in Rate / Increase (Decrease) in DBO	Decrease in Rate / Decrease (Increase) in DBO	Change in Assumption	Increase in Rate / Increase (Decrease) in DBO	Decrease in Rate / Decrease (Increase) in DBO
Discount rate	1.00%	-7.00%	7.90%	1.00%	-7.10%	8.10%
Salary growth rate	1.00%	7.40%	-6.60%	1.00%	7.60%	-6.80%
Attrition rate	50.00%	-0.50%	0.60%	50.00%	-0.60%	0.70%

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance Sheet.

The method and types of assumptions used in preparing the sensitivity analysis did not change compared to prior period.

(f) The major categories of plan assets are as follows:

(iv) Medical Voluntary retirement scheme (MVRS)

- (a) The Company also have a defined benefit plan for its employees, viz., voluntary early separation scheme on account of continued ill-health not amounting to occupational disease and thereby unable to perform normal duties of their post. Under the Scheme, the benefits will be given for a retired employee for a maximum period upto 10 years or age of retirement, whichever is earlier. In case of early death of the employee, the legal heir of the employee shall get 50% of separation benefit for the rest of the benefit period. The costs of providing benefits under the said plan is determined on the basis of actuarial valuation at each year-end. Separate actuarial valuation is carried out for the plan using the projected unit credit method. Actuarial gains and losses for the defined benefit plan is recognised in full in the period in which they occur in the Statement of Profit and Loss. This Scheme is not funded.

(v) Defined Contribution Plan

The Company has certain defined contribution plans such as provident fund, super annuation fund and family pension fund for the benefit of the employees. Contributions are made to provident fund in India for employee at the rate of 12% of basic salary as per regulations. The Contributions are made to registered provident fund administered by the government. The obligation of the Company is limited to the amount contributed and it has no further contractual nor any constructive obligation. The Expenses recognised during the period towards defined contribution plan is INR 473.98 lacs (March 31, 2017 - INR 453.16 lacs).

(vi) Risk Exposure for Gratuity (funded plan):

Through its defined benefit plans, the group is exposed to number of risks, the most significant of which are detailed below:

Assets Volatility: The plan liabilities are calculated using a discount rate set with reference to bond yields; if plan assets underperform this yield, this will create a deficit. Most of the plan assets has investments in insurance/equity managed fund, fixed income securities with high grades, public/private sector units and government securities. Hence assets are considered to be secured.

Change in bond yields: A decrease in bond yields will increase plan liabilities, although this will be partially offset by an increase in value of plans bond holdings.

42. FAIR VALUE MEASUREMENTS (Contd.)
(ii) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

The fair value of financial instruments as referred to in note above has been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active market for identical assets or liabilities (level 1 measurement) and lowest priority to unobservable inputs (level 3 measurements). The categories used are as follows:

- Level 1:** Financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds, mutual funds, bonds and debentures, that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period.
- Level 2:** The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is considered here. For example, the fair value of forward exchange contracts, currency swaps and interest rate swaps is determined by discounting estimated future cash flows using a risk-free interest rate. The mutual funds are valued using the closing NAV published by mutual fund.
- Level 3:** The fair value of financial instruments that are measured on the basis of entity specific valuations using inputs that are not based on observable market data (unobservable inputs). When the fair value of unquoted instruments cannot be measured with sufficient reliability, the group carries such instruments at cost less impairment, if applicable.

The carrying amounts of trade receivables, trade payables, cash and cash equivalents and other bank balances, loans and other financial assets and liabilities are considered to be the same as their fair values due to their short-term nature. The carrying amount of long term borrowings are considered to be same as their fair values as these borrowings carry floating interest rates.

43. FINANCIAL RISK MANAGEMENT

In the course of its business, the Company is exposed to a number of financial risks: credit risk, liquidity risk and market risk. This note presents the Company's objectives, policies and processes for managing its financial risk and capital. The key risks and mitigating actions are also placed before the Board of Directors of the Company. The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

The Company manages the risk through the finance department that ensures that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The activities are designed to:

- protect the Company's financial results and position from financial risks
- maintain market risks within acceptable parameters, while optimising returns; and
- protect the Company's financial investments, while maximising returns.

The note explains the Company's exposure to financial risks and how these risks could affect the Company's future financial performance.

(A) Credit Risk

Credit risk arises from the possibility that the counter party may not be able to settle their obligations as agreed. Credit risks from balances with banks and financial institutions are managed in accordance with the Company's policy. For derivative and financial instruments, the Company attempts to limit the credit risk by only dealing with reputable banks and financial institutions having high credit ratings assigned by the credit rating agencies. The Company periodically assesses financial reliability of customers and other counter parties, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of financial assets. Individual risk limits are set and periodically reviewed on the basis of such information.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the Company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forward-looking information. The outstanding trade receivables are regularly monitored and appropriate action is taken for collection of overdue receivables.

In respect of its investments the company aims to minimize its financial credit risk through the application of risk management policies.

The gross carrying amount of trade receivables is INR 11,978.90 lacs (March 31, 2017: INR 11,690.37 lacs, April 1, 2016: INR 12,747.98 lacs)

(B) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. The Company's approach for managing liquidity is to ensure that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking manage to Company's reputation. In addition, processes and policies related to such risks are overseen by the senior management. The management monitors the Company's net liquidity position through rolling forecasts on the basis of expected cash flows.

(C) Market risk

The Company is exposed to risk from movements in foreign currency exchange rates, interest rates and market prices that affect its assets, liabilities and future transactions.

(i) Foreign exchange risk

Foreign currency risk is that risk in which the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company operates internationally and a portion of its business is transacted in multiple currencies and therefore the Company is exposed to foreign exchange risk through its overseas sales and purchases in various foreign currencies. The Company takes decision to hedge by forming view after discussions with its advisors and as per policies set by Management.

The Company was also exposed to the foreign currency loans availed from banks to reduce the overall interest cost. The Company had fully hedged loan exposure in foreign currency to mitigate the foreign exchange risk on the same.

54. FIRST-TIME ADOPTION OF IND AS

The Company has adopted Indian Accounting Standards (Ind AS) as notified by the Ministry of Corporate Affairs with effect from April 1, 2017, with a transition date of April 1, 2016. The adoption of Ind AS has been carried out in accordance with Ind AS 101 - First-time Adoption of Indian Accounting Standards. Ind AS 101 requires that all Ind AS standards and interpretations that are issued and effective for the first Ind AS standalone financial statements be applied retrospectively and consistently for all financial years presented. However, in preparing these Ind AS financial statements, the Company has availed of certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognised directly in equity. An explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows is set out in the following tables and notes:

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

(All amounts in INR lakhs, unless otherwise stated)

54. FIRST-TIME ADOPTION OF IND AS (Contd.)**A. Exemptions and exceptions availed**

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

Optional Exemptions**(i) Business combinations**

Ind AS 101 provides the option to apply Ind AS 103 prospectively from the transition date or from a specific date prior to the transition date. This provides relief from full retrospective application that would require restatement of all business combinations prior to the transition date. The Company has elected to apply Ind AS 103 prospectively to business combination occurring after its transition date. Business combination occurring prior to transition date have not been restated.

(ii) Deemed cost

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets. Accordingly, the company has elected to measure all of its property, plant and equipment, intangible assets and investment properties at their previous GAAP carrying value.

(iii) Investment in subsidiaries and joint ventures

Ind AS 101 permits a first-time adopter to measure its investment, at the date of transition, at cost determined in accordance with Ind AS 27, or deemed cost. The deemed cost of such investment shall be its fair value at date of transition to Ind AS of the Company, or previous GAAP carrying amount at that date. The Company has elected to measure its investment in subsidiary companies, associate Company and joint venture Company under previous GAAP carrying amount as its deemed cost on the transition date.

(iv) Designation of previously recognised financial instruments

Ind AS 101 allows an entity to designate investments in equity instruments at FVOCI on the basis of the facts and circumstances at the date of transition to Ind AS. The Company has elected to apply this exemption for its investment in equity investments.

Ind AS mandatory exceptions**(i) Estimates**

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error. Ind AS estimates as at April 1, 2016 are consistent with the estimates as at the same date made in conformity with previous GAAP.

(ii) Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification and measurement of financial assets (investment in debt instruments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS. Consequently, the Company has applied the above assessment based on facts and circumstances exist at the transition date.

B. Transition to Ind AS - Reconciliations

The following reconciliations provide a quantification of the effect of significant differences arising from the transition from previous GAAP to Ind AS in accordance with Ind AS 101:

(i) Reconciliation of Total Comprehensive Income for the year ended March 31, 2017.

(ii) Reconciliation of Equity as at April 1, 2016 and March 31, 2017.

(iii) Reconciliation of Statement of Cash Flows.

The presentation requirements under previous GAAP differs from Ind AS and hence previous GAAP information has been regrouped for inline with Ind AS. The regrouped previous GAAP information is derived from the Standalone Financial Statements of the Company prepared in accordance with the previous GAAP.

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

(All amounts in INR lakhs, unless otherwise stated)

54. FIRST-TIME ADOPTION OF IND AS (Contd.)**C. Notes to first-time adoption:****1. Proposed dividend**

Under the previous GAAP (upto the year end March 31, 2016) dividends proposed by the board of directors after the balance sheet date but before the approval of the financial statements were considered as adjusting events and accordingly, provision for proposed dividend was recognised as a liability. Under previous GAAP (effective April 1, 2016) and Ind AS, such dividends are recognised when the same is approved by the shareholders in the general meeting. Accordingly, the liability for proposed dividend of INR 680.84 Lakhs as at April 1, 2016 included under provisions has been reversed with corresponding adjustment to retained earnings. Consequently, the total equity has been increased by an equivalent amount.

2. Investments**(i) Fair Valuation of Investments**

Under the previous GAAP, investments in equity instruments were classified as long-term investments or current investments based on the intended holding period and realisability. Long-term investments were carried at cost less provision for other than temporary decline in the value of such investments. Current investments were carried at lower of cost and fair value. Under IND AS, these investments are required to be measured at fair value.

Fair value changes with respect to investments in equity instruments designated as FVOCI have been recognised in FVOCI - Equity investments reserve as at the date of transition and subsequently in the Other Comprehensive Income for the year ended March 31, 2017. This increased other reserves and equity by INR 14,036.30 Lakhs as at March 31, 2017 and INR 12,182.18 Lakhs as at April 1, 2016. Further Other Comprehensive Income for the year ended March 31, 2017 has increased by INR 1,854.12 Lakhs (other than the investments which are derecognised during the previous year, see (ii) below).

(ii) Profit on sale of Investments

Under previous GAAP profit on sale of Investments was directly recognised in the Statement of Profit and Loss by comparing the sale value with amount appearing in balance sheet (i.e. Cost). Company has sold its investments in Excel Crop Care Limited to Sumitomo Chemical Company, Limited, Japan in accordance with Share Purchase Agreement during the year ended March 31, 2017. As per Ind AS as the Investments are fair valued and recognised through OCI, Company has reversed gain of INR 2,668.78 lacs and accounted the same in Other Comprehensive Income.

3. Loan Given to Subsidiary

Under the previous GAAP, interest free loans given a subsidiary were recorded at their transaction value. Under Ind AS, all financial assets are required to be recognized at their fair value. Accordingly, the Company has fair valued these loans under Ind AS. Difference between fair value of loan given to a subsidiary and the carrying value (transaction value) as per Previous GAAP has been recognized as investment in subsidiary. Consequently, the amount of loan given has been decreased by INR 170.36 lacs as at April 1, 2016 and corresponding increase in investments in subsidiary. During the year ended March 31, 2017, these loan has been repaid and hence interest income has been accounted for INR 170.36 lacs resulting into increase in Income and equity as at March 31, 2017.

4. Remeasurements of post employment benefit obligation

Under Ind AS, remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability are recognized in Other Comprehensive Income instead of profit and loss. Under the previous GAAP, these remeasurements were forming part of the profit and loss for the year. As a result of this change, the profit for the year ended March 31, 2017 increase by INR 175.31 Lakhs. There is no impact on the total equity as at March 31, 2017.

5. Deferred tax

Deferred Tax on aforesaid Ind AS adjustments

6. Other Comprehensive Income

Under Ind AS, all items of income and expense recognised in a period should be included in profit or loss for the period, unless a standard requires or permits otherwise. Items of income and expense that are not recognised in profit or loss but are shown in the statement of profit and loss as 'other comprehensive income' includes remeasurements of defined benefit plans. The concept of other comprehensive income did not exist under previous GAAP.

7. Retained Earnings

Retained earnings as at April 1, 2016 has been adjusted consequent to the above Ind AS transition adjustment.

55. STANDARDS ISSUED BUT NOT YET EFFECTIVE

The standards issued, but not yet effective upto the date of issuance of the Company's standalone financial statements is disclosed below. The Company shall adopt these as and when they becomes effective.

(a) Ind AS 115 Revenue from Contracts with Customers

In March 2018, the Ministry of Corporate Affairs has notified the Companies (Indian Accounting Standards) Amended Rules, 2018 ("amended rules"). As per the amended rules, Ind AS 115 "Revenue from contracts with customers" supersedes Ind AS 11, "Construction contracts" and Ind AS 18, "Revenue" and is applicable for all accounting periods commencing on or after April 1, 2018.

Ind AS 115 introduces a new framework of five step model for the analysis of revenue transactions. The model specifies that revenue should be recognised when (or as) an entity transfer control of goods or services to a customer at the amount to which the entity expects to be entitled. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers. The new revenue standard is applicable to the Company from April 1, 2018.

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

(All amounts in INR lakhs, unless otherwise stated)

55. STANDARDS ISSUED BUT NOT YET EFFECTIVE (Contd.)

The standard permits two possible methods of transition:

- Retrospective approach - Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors.
- Retrospectively with cumulative effect of initially applying the standard recognized at the date of initial application (Cumulative catch - up approach).

The Company is evaluating the requirement of the amendment and the impact on the financial statements. The effect on adoption of Ind AS 115 is expected to be insignificant

(b) Appendix B to Ind AS 21, Foreign currency transactions and advance consideration

On March 28, 2018, Ministry of Corporate Affairs (“MCA”) has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 containing Appendix B to Ind AS 21, Foreign currency transactions and advance consideration which clarifies the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in a foreign currency. The amendment will come into force from April 1, 2018. The Company is evaluating the requirement of the amendment and the impact on the financial statements. The effect on adoption of Ind AS 21 is expected to be insignificant.

(c) Amendment to Ind AS 40 Investment Property - Transfers of Investment Property

The amendments clarify that transfers to, or from, investment property can only be made if there is a change in use that is supported by evidence. A change in use occurs when the property meets, or ceases to meet, the definition of investment property. A change in intention alone is not sufficient to support a transfer. This standard will come into force from accounting period commencing on or after April 1, 2018. The Company shall apply the amendment on the required effective date. Management has assessed the effects of the amendment on classification of existing property at April 1, 2018 and concluded that no reclassifications are required.

(d) Amendments to Ind AS 12 : Income taxes regarding recognition of deferred tax assets on unrealised losses.

The amendments clarify the accounting for deferred taxes where an asset is measured at fair value and that fair value is below the asset's tax base. Management has assessed and concluded that there are no such applicable cases.

INDEPENDENT AUDITOR'S REPORT**To the Members of Excel Industries Limited****Report on the Consolidated Indian Accounting Standards (Ind AS) Financial Statements**

1. We have audited the accompanying consolidated Ind AS financial statements of Excel Industries Limited (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") and its associate company; (Refer Note 44 to the attached consolidated Ind AS financial statements), comprising of the consolidated Balance Sheet as at March 31, 2018, the consolidated Statement of Profit and Loss (including Other Comprehensive Income), the consolidated Cash Flow Statement for the year then ended and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information prepared based on the relevant records (hereinafter referred to as "the Consolidated Ind AS Financial Statements").

Management's Responsibility for the Consolidated Ind AS Financial Statements

2. The Holding Company's Board of Directors is responsible for the preparation of these consolidated Ind AS financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance (including consolidated other comprehensive income), consolidated cash flows and consolidated changes in equity of the Group including its associate in accordance with accounting principles generally accepted in India including the Indian Accounting Standards specified in the Companies (Indian Accounting Standards) Rules, 2015 (as amended) under Section 133 of the Act. The Holding Company's Board of Directors is also responsible for ensuring accuracy of records including financial information considered necessary for the preparation of consolidated Ind AS financial statements. The respective Board of Directors of the companies included in the Group and of its associate are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and its associate respectively and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which has been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

Auditors' Responsibility

3. Our responsibility is to express an opinion on these consolidated Ind AS financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act and the Rules made thereunder including the accounting standards and matters which are required to be included in the audit report.
4. We conducted our audit of the consolidated Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated Ind AS financial statements are free from material misstatement.
5. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated Ind AS financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated Ind AS financial statements that give a true and fair view, in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated Ind AS financial statements.

6. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph 8 of the Other Matters paragraph below, other than the unaudited financial statements as certified by the management and referred to in sub-paragraph 9 of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

Opinion

7. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the consolidated state of affairs of the Group and its associate as at March 31, 2018, and their consolidated total comprehensive income (comprising of consolidated profit and consolidated other comprehensive income), their consolidated cash flows and consolidated changes in equity for the year ended on that date.

Other Matters

8. We did not audit the financial statements two subsidiaries whose financial statements reflect total assets of Rs. 11,460.70 lakhs and net assets of Rs. 9,628.44 lakhs as at March 31, 2018, total revenue of Rs. 4.21 lakhs, total comprehensive income (comprising of profit and other comprehensive income) of Rs. 4,032.27 lakhs and net cash flows amounting to Rs. 254.94 lakhs for the year ended on that date, as considered in the consolidated Ind AS financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management, and our opinion on the consolidated Ind AS financial statements in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-section (3) of Section 143 of the Act insofar as it relates to the aforesaid subsidiaries is based solely on the reports of the other auditors.
9. The consolidated Ind AS financial statements also include the Group's share of total comprehensive income (comprising of loss and other comprehensive income) of Rs. Nil for the year ended March 31, 2018 as considered in the consolidated Ind AS financial statements, in respect of one associate company whose financial statements have not been audited by us. These financial statements are unaudited and have been furnished to us by the Management, and our opinion on the consolidated Ind AS financial statements insofar as it relates to the amounts and disclosures included in respect of the associate company and our report in terms of sub-section (3) of Section 143 of the Act insofar as it relates to the aforesaid associate, is based solely on such unaudited financial statements. In our opinion and according to the information and explanations given to us by the Management, these financial statements are not material to the Group.

Our opinion on the consolidated Ind AS financial statements and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements certified by the Management.

10. The comparative financial information of the Group for the year ended March 31, 2017 and the transition date opening balance sheet as at April 1, 2016 included in these consolidated Ind AS financial statements, are based on the previously issued statutory financial statements for the years ended March 31, 2017 and March 31, 2016 prepared in accordance with the Companies (Accounting Standards) Rules, 2006 (as amended) which were audited by the predecessor auditor, who expressed an unmodified opinion vide reports dated May 26, 2017 and May 27, 2016 respectively. The adjustments to those financial statements for the differences in accounting principles adopted by the Group on transition to the Ind AS have been audited by us.

Our opinion is not qualified in respect of these matters.

Report on Other Legal and Regulatory Requirements

11. As required by Section 143(3) of the Act, we report, to the extent applicable, that:

Annexure A to Independent Auditor's Report

Referred to in paragraph 11(f) of the Independent Auditors' Report of even date to the members of Excel Industries Limited on the consolidated Ind AS financial statements for the year ended March 31, 2018

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

1. In conjunction with our audit of the consolidated Ind AS financial statements of the Holding Company as of and for the year ended March 31, 2018, we have audited the internal financial controls over financial reporting of Excel Industries Limited (hereinafter referred to as "the Holding Company") and its subsidiary companies, which are companies incorporated in India, as of that date. Reporting under clause (i) of sub section 3 of Section 143 of the Act in respect of the adequacy of the internal financial controls over financial reporting is not applicable to one associate company incorporated in India namely Mobitrash Recycle Ventures Private Limited, pursuant to MCA notification GSR 583(E) dated June 13, 2017.

Management's Responsibility for Internal Financial Controls

2. The respective Board of Directors of the Holding company and its subsidiary companies to whom reporting under clause (i) of sub section 3 of Section 143 of the Act in respect of the adequacy of the internal financial controls over financial reporting is applicable, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding Company and its subsidiary companies which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

9. Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to two subsidiary companies which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies. Our opinion is not qualified in respect of this matter.

1. SIGNIFICANT ACCOUNTING POLICIES:

This note provides a list of the significant accounting policies adopted in the preparation of these consolidated financial statements. These accounting policies have been consistently applied to all the years presented by the Group unless otherwise stated.

These consolidated financial statements were authorized for issue by the Group's Board of Directors on May 25, 2018.

A. Basis of preparation**(i) Compliance with Ind AS**

The consolidated financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

These consolidated financial statements for the year ended March 31, 2018 are the first financial statements of the Group prepared in accordance with Ind AS. For all periods up to and including the year ended March 31, 2017, the Group prepared its financial statements in accordance with the Generally Accepted Accounting Principles (hereinafter referred to as 'previous GAAP') used for its statutory reporting requirement in India. Refer Note 53 for an explanation of how the transition from the previous GAAP to Ind AS has affected the Group's financial position, financial performance and cash flows. The Group has adopted the Ind AS standards in accordance with Ind AS 101 First time adoption of Indian Accounting Standards.

The date of transition to Ind AS is April 1, 2016. Refer Note 53 for the first time adoption exemptions availed by the Group.

(ii) Historical Cost Convention

The consolidated financial statements have been prepared on historical cost basis except the following:

- certain financial assets and liabilities (including derivative instruments) is measured at fair value;
- assets held for sale – measured at lower of carrying amount or fair value less cost to sell; and;
- defined benefit plans – plan assets measured at fair value.

(iii) Amended standards adopted by the Group

The amendments to Ind AS 7 require disclosure of changes in liabilities arising from financing activities, Refer Note 24(f).

(iv) Current and non-current classification

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle (twelve months) and other criteria set out in the Schedule III to the Act.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

(All amounts in INR lakhs, unless otherwise stated)

1. SIGNIFICANT ACCOUNTING POLICIES (Contd.)**B. Principles of consolidation and equity accounting**

The Consolidated financial statements comprise of the financial statements of Excel Industries Limited ("the Holding Company"), its subsidiaries, associate and joint venture. The details of the share holding held by the Group is given in Note 44.

(i) Subsidiaries

Subsidiaries are all entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group.

The Group combines the financial statements of the Holding Group and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

(ii) Associates

Associate is an entity over which the Group has significant influence but not control or joint control. This is generally the case where the Group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting (see note (iv) below), after initially being recognised at cost.

(iii) Joint ventures

Investments in joint ventures are accounted for using the equity method (See note (iv) below), after initially being recognised at cost in the consolidated balance sheet.

(iv) Equity Method

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in statement of profit and loss, and the Group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the Group and its associates and joint ventures are eliminated to the extent of the Group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

C. SEGMENT REPORTING

Operating segments are reported in a manner consistent with internal reporting provided to the Chief Operating Decision Maker (CODM). The Chairman and Managing Director is designated as CODM. Refer Note 43 for segment information presented.

D. Foreign Currency translation**(i) Functional and presentation currency**

Items included in the consolidated financial statements of the Group's entities are measured using the currency of the primary economic environment in which the

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

(All amounts in INR lakhs, unless otherwise stated)

1. SIGNIFICANT ACCOUNTING POLICIES (Contd.)

entity operates ('the functional currency'). The consolidated financial statements are presented in Indian Rupee (INR) which is the functional and presentation currency of the Group.

(ii) Transaction and balances

Foreign currency transactions are translated into the functional currency at the exchange rates on the date of transaction. Foreign exchange gains and losses resulting from settlement of such transactions and from translation of monetary assets and liabilities at the year-end exchange rates are generally recognized in the profit and loss.

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the Statement of Profit and Loss, within finance costs. All other foreign exchange gains and losses are presented in the Statement of Profit and Loss on a net basis.

Non-monetary foreign currency items are carried at cost and accordingly the investments in shares of foreign entity are expressed in Indian currency at the rate of exchange prevailing at the time when the original investments are made or fair values determined. Exchange differences arising on the settlement of monetary items or on translating monetary items are recognised in the statement of Profit and Loss.

E. Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are inclusive of excise duty and net of returns, trade allowances, rebates, value added taxes, goods and services tax (GST) and amounts collected on behalf of third parties.

The Group recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Group's activities as described below. The Group bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement

Sale of goods:

Revenue from sale of goods is recognised when all the significant risks and rewards of ownership of the goods have been passed to the buyer usually on delivery of the goods. The Group collects sales taxes, value added taxes (VAT) and goods and services tax (GST) on behalf of the government and, therefore, these are not economic benefits flowing to the Group. Hence, they are excluded from revenue. Excise duty deducted from revenue (gross) is the amount that is included in the revenue (gross) and not the entire amount of liability arising during the year.

Income from services

Revenues from service contracts are recognised pro-rata over the period of the contract as and when services are rendered. The Group collects service tax/GST on behalf of the government and, therefore, it is not an economic benefit flowing to the Group. Hence, it is excluded from revenue.

Export incentives

Income from export incentives such as Duty drawback/MEIS scheme etc. are recognised on accrual basis to the extent the ultimate realisation is reasonably certain.

Interest Income

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "other income" in the Statement of Profit and Loss.

Dividend

Dividend income is recognised when the Group's right to receive dividend is established by the reporting date.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

(All amounts in INR lakhs, unless otherwise stated)

1. SIGNIFICANT ACCOUNTING POLICIES (Contd.)**Gain on sales of Securities**

Gain and losses on sale of securities are recognised on trade date basis. Gains and losses on sale of securities are determined based on the weighted average cost method of accounting.

F. Government Grant

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

G. Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the balance sheet method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in the Profit and Loss Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Minimum Alternative Tax (MAT) credit, which is equal to the excess of MAT (calculated in accordance with provisions of Section 115JB of the Income tax Act, 1961) over normal income-tax is recognised as an item in deferred tax asset by crediting the Statement of Profit and Loss only when and to the extent there is convincing evidence that the Group will be able to avail the said credit against normal tax payable during the period of fifteen succeeding assessment years.

H. Leases**As a lessee**

Leases of property, plant and equipment where the Group, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

(All amounts in INR lakhs, unless otherwise stated)

1. SIGNIFICANT ACCOUNTING POLICIES (Contd.)

of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the Statement of Profit and Loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Group as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the Statement of Profit and Loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases..

As a lessor

Lease income from operating leases where the Group is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

I. Impairment of Non-Financial Assets

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest Group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized in the Statement of Profit and Loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in Statement of Profit and Loss.

J. Cash and Cash Equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

K. Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

(All amounts in INR lakhs, unless otherwise stated)

1. SIGNIFICANT ACCOUNTING POLICIES (Contd.)**L. Inventories**

Raw material, stores and spares, packing materials, work in progress, traded and finished goods are stated as lower of cost and net realisable value. Cost of Raw material and traded goods comprises of cost of purchases. Cost of work-in-progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Cost includes the reclassification from equity of any gains or losses on qualifying cash flow hedges relating to purchases of raw material but excludes borrowings costs. Costs are assigned to individual items of inventory on the basis of first-in first-out basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated costs necessary to make the sale.

M. Investments and other financial assets**(i) Classification**

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit and loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

(ii) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit and loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit and loss are expensed in profit and loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt Instruments**Amortised cost:**

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

Fair Value through Other Comprehensive Income (FVOCI)

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

(All amounts in INR lakhs, unless otherwise stated)

1. SIGNIFICANT ACCOUNTING POLICIES (Contd.)

is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method. Foreign exchange gains and losses are presented in other gains and losses and impairment expenses in other expenses.

Fair Value through Profit and Loss (FVTPL)

Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit and loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit and loss and is not part of a hedging relationship is recognised in profit and loss and presented net in the statement of profit and loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Equity instruments

The Group subsequently measures all equity investments at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments are recognised in profit or loss as other income when the Group's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in other gain/(losses) in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

Impairment of financial assets

The Group assesses if there is any significant increase in credit risk pertaining to the assets and accordingly creates necessary provisions, wherever required.

N. Derivatives and hedging activities

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period and impact is recorded in the profit and loss account.

The full fair value of a hedging derivative is classified as a non-current asset or liability when the remaining maturity of the hedged item is more than 12 months; it is classified as a current asset or liability when the remaining maturity of the hedged item is less than 12 months. Trading derivatives are also classified as a current asset or liability when expected to be realised/settled within 12 months of the balance sheet date. Refer note 43 for disclosure of various derivatives financial instruments.

O. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

P. Property, Plant and Equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation/amortisation and impairments, if any. Historical cost includes tax, duties, freight and other incidental expenditure that is directly attributable to the acquisition of the items. Indirect expenses during construction period, which are required to bring the asset in the condition for its intended use by the management and are directly attributable to bringing the asset to its position, are also capitalized. Cost may also include transfers from equity of any gains or losses on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018
(All amounts in INR lakhs, unless otherwise stated)

1. SIGNIFICANT ACCOUNTING POLICIES (Contd.)

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Capital work-in-progress comprises cost of fixed assets that are not yet ready for their intended use at the year end.

Transition to IND AS

On transition to Ind AS, the Group has elected to continue with the carrying value of all of its property, plant and equipment recognised as at April 1, 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

Depreciation methods, estimated useful lives and residual value

As per technical evaluation of the Group the useful life considered for the following items is different than the life stipulated in Schedule II to the Companies Act 2013

Description of Asset	*Depreciation rates	Schedule II Rates (SL Method)
Buildings	1.58%-31.67%	1.58%
Road	9.50%-20.58%	9.50%
Plant and Machinery - Metallic	5.28%	4.75%
Plant and Machinery - Non-metallic	11.88%	4.75%
Electrical Installations	9.50%-32.64%	9.50%

Assets individually costing INR 25,000 or less are depreciated fully in the year of acquisition.

The property, plant and equipment acquired under finance leases is depreciated over the asset's useful life or over the shorter of the asset's useful life and the lease term if there is no reasonable certainty that the Group will obtain ownership at the end of the lease term.

The useful lives have been determined based on technical evaluation done by the management's expert which are higher than those specified by Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit and loss within other gains/(losses).

Q. Investment property

Investment properties are properties that is held for long-term rentals yields or for capital appreciation (including property under construction for such purposes) or both, and that is not occupied by the Group, is classified as investment property.

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Investment properties are depreciated using the straight-line method over their estimated useful lives. Investment properties generally have useful life of 25-40 years. The useful life has been determined based on technical evaluation performed by the management expert.

Though the Group measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

(All amounts in INR lakhs, unless otherwise stated)

1. SIGNIFICANT ACCOUNTING POLICIES (Contd.)

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit and loss in the period of derecognition.

Transition to Ind AS

On transition to Ind AS, the Group has elected to continue with the carrying value of all of its investment properties recognised as at April 1, 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of investment properties.

R. Intangible assets and Amortisation

Intangible assets are amortised over their respective individual estimated useful lives on a straight line basis, but not exceeding the period given here under:

Category	Useful life
Computer software	4 years

Transition to Ind AS

On transition to Ind AS, the Group has elected to continue with the carrying value of all of intangible assets recognised as at April 1, 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of intangible assets.

S. Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

T. Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit and loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit and loss as other gains/(losses)

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

U. Borrowing Costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

(All amounts in INR lakhs, unless otherwise stated)

1. SIGNIFICANT ACCOUNTING POLICIES (Contd.)

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

Other borrowing costs are expensed in the period in which they are incurred.

V. Provisions, Contingent Liabilities and Contingent Assets

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made.

Provisions for legal claims, service warranties, volume discounts and returns are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

A contingent asset is disclosed, where an inflow of economic benefits is probable.

Warranty provisions, provisions for warranty related costs are recognised when the product is sold or service provided. Provision is based on historical experience. The estimate of such warranty related costs is revised annually.

W. Employee Benefits**(i) Short-term obligations:**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employee's services up to the end of the reporting and are measured at the amounts expected to be paid when the liabilities are settled.

(ii) Other Long-term employee benefit obligationsLeave Obligations:

The liabilities for leave obligation (annual leave) which are not expected to be settled wholly within 12 months after the end of the period in which the employee render the related services. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the Projected Unit Credit method. The benefits are discounted using the market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligations. Remeasurements as a result of experience adjustments and changes in actuarial assumptions (i.e. actuarial losses/ gains) are recognised in the Statement of Profit and Loss.

The obligations are presented as current in the balance sheet if the Group does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

(All amounts in INR lakhs, unless otherwise stated)

1. SIGNIFICANT ACCOUNTING POLICIES (Contd.)Long Service awards:

The Group provides for the long service awards for eligible employees as per the scheme announced by the Group. The liability towards the long services awards is provided at each balance sheet date on the basis of independent actuary valuation.

Defined benefit plan — Gratuity:

The liability or asset recognised in the balance sheet in respect of gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. The estimated future payments are discounted using market yields determined by reference to high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms approximating to the terms of the related obligation.

The net interest cost, calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of the plan assets, is recognised as employee benefit expenses in the statement of profit and loss. Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit and loss as past service cost.

Defined benefit plan — Voluntary early separation scheme:

The Group also have a defined benefit plan for its employees, i.e. Medical Voluntary retirement scheme in which employees suffering from continued ill-health not amounting to occupational disease and thereby unable to perform normal duties of their post. Under the Scheme, the benefits will be given for a retired employee for a maximum period up to 10 years or age of retirement, whichever is earlier. In case of early death of the employee, the legal heir of the employee shall get 50% of separation benefit for the rest of the benefit period. The costs of providing benefits under the said plan is determined on the basis of actuarial valuation at each year-end. Separate actuarial valuation is carried out for the plan using the projected unit credit method. Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet. This Scheme is not funded.

Defined Contribution Plan — Provident Fund:

The Group pays provident fund contributions to publicly administered provident funds as per local regulatory authorities. The Group has no further obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due.

Defined Contribution Plan — Superannuation Fund:

The Group makes contribution to the Superannuation Scheme, a defined contribution scheme, administered by insurance companies. The Group has no obligation to the scheme beyond its monthly contributions.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

(All amounts in INR lakhs, unless otherwise stated)

1. SIGNIFICANT ACCOUNTING POLICIES (Contd.)

There are no obligations other than the contribution payable to the Superannuation Fund Trust. The Group recognises contribution payable to the Superannuation Fund as an expenditure, when an employee renders the related service. The contribution is charged to the statement of profit and loss of the year when the contribution accrues. The scheme is funded with a insurance Group in the form of qualifying insurance policies.

(iii) Bonus plans

The Group recognises a liability and an expense for bonuses. The Group recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

X. Contributed equity

Equity shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Y. Dividends

Provision is made for the amount of any dividend declared, being appropriately authorized and no longer at the discretion of the Group, on or before the end of the reporting period but not distributed at the end of the reporting period.

Z. Earnings Per Share

The Group presents basic and diluted earnings per share data for its ordinary shares. Basic earnings per share is calculated by dividing the profit or loss attributable to ordinary shareholders of the group by the weighted average number of ordinary shares outstanding during the year. Diluted earnings per share is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for own shares held, for the effects of all dilutive potential ordinary shares.

AA. Rounding of amounts

All amounts disclosed in the consolidated financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

2. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the financial statements requires management to exercise judgment and to make estimates and assumptions. These estimates and associated assumptions are based on historical experiences and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognised in the period in which the estimate is revised if the revision affect only that period, or in the period of the revision and future periods if the revision affects both current and future period.

The areas involving critical estimates or judgements are as under:

(a) Estimation of current tax expenses and payable:

Taxes recognized in the financial statements reflect management's best estimate of the outcome based on the facts known at the balance sheet date. These facts include but are not limited to interpretation of tax laws of various jurisdictions where the Group operates. Any difference between the estimates and final tax assessments will impact the income tax as well the resulting assets and liabilities.

(b) Estimated fair value of unlisted securities:

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Group uses its judgement to select a variety of methods and make assumptions that are mainly based on the market conditions existing at the end of each reporting period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

(All amounts in INR lakhs, unless otherwise stated)

2. CRITICAL ACCOUNTING JUDGEMENTS ASSUMPTIONS AND ESTIMATES (Contd.)(c) Useful lives of property, plant and equipment and Intangible assets:

Depreciation and amortisation is based on management estimates of the future useful lives of the property, plant and equipment and intangible assets. Estimates may change due to technological developments, competition, changes in market conditions and other factors and may result in changes in the estimated useful life and in the depreciation and amortisation charges.

(d) Estimation of defined benefit obligation:

The liabilities of the Group arising from employee benefit obligations and the related current service cost, are determined on an actuarial basis using various assumptions.

(e) Impairment of financial assets (including trade receivables):

Allowance for doubtful receivables represent the estimate of losses that could arise due to inability of the customer to make payments when due. These estimates are based on the customer ageing, customer category, specific credit circumstances and the historical experience of the Group as well as forward looking estimates at the end of each reporting period.

(f) Estimation of Provisions and contingencies:

Provisions are liabilities of uncertain amount or timing recognised where a legal or constructive obligation exists at the balance sheet date, as a result of a past event, where the amount of the obligation can be reliably estimated and where the outflow of economic benefit is probable. Contingent liabilities are possible obligations that may arise from past event whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events which are not fully within the control of the Group. The Group exercises judgement and estimates in recognizing the provisions and assessing the exposure to contingent liabilities relating to pending litigations. Judgement is necessary in assessing the likelihood of the success of the pending claim and to quantify the possible range of financial settlement. Due to this inherent uncertainty in the evaluation process, actual losses may be different from originally estimated provision.

(iii) Gratuity

(a) The Group provides for gratuity for employees as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement / termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. If an employee completes more than 25 years of service as of March 31, 2017 except staff and workers, then instead of 15 days, he / she will get gratuity on retirement / termination at 22 days last drawn salary. The gratuity plan is a funded plan and the Group makes contributions to recognised funds in India.

(d) Assumptions:

The principal financial assumptions used in valuation of Employee benefit obligation are as follows:

Particulars	As at March 31, 2018	As at March 31, 2017	As at April 1, 2016
Discount rate (per annum)	7.70%	7.40%	7.75%

Attrition rate (derived based on age)	1.00% to 5.00%	1.00% to 5.00%	1.00% to 5.00%
Mortality rate	% of Indian Assured Lives Mortality (2006-08)		

* The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion, and other relevant factors such as supply and demand factors in the employment market. (The expected rate of return on plan assets is based on the current portfolio of assets, investment strategy and market scenario.)

39. EMPLOYEE BENEFIT OBLIGATIONS (Contd.)
(e) The sensitivity of the defined benefit obligation to changes in the weighted key assumptions are:

Gratuity	As at March 31, 2018			As at March 31, 2017		
	Change in Assumption	Increase in Rate / Increase (Decrease) in DBO	Decrease in Rate / Decrease (Increase) in DBO	Change in Assumption	Increase in Rate / Increase (Decrease) in DBO	Decrease in Rate / Decrease (Increase) in DBO
Discount rate	1.00%	-7.00%	7.90%	1.00%	-7.10%	8.10%
Salary growth rate	1.00%	7.40%	-6.60%	1.00%	7.60%	-6.80%
Attrition rate	50.00%	-0.50%	0.60%	50.00%	-0.60%	0.70%

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance Sheet.

The method and types of assumptions used in preparing the sensitivity analysis did not change compared to prior period.

(f) The major categories of plan assets are as follows:

Gratuity	As at March 31, 2018		As at March 31, 2017		As at April 1, 2016	
	Amount	%	Amount	%	Amount	%
Insurer Managed funds	4,082.21	100%	3,888.36	100%	3,425.51	100%

(g) Defined benefit liability and employer contributions:

The weighted average duration of the defined benefit obligation is 8 years (March 31, 2017 - 8 years, April 1, 2016 - 8 years). The expected maturity analysis of undiscounted gratuity is as follows:

Gratuity	As at March 31, 2018	As at March 31, 2017	As at April 1, 2016
1 year	634.86	674.60	586.70
2-5 years	1,113.50	1,019.66	977.60
6-10 years	2,291.71	2,071.04	1,651.10
More than 10 years	4,684.04	4,914.98	5,385.40

(iv) Medical Voluntary retirement scheme (MVRS)

- (a) The Group also have a defined benefit plan for its employees, viz., voluntary early separation scheme on account of continued ill-health not amounting to occupational disease and thereby unable to perform normal duties of their post. Under the Scheme, the benefits will be given for a retired employee for a maximum period upto 10 years or age of retirement, whichever is earlier. In case of early death of the employee, the legal heir of the employee shall get 50% of separation benefit for the rest of the benefit period. The costs of providing benefits under the said plan is determined on the basis of actuarial valuation at each year-end. Separate actuarial valuation is carried out for the plan using the projected unit credit method. Actuarial gains and losses for the defined benefit plan is recognised in full in the period in which they occur in the statement of profit and loss. This Scheme is not funded.

(b) The amounts recognised in balance sheet and the movement in the obligation over the year are as follows:

Discount Rate	1.00%	-2.60%	2.50%	1.00%	-2.50%	-2.40%

(v) Defined Contribution Plan

The Group has certain defined contribution plans such as provident fund, super annuation fund and family pension fund for the benefit of the employees. Contributions are made to provident fund in India for employee at the rate of 12% of basic salary as per regulations. The Contributions are made to registered provident fund administered by the government. The obligation of the Group is limited to the amount contributed and it has no further contractual nor any constructive obligation. The Expenses recognised during the period towards defined contribution plan is INR 483.27 lacs (March 31, 2017 - INR 461.60 lacs).

(vi) Risk Exposure for Gratuity (funded plan)

Through its defined benefit plans, the Group is exposed to number of risks, the most significant of which are detailed below:

Assets Volatility: The plan liabilities are calculated using a discount rate set with reference to bond yields; if plan assets underperform this yield, this will create a deficit. Most of the plan assets has investments in insurance/equity managed fund, fixed income securities with high grades, public/private sector units and government securities. Hence assets are considered to be secured.

Change in bond yields: A decrease in bond yields will increase plan liabilities, although this will be partially offset by an increase in value of plans bond holdings.

(ii) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Financial asset and liabilities measured at fair value - recurring fair value measurements:	Notes	Level 1	Level 2	Level 3	Total

40. FAIR VALUE MEASUREMENTS (Contd.)

Financial asset and liabilities measured at fair value - recurring fair value measurements:	Notes	Level 1	Level 2	Level 3	Total
As at April 1, 2016					
Financial Asset					
Financial Instruments at FVOCI					
Equity Investments	7	9,570.36	9,835.52	—	19,105.88

Investments in Mutual Funds	12	1.56	5.00	—	6.56
Total Financial Assets		9,571.92	9,540.52	—	19,112.44

The fair value of financial instruments as referred to in note above has been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active market for identical assets or liabilities (level 1 measurement) and lowest priority to unobservable inputs (level 3 measurements). The categories used are as follows:

Level 1: Financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds, mutual funds, bonds and debentures, that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is considered here. For example, the fair value of forward exchange contracts, currency swaps and interest rate swaps is determined by discounting estimated future cash flows using a risk-free interest rate. The mutual funds are valued using the closing NAV published by mutual fund.

Level 3: The fair value of financial instruments that are measured on the basis of entity specific valuations using inputs that are not based on observable market data (unobservable inputs). When the fair value of unquoted instruments cannot be measured with sufficient reliability, the Group carries such instruments at cost less impairment, if applicable.

(iii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments
- the fair value of the remaining financial instruments is determined using discounted cash flow analysis

(iv) Fair value of Financial assets and liabilities measured at amortised cost

Particulars	Notes	As at March 31, 2018		As at March 31, 2017		As at April 1, 2016

The carrying amounts of trade receivables, trade payables, cash and cash equivalents and other bank balances, loans and other financial assets and liabilities are considered to be the same as their fair values due to their short-term nature. The carrying amount of long-term Borrowing are considered to be same as their fair value as interest rate on these loans are floating interest rates.

41. FINANCIAL RISK MANAGEMENT

In the course of its business, the Group is exposed to a number of financial risks: credit risk, liquidity risk and market risk. This note presents the Group's objectives, policies and processes for managing its financial risk. The key risks and mitigating actions are also placed before the Board of Directors of the Group. The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities.

The Group manages the risk through the finance department that ensures that the Group's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Group's policies and risk objectives. The activities are designed to:

- protect the Group's financial results and position from financial risks
- maintain market risks within acceptable parameters, while optimising returns; and
- protect the Group's financial investments, while maximising returns.

The note explains the Group's exposure to financial risks and how these risks could affect the Group's future financial performance.

(A) Credit Risk

Credit risk arises from the possibility that the counter party may not be able to settle their obligations as agreed. Credit risks from balances with banks and financial institutions are managed in accordance with the Group policy. For derivative and financial instruments, the Group attempts to limit the credit risk by only dealing with reputable banks and financial institutions having high credit ratings assigned by the credit rating agencies. The Group periodically assesses financial reliability of customers and other counter parties, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of financial assets. Individual risk limits are set and periodically reviewed on the basis of such information.

The Group considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the Group compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forwarding-looking information. The outstanding trade receivables are regularly monitored and appropriate action is taken for collection of overdue receivables.

In respect of its investments the Group aims to minimize its financial credit risk through the application of risk management policies.

The gross carrying amount of trade receivables is INR 12,464.25 lacs (March 31, 2017: INR 12,033.90 lacs, April 1, 2016: INR 12,693.77 lacs)

41. FINANCIAL RISK MANAGEMENT (Contd.)**(B) Liquidity risk**

Liquidity risk is the risk that the Group will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. The Group's approach for managing liquidity is to ensure that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to Group's reputation. In addition, processes and policies related to such risks are overseen by the senior management. The management monitors the Group's net liquidity position through rolling forecasts on the basis of expected cash flows.

(C) Market risk

The Group is exposed to risk from movements in foreign currency exchange rates, interest rates and market prices that affect its assets, liabilities and future transactions.

(i) Foreign exchange risk

Foreign currency risk is that risk in which the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group operates internationally and a portion of its business is transacted in multiple currencies and therefore the Group is exposed to foreign exchange risk through its overseas sales and purchases in various foreign currencies. The Group takes decision to hedge by forming view after discussions with its adviser and as per policies set by Management.

The Group was also exposed to the foreign currency loans availed from banks to reduce the overall interest cost. The Group had fully hedged loan exposure in foreign currency to mitigate the foreign exchange risk on the same.

53. FIRST-TIME ADOPTION OF IND AS

The Group has adopted Indian Accounting Standards (Ind AS) as notified by the Ministry of Corporate Affairs with effect from April 1, 2017, with a transition date of April 1, 2016. The adoption of Ind AS has been carried out in accordance with Ind AS 101 – First-time Adoption of Indian Accounting Standards. Ind AS 101 requires that all Ind AS standards and interpretations that are issued and effective for the first Ind AS consolidated financial statements be applied retrospectively and consistently for all financial years presented. However, in preparing these Ind AS financial statements, the Group has availed of certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognised directly in equity. An explanation of how the transition from previous GAAP to Ind AS has affected the Group's financial position, financial performance and cash flows is set out in the following tables and notes:

A. Exemptions and exceptions availed

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

(a) Ind AS optional exemptions**(i) Business combinations**

Ind AS 101 provides the option to apply Ind AS 103 prospectively from the transition date or from a specific date prior to the transition date. This provides relief from full retrospective application that would require restatement of all business combinations prior to the transition date. The Group has elected to apply Ind AS 103 prospectively to business combination occurring after its transition date. Business combination occurring prior to transition date have not been restated.

(ii) Deemed cost

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets. Accordingly, the Group has elected to measure all of its property, plant and equipment, intangible assets and investment properties at their previous GAAP carrying value.

(iii) Investment in joint ventures and associates

Ind AS 101 permits a first-time adopter to measure its investment, at the date of transition, at cost determined in accordance with Ind AS 27, or deemed cost. The deemed cost of such investment shall be its fair value at date of transition to Ind AS of the Group, or previous GAAP carrying amount at that date. The Group has elected to measure its investment in joint ventures and associates under previous GAAP carrying amount as its deemed cost on the transition date.

(iv) Designation of previously recognised financial instruments

Ind AS 101 allows an entity to designate investments in equity instruments at FVOCI on the basis of the facts and circumstances at the date of transition to Ind AS. The Group has elected to apply this exemption for its investment in equity investments.

(b) Ind AS mandatory exceptions**(i) Estimates**

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error. Ind AS estimates as at April 1, 2016 are consistent with the estimates as at the same date made in conformity with previous GAAP.

(ii) Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification and measurement of financial assets (investment in debt instruments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS. Consequently, the Group has applied the above assessment based on facts and circumstances exist at the transition date.

B. Transition to Ind AS - Reconciliations

The following reconciliations provide a quantification of the effect of significant differences arising from the transition from previous GAAP to Ind AS in accordance with Ind AS 101:

- (i) Reconciliation of Total Comprehensive Income for the year ended March 31, 2017.
- (ii) Reconciliation of Equity as at April 1, 2016 and March 31, 2017.
- (iii) Reconciliation of Statement of Cash Flows.

The presentation requirements under previous GAAP differs from Ind AS and hence previous GAAP information has been reGrouped for inline with Ind AS. The reGrouped previous GAAP information is derived from the Consolidated Financial Statements of the Group prepared in accordance with the previous GAAP.

(All amounts in INR lakhs, unless otherwise stated)

53. FIRST-TIME ADOPTION OF IND AS (Contd.)**C. Notes to first-time adoption:****1. Proposed dividend**

Under the previous GAAP, upto the year end March, 31, 2016 dividends proposed by the board of directors after the balance sheet date but before the approval of the financial statements were considered as adjusting events and accordingly, provision for proposed dividend was recognised as a liability. Under previous GAAP (effective April 1, 2016) Ind AS, such dividends are recognised when the same is approved by the shareholders in the general meeting. Accordingly, the liability for proposed dividend of INR 680.84 Lacs as at April 1, 2016 included under provisions has been reversed with corresponding adjustment to retained earnings. Consequently, the total equity has been increased by an equivalent amount.

2. Investments**(i) Fair Valuation of Investments**

Under the previous GAAP investments in equity instruments were classified as long-term investments or current investments based on the intended holding period and realisability. Long-term investments were carried at cost less provision for other than temporary decline in the value of such investments. Current investments were carried at lower of cost and fair value. Under IND AS, these investments are required to be measured at fair value.

Fair value changes with respect to investments in equity instruments designated as FVOCI have been recognised in FVOCI - Equity investments reserve as at the date of transition and subsequently in the Other Comprehensive Income for the year ended March 31, 2017. This increased other reserves and equity by INR 17,966.11 Lacs as at March 31, 2017 and INR 16,407.03 lacs as at April 1, 2016. Further Other Comprehensive Income for the year ended March 31, 2017 has increased by INR 1,559.08 lacs. (other than the investments which were derecognised during the previous year, see (ii) below)

(ii) Profit on sale of Investments

Under previous GAAP profit on sale of Investments was directly recognised in the Statement of Profit and Loss by comparing the sale value with amount appearing in balance sheet (i.e. Cost). The Group has sold its investments in Excel Crop Care Limited to Sumitomo Chemical Company, Limited, Japan in accordance with Share Purchase Agreement during the year ended March 31, 2017. As per Ind AS as the Investments are fair valued and recognised through OCI, accordingly the Group has reversed gain of INR 4,906.40 lacs and accounted the same in Other Comprehensive Income.

3. Remeasurements of post employment benefit obligation

Under In AS, remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability are recognized in other comprehensive income instead of profit and loss. Under the previous GAAP these remeasurements were forming part of the profit and loss for the year. As a result of this change, the profit for the year ended March 31, 2017 increase by INR 175.31 lacs. There is no impact on the total equity as at March 31, 2017.

4. Deferred tax

Deferred Tax on aforesaid IND AS adjustments

5. Other comprehensive income

Under Ind AS, all items of income and expense recognised in a period should be included in profit or loss for the period, unless a standard requires or permits otherwise. Items of income and expense that are not recognised in profit or loss but are shown in the statement of profit and loss as 'other comprehensive income' includes remeasurements of defined benefit plans. The concept of other comprehensive income did not exist under previous GAAP.

6. Retained Earnings

Retained earnings as at April 1, 2016 has been adjusted consequent to the above Ind AS transition adjustment.

54. STANDARDS ISSUED BUT NOT YET EFFECTIVE

The standards issued, but not yet effective upto the date of issuance of the Company's financial statements is disclosed below. The Group Company shall adopt these as and they when they becomes effective.

(a) Ind AS 115 Revenue from Contracts with Customers

(i) In March 2018, the Ministry of Corporate Affairs has notified the Companies (Indian Accounting Standards) Amended Rules, 2018 ("amended rules"). As per the amended rules, Ind AS 115 "Revenue from contracts with customers" supersedes Ind AS 11, "Construction contracts" and Ind AS 18, "Revenue" and is applicable for all accounting periods commencing on or after 1 April 2018.

Ind AS 115 introduces a new framework of five step model for the analysis of revenue transactions. The model specifies that revenue should be recognised when (or as) an entity transfer control of goods or services to a customer at the amount to which the entity expects to be entitled. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers. The new revenue standard is applicable to the Group Company from 1 April 2018.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

(All amounts in INR lakhs, unless otherwise stated)

54. STANDARDS ISSUED BUT NOT YET EFFECTIVE (Contd.)

The standard permits two possible methods of transition:

- Retrospective approach - Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors.
- Retrospectively with cumulative effect of initially applying the standard recognized at the date of initial application (Cumulative catch - up approach).

The Group Company is evaluating the requirement of the amendment and the impact on the financial statements. The effect on adoption of Ind AS 115 is expected to be insignificant.

(b) Appendix B to Ind AS 21, Foreign currency transactions and advance consideration

On March 28, 2018, Ministry of Corporate Affairs (“MCA”) has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 containing Appendix B to Ind AS 21, Foreign currency transactions and advance consideration which clarifies the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in a foreign currency. The amendment will come into force from April 1, 2018. The Group is evaluating the requirement of the amendment and the impact on the financial statements. The effect on adoption of Ind AS 21 is expected to be insignificant.

(c) Amendment to Ind AS 40 Investment Property - Transfers of Investment Property

The amendments clarify that transfers to, or from, investment property can only be made if there is a change in use that is supported by evidence. A change in use occurs when the property meets, or ceases to meet, the definition of investment property. A change in intention alone is not sufficient to support a transfer. This standard will come into force from accounting period commencing on or after April 1, 2018. The Group shall apply the amendment on the required effective date. Management has assessed the effects of the amendment on classification of existing property at April 1, 2018 and concluded that no reclassifications are required.

(d) Amendments to Ind AS 12 : Income taxes regarding recognition of deferred tax assets on unrealised losses.

The amendments clarify the accounting for deferred taxes where an asset is measured at fair value and that fair value is below the asset’s tax base. Management has assessed and concluded that there are no such applicable cases.
