These results were taken on record by the Board of Directors at a meeting held in Mumbai today.

Dilip Shanghvi, Managing Director of the Company said, "For Q1, we have recorded good growth in all the major markets. We are gradually crossing key milestones in our specialty initiatives with the recent commercialization of Yonsa in the US and targeted launch of Ilumya and Cequa in the coming quarters. We are also awaiting approvals from US FDA for two specialty products, Xelpros and Elepsia, filed from Halol. With all these specialty launches lined-up, a substantial portion of our current specialty pipeline will be on market. We are creating a deep pipeline of specialty products, however, during the year these launches will result in significant upfront investments. We continue to evaluate opportunities in the specialty segment to further enhance this business."
