CHAIRMAN'S MESSAGE

Dear Shareholders,

Welcome and Warm Greetings from the Board of Directors of your Company.

Financial Year 2017-18, was yet another landmark year in terms of strategic focus, business, operations and growth delivery for your Company.

As the global trend of shifting from globalization to protectionism continued, the foundations of global economic and trade have begun to make important shifts, India, is working towards recalibrating its priorities and strategies. Changes are evident in the Americas, Middle East, Central Asia and Europe. This, we believe is more of a long term cyclical behavior of economic policy momentums from free trade to local trades. Balancing of such cycles may take a long term with many unknown consequences for both Nations and Companies.

Your Company is closely monitoring on such developments to reduce downsides and explore on any emerging opportunities on which we could build incremental growth and value for shareholders.

Financial Services is now a necessity and everyone are being necessitated to move into the organized and formal sector by the recent initiatives of the present government. We endorse this initiative and expect long term gains for the Indian economy due to this trend.

Affordable technology, increased, connectivity and reduced costs of internet have made India embark on the cusp of now exposing itself directly into next generation technology and aim to catapult itself with the best of world class infrastructure and conveniences for its population. This provides young businesses like us to aim for the best of services as we have limited legacy issues.

Regulatory trends continue to be broadly restrictive, but, we believe, they should work in towards the reduction of excesses of non-productive investments of the past, as well as creating a focused growth momentum for the present.

India is now benefiting from strong inflows of domestic capital into Mutual Funds, Insurance, Pension Funds, other Government bonds and savings program by the Government. In fact, Indian domestic capital inflows into the equity markets through SIPs of Mutual Funds alone exceeded 7000 Crores per month, bringing a cushion of restricting too much downside for equity valuation of large Companies if there is a flight of overseas capital. In fact, as per our internal observations, the gross equity outflows upto Rs. 15,000 Crores every month, will still not affect the valuations of the stocks significantly. This is a strong base for creating new equity capital for India and build on newer opportunities.

We continue to worry on the rising Non-Performing Assets of the Indian banking system. This could stifle/choke the competitive cost capital availability/supply for large number of corporate in India. Too much focus on bringing system accountability by dwelling into the past is to a small degree shaking up the confidence of corporate India. There is a need for a balanced and calibrated approach to tackle on such issues, when national assets are at stake and taxpayer money is involved.

Your Company will remain committed to walk through these opportunities and challenges in a mature and dynamic manner. Our objective remains to build on the confidence and trust reposed by you as our esteemed shareholder.

Thanking you,.

Best Regards

MANAGING DIRECTOR & CFO'S MESSAGE

Greetings Dear Shareholder,

Your Company continued to be invested in the strong and growing financial services business. We continue to have interests in Financial Services and Information Technology led ecommerce related services in India.

Review of FY2017-18 Performance

Total revenues of your Company on a standalone basis rose by 205.5% in the current fiscal from Rs. 70.89 lakhs to Rs. 216.6 lakhs. On a consolidated basis the revenues were lower by 5.6% as compared to the previous year at Rs. 742 lakhs.

By concentrated focus to turnaround the acquired venture, your Company restructured your businesses by right sizing of people and reduction of non-essential expenses. We are pleased to share that your Company has been able to turnaround from a loss making Company into a profit making Company, albeit, with marginal profits at Rs 5.6 lakhs on a consolidated basis and Rs. 8.8 lakhs on a standalone basis.

We strive to continue to grow the business and operations of your Company in the most prudent and efficient manner.

Dividend

As your Company has just turned around and does require some more time to mature its businesses and operations, the Board of Directors has decided not to declare dividend for this year. Your Company intends to reinvest the surplus in short term for furthering growth instead of paying dividend for building and securing long term value for its shareholders.

Consolidation of Businesses

As the consolidation process of the businesses acquired through our Wholly Owned Subsidiary namely Purple India Holdings Limited continues 100% equity stakes of Dealmoney Distribution and Advisory Services Private Limited for Rs. 400 lakhs and Dealmoney Commodity Private Limited for Rs 525 lakhs, were acquired by your Company.

Due to delay in securing all the regulatory approvals within the contracted period, and as the seller, Destimoney Enterprises Limited's expressed unwillingness to extend the deal timelines, the equity stakes held by them as per our Share Purchase Agreement have been seamlessly acquired/transferred into associate entities, as per the Share Purchase Agreement. Renewed application for the transfer of the equity shares from the transferred Company into your Company is being proposed by your board on the same terms, subject to regulatory and shareholder approvals. The considerations have not been altered in any manner and we are optimistic of securing the regulatory approvals in this year from SEBI and RBI. The Companies whose approvals for acquisitions are being sought at present are Dealmoney Securities Private Limited and Sarsan Securities Private Limited (NBFC).

Business Outlook FY2018-19

Considering that the Indian national elections / general elections would be around by the middle of next year, it would be prudent to avoid expectations of any massive and stringent economic growth measures by the Government, especially, in its last budget session for this term. The volatility of the regional state elections could make equity market and economy directed upsides limited. Only truly deserving Companies could get the benefit from increased premium in valuations. We would choose to avoid all leveraged Company exposures that have mostly serviced their interest through additional borrowings and have no capacity to service the interest rates, unless for acquisitions/ mergers perspective.

We expect, Indian Insurance Sector to continue to do well due to the overall low penetration rates and the Government's intent to launch a national healthcare insurance for all Indians with a protection of upto Rs. 5 lakhs per family, per year policy covering over 20 Crore families. This is expected to be amongst the world's largest healthcare program and should change the foundations of the Indian healthcare industry.

Asset Management companies should benefit from their past focus of moving investments from one-time investors, to a trend of collecting monthly payments from consumers through the successful penetration of systematic investment plans.

Financial Intermediaries, now face a daunting task of facing rising competition, reducing spreads with the consumer habits shift to use more of technology applications and buy-in specific products directly due to clarity of goals, more so, in urban India. So, their goal will now be to broad-base our services and reach up to newer markets and also expand our product portfolio. Your Company is also working to deliver on all these fronts.

Your Company is rightly positioned to benefit from our calculated business choices and product expansions of FY2017-18. We also remain focused on building itself into a formidable business participant in this industry. Overall, we expect an interesting and positive year for our Company.

The Board of Directors, Our Chairman and I would like to sincerely thank you for the faith reposed in us and we hope to continue to deliver sustained and long term value for your investments.

Thanking you.

EXPLANATORY STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013
Item 4:

The Scheme of the amalgamation of Wholly Owned Subsidiaries namely Onelife Gas Energy & Infrastructure Limited, Good Yield Fertilisers and Pesticides Private Limited, Leadline Software and Trading Private Limited, Onelife Ecopower and Engineering Limited, Goodyield Farming Limited, Purple India Holdings Limited. and Dealmoney Distribution and Advisory Services Private Limited (Formerly known as Destimoney Distribution and Advisory Services Private Limited) with the Onelife Capital Advisors Limited ("Transferee Company") was approved by the Board of Directors of the Transferor Companies and Transferee Company at its Meeting held on 14th February, 2018.

The Transferee Company holds 100% equity share capital of Onelife Gas Energy & Infrastructure Limited, Good Yield Fertilisers and Pesticides Private Limited, Leadline Software and Trading Private Limited, Onelife Ecopower & Engineering Limited, Goodyield Farming Limited and Purple India Holdings Limited.

The Dealmoney Distribution and Advisory Services Private Limited (Formerly known as Destimoney Distribution and Advisory Services Private Limited) is a wholly owned subsidiary of Purple India Holdings Limited and Purple India Holdings Limited is a wholly owned subsidiary of Onelife Capital Advisors Limited. Therefore, the Dealmoney Distribution and Advisory Services Private Limited becomes wholly owned subsidiary of Onelife Capital Advisors Limited pursuant to Section 2(87) of Companies Act, 2013.

It is proposed to amalgamate the Transferor Companies with the Transferee Company considering various benefits arising from amalgamation. Amalgamation will lead to operational synergies, greater efficiency and economical operations for future growth of the combined entities. There would be more efficient utilization of capital, superior deployment of brand promotion, sales strategies and create a consolidated and simplified holding structure with a wider presence in the segment. Amalgamation will prevent cost duplication and result in administrative and operational rationalization and promote organizational efficiencies.

Section 233 of the Companies Act, 2013 provides for a fast track Amalgamation of a Wholly Owned Subsidiary with its Holding Company. Considering that the Transferor Companies are Wholly Owned Subsidiaries of the transferee Company, it is proposed to amalgamate the Wholly Owned Subsidiaries with the Holding Company under Section 233 which requires consent of the members.

A draft Scheme of Amalgamation is proposed for the approval of the Shareholders at the meeting. The Draft Scheme has also been filed with the Registrar of Companies and Official Liquidators at Mumbai, inviting objections or suggestions, if any, on the draft Scheme. The objections and suggestions, received from the Registrar of Companies and Official Liquidators shall be consider at the meeting before approving the Scheme of Amalgamation.

The Board accordingly recommends the passing of the said resolution as contained in the Notice for approval by the Members as **Special Resolution**.

None of the Directors, Key Managerial Personnel and their relatives are in any way concerned or interested, financially or otherwise, directly or indirectly in the proposed resolution.

In this regard the following documents are attached to this **Notice and Explanatory Statement**:

1. Scheme of Amalgamation as Annexure I as per Rule 25(3) of Companies (Compromises, Arrangements and Amalgamations) Rules, 2016.
2. Details required to be given as per Section 233 read with the Companies (Compromises, Arrangements and Amalgamations) Rules, 2016 as Annexure II as per Rule 25(3)(a) of Companies (Compromises, Arrangements and Amalgamations) Rules, 2016.
3. Declaration of solvency by the Company in Form CAA 10 as Annexure III as per Rule 25(3)(b) of Companies (Compromises, Arrangements and Amalgamations) Rules, 2016.

All other material documents pertaining to the above resolution shall be available for inspection by the Members at the Registered Office of the Company.

The above explanatory statement in respect of Item No. 4 sets out all facts to enable the Members to understand the meaning, scope and implications of these items of business and to take a decision thereon.

Onelife Gas Energy & Infrastructure Limited, Good Yield Fertilisers and Pesticides Private Limited, Leadline Software and Trading Private Limited, Onelife Ecopower & Engineering Limited, Goodyield Farming Limited and Purple India Holdings Limited are direct wholly owned subsidiaries and Destimoney Distribution and Advisory Services Private Limited is a Step Down wholly owned subsidiary of the Transferee Company.

3. OBJECTS AND REASONS:

- The Transferor Companies are wholly owned subsidiaries and Step Down wholly owned subsidiary of Transferee Company. In order to consolidate the business at one place and effectively manage the Transferor Companies and Transferee Company as a single entity, which will provide several benefits including streamlined group structure by reducing the number of legal entities, reducing the multiplicity of legal and regulatory compliances, rationalizing costs, it is intended that the Transferor Companies be amalgamated with Transferee Company.
- The independent operations of the Transferor Companies and Transferee Company leads to incurrence of significant costs and the amalgamation would enable economies of scale by attaining critical mass and achieving cost saving. The amalgamation will thus eliminate a multi-layered structure and reduce managerial overlaps, which are necessarily involved in running multiple entities and also prevent cost duplication that can erode financial efficiencies of a holding structure and the resultant operations would be substantially cost-efficient. This Scheme would result in simplified corporate structure of the Transferee Company and its businesses, thereby leading to more efficient utilization of capital and creation of a consolidated base for future growth of the Transferee Company.
- The amalgamation will contribute in furthering and fulfilling the objectives and business strategies of all the companies thereby accelerating growth, expansion and development of the respective businesses through the Transferee Company.

The amalgamation will thus enable further expansion of the Transferee Company and provide a strong and focused base to undertake the business more advantageously. Further, this arrangement would bring concentrated management focus, integration, streamlining of the management structure, seamless implementation of policy changes and shall also help enhance the efficiency and control of the Transferor Companies and Transferee Company.

- The synergies created by scheme of arrangement would increase operational efficiency and integrate business functions.
- The proposed arrangement will provide greater integration and flexibility to the Transferee Company and strengthen its position in the industry, in terms of the asset base, revenues, product and service range.
- The other benefits the proposed amalgamation include:
 - (a) Optimum and efficient utilization and rationalization of capital, resources, assets and facilities;
 - (b) Enhancement of competitive strengths including financial resources;
 - (c) Obtaining synergy benefits;
 - (d) Better management and focus on growing the businesses;
 - (e) Reduction of overheads, administrative, managerial and other expenditure.
 - (f) Simplify shareholding structure and reduce shareholding tiers

In view of the above, it is considered desirable and expedient to amalgamate the Transferor Companies with the Transferee Company in accordance with this Scheme, pursuant to Sections 233 of the Companies Act, 2013.

PART - II

(The Scheme)

4. TRANSFER OF UNDERTAKING:

- 4.1 With effect from the Appointed Date, the Transferor Companies shall stand amalgamated with the Transferee Company, as provided in the Scheme. Accordingly, the Undertaking of the Transferor Companies shall, pursuant to the provisions contained in Section 233 and other applicable provisions of the Act and subject to the provisions of the Scheme in relation to the mode and manner of vesting, stand transferred to and vest in or be deemed to be transferred to and vested in the Transferee Company, as a going concern without any further act, deed, matter or thing (save as provided in Clause 4.2 below) so as to become on and from the Appointed Date the Undertaking of the Transferee Company.
- 4.2 It is expressly provided that in respect of the assets of the Transferor Companies as are movable in nature or otherwise capable of being transferred by manual delivery or by endorsement and delivery, the same shall be so transferred by the Transferor Companies and shall become the property of the Transferee Company accordingly without requiring any deed or instrument of conveyance for the same.
- 4.3 In respect of the assets of the Transferor Companies other than those referred to in Clause 4.2 above, the same shall, be transferred to and vested in and/or be deemed to be transferred to and vested in the Transferee Company pursuant to an order passed under the provisions of Section 233 of the Act.
- 4.3 All debts, liabilities, duties and obligations of the Transferor Companies shall be transferred to the Transferee Company, without any further act or deed, pursuant to the provisions of Section 233 of the Act, so as to become the debts, liabilities, duties and obligations of the Transferee Company.
- 4.4 The transfer of the Undertaking of the Transferor Companies, as aforesaid, shall be subject to the existing charges, if any, over or in respect of any of the assets or any part thereof.

FOR THE FINANCIAL YEAR ENDED 31ST MARCH, 2018

[Pursuant to section 204(1) of the Companies Act, 2013 and rule no. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,

The Members**Onelife Capital Advisors Limited****Plot No. A 356, Road No. 26,****Wagle Industrial Estate,****MIDC, Thane (West) - 400604**

I have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by ONELIFE CAPITAL ADVISORS LIMITE (hereinafter called the company). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the company has, during the audit period covering the financial year ended on 31st March, 2018 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2018 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ("SCRA") and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings to the extent of their applicability to the Company;
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009 (Not applicable during the Audit period);
 - (d) The Securities and Exchange Board of India (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999; (Not applicable during the Audit period)
 - (e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 (Not applicable during the Audit period);
 - (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
 - (g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009; (Not applicable during the Audit period) and
 - (h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998; (Not applicable during the Audit period)
 - (i) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015

(vi) OTHER LAWS SPECIFICALLY APPLICABLE TO THE COMPANY

No other law is specifically applicable to the Company. The Company has also confirmed the same.

(vii) OTHER LAWS APPLICABLE TO THE COMPANY

The adequate systems and processes are in place to monitor and ensure compliance with general laws like labour laws, environmental laws etc. to the extent of their applicability to the Company.

I have also examined compliance with the applicable clauses of the Secretarial Standards issued by the Institute of Company Secretaries of India.

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

I further report that:

- i) The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. During the year there was no change in the composition of Board of Directors.
- ii) Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation of the directors at the meetings.
- iii) All decisions at Board Meetings & Committee Meetings are carried out unanimously as recorded in the minutes of the meetings of the Board of Directors or the Committees of the Board, as the case may be.

I further report that there are adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

I further report that during the audit period the company has:

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDUSTRY OVERVIEW

Onelife Capital has been started growing in sector of Stock broking and Commodity Market by making the strategic investment in Dealmoney Group companies. Further the Company is also planning to enter into the Market of Mutual Fund and has made effort along with Dealmoney group to become the sponsor of the Sahara mutual fund as the mutual fund market is growing in a faster pace. As Company is planning to emerge as a Brand for one solution for the all financials needs of the customer and also improvising the customer satisfaction by providing excellent services.

FY18 was a good year for the Company as Company has made profit of Rs. 10.28 lakh as compared to loss of Rs. 243.30 lakh of the previous year. Further the Company has earned the revenue of Rs. 216.56 lakh as compared to previous of Rs. 70.89 lakh. The Company further moved a resolution for the merger of its wholly owned subsidiary and thereby making it as one entity. The momentum is likely to continue with an expectation of improvement in corporate earnings going forward.

India- Economic Review for 2017-18

The economy had just begun to shrug off the effects of demonetization in the previous fiscal and its transient impact on all aspects of the domestic economy. Another landmark reform of having a uniform domestic tax regime in the form of Goods and Services Tax was introduced w.e.f July 1, 2017. In this structure, there are five slabs under this structure of 0%, 5%, 12%, 18% and 28%. This is a rationalization effort by the central and state governments to ensure all indirect taxes move towards a single rate and make India one large market place. This initiative when implemented prudently can provide a mammoth impetus for India growth story.

As per the provisional estimates of the Central Statistical Organization (May 2018), Indian economy (GDP at constant prices) grew by 6.7% in FY2017-18 as against 7.1% in FY2016-17, representing a growth rate decline of 0.4%. The GDP at the end of FY2017-18 stood at Rs 130108.43 billion.

Yet, India remained amongst the fastest growing economies in the world. 59.3% of the GDP was contributed by the services sector, followed by 29.1% by the industrial sector and 17.1% by the agricultural sector. The contribution from the agricultural and industrial sectors declined by 0.8% and 0.2% respectively as compared to FY2016-17.

Gross Domestic Savings stood at 30% of the GDP for FY2016-17 as against 31.3% the previous fiscal. This has been primarily due to the reduction in the household savings segment. In fact, it was mostly due to the reduction in Gross Financial Savings from 11% of the GDP in FY2016-17 to 9.2% of the GDP in FY2017-18.

For MSME companies with turnover of upto Rs 50 crores the corporate tax rates was reduced to 25% for the year. Revenues for the Indian private sector companies grew by 14% during FY2017-18, while Net Profits declined by 9% during the same period.

As per RBI data, Non Performing Assets (NPA) rose from 9.6% to 10.2%, with Public Sector Banks leading portfolio taking a huge beating. This has impacted the ability of the banking sector to revive the credit growth.

Net Foreign Portfolio Investments/Foreign Institutional Investments for the year were at Rs 1,44,680 crores. This was much healthier than the Rs 48,421 crores of net inflows the previous fiscal (FY2016-17).

Revenue Deficit for the year 2017-18 as a percent of GDP stood at 2.6% as against 2.1% in 2016-17. However, the Fiscal Deficit remained at 3.5% of the GDP for both FY2018 and FY2017. Indian Rupee appreciated against the US Dollar from Rs 67.07 a dollar to Rs 64.45 as per RBI Data, indicating the strengthening of Rupee during the period.

Imports grew by a massive 19.59% during FY2017-18 to US\$ 459.67 billion, while exports rose by a modest US \$302.84 billion, with a negative trade balance of US\$ 156.83 in FY2017-18 against US\$ 108.5 billion in FY2016-17. This is a concern for India. India is a net importer of Crude Oil and also has lately been importing a lot of consumer goods and technology equipments, without being steadily able to improve its exports significantly.

Financial Services Industry – India- 2017-18 (Source: IBEF Website)

India's Bank credit grew at 12.64% y-o-y to Rs 85.511 lakh crore (US\$ 1,326.78 billion) on May 11, 2018 from Rs 75.91 lakh crore (US\$ 1,131.47) on May 12, 2017. NPAs remained a constant concern for the sector, with some public sector banks having NPAs in excess of 18% of their lending portfolio. RBI and the Ministry of Finance have been closely coordinating to work around on action plan to quickly turnaround this legacy problem. This is a crucial aspect which needs to be closely watched and tracked in the quarters to come. Apart from including HDFC Bank as a systemic risk bank after State Bank of India and ICICI Bank, there is a focused effort to have the largest NPA accounts resolved through special banking recovery norms, agencies and focus. This is the only way to uplift the business growth environment in the private sector.

The number of listed companies on NSE and BSE increased from 6,445 in FY10 to 7,501 in March 2018. The market capitalisation of all the companies listed on the BSE reached a record Rs 150 lakh crores (US\$ 2.33 trillion) backed by high gains in the broader market.

The amount raised by IPOs in India increased from US\$ 318 million in FY 2008-09 to US\$ 10,888 million in FY 2017-18*. Initial Public Offers (IPOs) by small and medium enterprises (SMEs) in India received record funding of Rs 16.79 billion (US\$ 259.35 million) in 2017 through 133 issues.

The total amount of initial public offerings increased to Rs 84,357 crores (US\$ 13,089 million) by the end of FY18.

The Mutual Fund (MF) industry in India has seen rapid growth in Assets Under Management (AUM). Total AUM of the industry stood at Rs 23.26 lakh crores (US\$ 360.90 billion) as of April 2018. At the same time the number of Mutual fund (MF) equity portfolios reached a record high of 2.27 billion in February 2018.

On account of rise in investments in the Mutual Funds and other financial instruments, the revenues of the brokerage industry in India are forecasted to grow by 15-20 per cent to reach Rs 18,000-19,000 crores (US\$ 2.80-2.96 billion) in FY2017-18, backed by healthy volumes and a rise in the share of the cash segment.

Another crucial component of India's financial industry is the insurance industry. The insurance industry has been expanding at a fast pace. The total first year premium of life insurance companies grew 17.35 per cent year-on-year to reach US\$ 25.44 billion during April 2017-February 2018.

Premium income of the life insurance segment had increased 14.04 per cent in FY17 to Rs 4.18 trillion (US\$ 64.92 billion). In August 2017, the Life Insurance industry reported a 24 per cent growth in overall annualized premium equivalent with the help of both private players and Life Insurance Corporation.

The number of lives covered under Health Insurance policies during 2015-16 was 36 crore which is approximately 30 per cent of India's total population. The number has seen an increase every subsequent year as 28.80 crore people had the policy in the previous fiscal.

Indian Capital Markets continued to do well during FY2017-18. India Equity Markets Index, BSE Sensex grew by 11% during the year and closed at 32,968 points, with the gross equity market capitalization of Rs 1,42,24,997 crores. This represents being 84% of India's GDP (CSO, 04/06/2018 update, www.bseindia.com).

Alongwith the secondary market, the market for Initial Public Offers (IPOs) has also witnessed rapid expansion. The total amount of Initial Public Offerings increased to Rs 84,357 crores (US\$ 13,089 million) by the end of FY18.

Over the past few years India has witnessed a huge increase in Mergers and Acquisition (M&A) activity. The total value of M&A in India rose 53.3 per cent year-on-year to US\$ 77.6 billion in 2017 from US\$ 50.6 billion in the preceding year. This is a trend which should continue as businesses consolidate and reorganize themselves for newer opportunities and business necessities.

Technology and E-commerce Industry – India -2018-19

Technology industry continued to drive and disrupt businesses. Affordability and connectivity options are creating new industry and business offerings. With almost every consumer now connected to technology, it has become imperative for all industries to adapt, upgrade and plan for technology innovations and increase on possibilities to survive in their businesses.

Disruptive trends which can be identified are Commoditized Artificial Intelligence, Chatbots, Augmented Reality, Augmented Analytics, Pressure To Move To The Cloud, Cybersecurity Investments, Blockchain, Conversational Artificial Intelligence, Visual Media (Voice Assistant Tech Integration) and 3-D Printing. India and Indians continue to contribute significantly in this sector both at international and Indian levels.

Mobile app revenues in India shot up in the first quarter (Q1) of 2018 across both – Android and iOS platforms. Market insights from data analysis firm App Annie show that India's app market grew 41 percent year-on-year in Q1 2018, and 250 percent since Q1 2016.

In 2017, India's internet user population was 281 million, with 62 percent in urban areas; the country's smartphone population itself was over 300 million. Mobiles have now become smart. Smartphones have now in India become the defunct mode to communicate, connect, transact and source information.

An outcome of the country's rapidly increasing smartphone population, India also led all other markets in terms of the most mobile application (App) downloads, followed by the U.S. and China (iOS only).

E-commerce is currently making its presence across a wide array of consumer verticals in India— everything from shopping, e-wallets, hailing cab services, travel bookings and listening to music to event management and matchmaking to sourcing almost anything online – can be achieved via smartphone apps.

The increasing number of hyper local services offered by India's numerous tech startups also add to the expanding potential of the country's online market. Additional traditional categories like video streaming, social media, and gaming in the mix, and India's mobile app industry is nothing short of booming. In fact, the top three apps downloaded in India in the first quarter of 2018 were related to video streaming. The two most popular applications, by revenue, were Netflix and Tinder. UCBrowser, ShareIt, and Hypstar followed by Facebook, WhatsApp, and Facebook Messenger round up the top ten apps list.

As per the survey findings, India has seen over one billion app installs, four billion app opens, 950 apps, \$400 million in-app revenue, 40 million retargeting conversions in the last one year. The survey was carried out between January 2017 and January 2018 by Apps Flyer.

Indian IT exports increased to US\$ 126 billion in FY18 while domestic revenues (including hardware) advanced to US\$ 41 billion. Total spending on IT by banking and security firms in India is expected to grow 8.6 per cent year-on-year to US\$ 7.8 billion by 2017. India's Personal Computer (PC) shipment advanced 11.4 per cent year-on-year to 9.56 million units in 2017 on the back of rise in the quantum of large projects.

Total online spending, inclusive of domestic and cross border shopping, is expected to increase by 31 per cent year-on-year to Rs 8.76 trillion (US\$ 135.8 billion) by 2018. Cross border shopping by Indians touched Rs 58,370 crores (US\$ 9.1 billion) in 2016, and is expected to be 85 per cent year-on-year in 2017. The top 3 countries preferred by Indians for cross-border shopping in 2016 were USA (14%), UK (6%) and China (5%).

The Indian consumer internet market is expected to grow by 44 per cent year-on-year to touch US\$ 65 billion in 2017, up from US\$ 45 billion in 2016. Online travel agents account for the largest market share (70 per cent) in the internet consumer market, while the remaining 30 per cent is occupied by horizontal e-tailing, fashion, furniture, grocery, hotel, food tech, cab aggregators, education technology, and alternative lending among others.

The internet industry in India is likely to double to reach US\$ 250 billion by 2020, growing to 7.5 per cent of Gross Domestic Product (GDP), with the number of mobile internet users growing to about 650 million and that of high-speed internet users reaching 550 million.⁵ About 70 per cent of the total automobile sales in India, worth US\$ 40 billion, are expected to be digitally influenced by 2020 as against US\$ 18 billion in 2016.

Much growth of the industry has been triggered by increasing internet and Smartphone penetration. The ongoing digital transformation in the country is expected to increase India's total internet user base to 829 million by 2021 (59 per cent of total population), from 373 million (28 per cent of population) in 2016, while total number of networked devices in the country are expected to grow to two billion by 2021, from 1.4 billion in 2016.

Business Outlook for FY2018-19

World Bank expects Indian economy to pick up growth momentum in FY2018-19 and expects the GDP to grow at 7.5%. This would be a welcome relief for the industry and the economy as the effects of demonetisation and GST implementations have begun to subside to a great extent, albeit with some more operational deficiencies being addressed even now. The Government is expected to maintain the fiscal deficit at 3.5% of the GDP for FY2019.

On the other side, India has identified NPAs in the banking system at Rs 8,41,000 Crores. There seems to be an urgency to solve the issue by the government. But, we believe it will continue to be a challenge in the medium term. Experts predict that the Indian banking bad loan problem should subside by FY2020.

Thus, we anticipate plenty of opportunities for asset restructurings, mergers, acquisitions and revival of industrial assets to pave the path of profitable recovery for the businesses across almost all sectors. The government policies are expected to benefit the larger and organized participants in every sector.

International trade wars which have been initiated by the USA against China can affect India also. Currency, Commodity and Equity markets will be affected globally and India will be no exception. While the growing domestic consumption and ability of the government to invest into large scale infrastructure should be a silver lining for India's growth, the challenge of rising crude prices and trade deficit due to rising imports would be a macro threat for the India growth rate in the coming months.

All markets like currency, equity, commodity, debt, etc. could see an element of realignment and refocus in the coming months. We expect mostly range-bound movements in terms of pricing to occur as both upsides and downsides would be capped by the volatility due to conflicting news flows. Indian equity markets are already fairly valued from a short term perspective, yet continue to offer value to long term investors.

India remains far behind the U.S. when accounting for absolute revenues generated from the sale of mobile apps. The U.S. leads other countries, generating revenues worth US\$3.2 billion in Q1, followed by Japan at US\$2.7 billion. India ranked 29th, generating revenues worth US\$47 million.

Nevertheless, the market potential for India’s mobile apps is expected to rise exponentially in coming years, not least due to improving network connectivity and the expanding range of affordable smartphone models.

The growth of the smartphone market is increasing worldwide and billions of mobile applications were created and downloaded in every year. The mobile app development continues to be one of the fastest-growing businesses. The maximum number of app in a market is dominated by the Google apps, social media apps, and editing apps, and these big firms are victimizations the apps to market easily.

Listed are some trends which are able to determine the long run prospects of mobile application development: Internet of things applications, Wearable Technology, Cross-platform and Cross-device Development, M-commerce, Innovative and intense style for excellent UX.

Indian IT and BPM industry is expected to grow to US\$ 350 billion by 2025 and BPM is expected to account for US\$ 50-55 billion out of the total revenue. Revenue from digital segment is expected to comprise 38 per cent of the forecasted US\$ 350 billion industry revenue by 2025.

The internet industry in India is likely to double to reach US\$ 250 billion by 2020, growing to 7.5 per cent of gross domestic product (GDP). The number of internet users in India is expected to reach 730 million by 2020, supported by fast adoption of digital technology, according to a report by National Association of Software and Services Companies (NASSCOM).

All in all, we expect the current year, FY2018-19, to be one wherein caution is advised and may not be rewarding for random risk taking.

MACRO-ECONOMIC ENVIRONMENT

Global growth accelerated during fiscal 2018, with a synchronized recovery in US, the Euro area, and Japan; even China seemed to be stabilizing. A pervasive sense of investor confidence led to unusually low financial markets volatility, resulting in aggressive pricing of risk assets across bond and emerging markets. Oil prices rose during the year, as OPEC cuts led inventories to be drawn down, while metal prices recovered along with fall in inventories due to stronger demand. Global Inflation, however, has remained persistently below central bank’s targets. However, global central banks are becoming more hawkish, with at least 3 Fed rate hikes in 2018, an ECB rate hike in 2019, and the end of Quantitative Easing by Bank of Japan in 2019 all now within the realm of possibility.

India’s macro fundamentals have remained broadly stable, but with oil prices no longer falling, the tailwinds from falling inflation and a low current account deficit are fading. At the same time, the government has extended the fiscal consolidation programme, raising deficit targets for both FY18 and FY19. Domestic growth appears to be recovering cyclically, and high frequency indicators showing a recovery more pronounced in manufacturing than in services. Both remain drivers of a stronger GDP print, with the CSO estimating FY18 growth at 6.6%, and the RBI forecasting FY19 growth at 7.4%. Capex trends are beginning to improve, as seen in IIP and other high frequency indicators, and as noted by the RBI in its latest monetary policy review. Corporate credit growth is better than the troughs following the demonetization exercise, but this currently appears to be partially due to working capital financing. A reallocation from market instruments, which tightening liquidity has made less attractive, to bank credit is also a factor.

At the first RBI Monetary Policy Committee (MPC) meeting in early April, members did express concerns on upside risks to inflation, but seemed more confident over a lower trajectory, which they projected only slightly above the 4% target well into FY20 (with the caveat that these did not factor in the new Minimum Support Prices formula). The risks to inflation which appeared tilted to the upside – lengthening of fiscal consolidation, potentially higher inflation through the new Minimum Support Prices (MSP) formula and higher customs duty, high household inflation expectations, global central bank tightening, higher commodity prices, etc – will play a role in determining the stance of policy. The MPC chose to continue with its neutral stance so as to nurture the nascent recovery.

CORPORATE GOVERNANCE REPORT

This Report, states the compliance status as per requirements of Companies Act, 2013 and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (“Listing Regulations, 2015”). Given below are the Company’s corporate governance policies and practices for 2017-2018. Onelife Capital Advisors Limited has complied with the statutory and regulatory requirements stipulated in the applicable laws, including Listing Regulations, 2015.

OUR CORPORATE GOVERNANCE PHILOSOPHY

Ethical dealings, transparency, fairness, disclosure and accountability are the main thrust to the working of our Company. Transparency and accountability are the two basic principle of Corporate Governance. Responsible corporate conduct is integral to the way we do our Business. Corporate Governance is an ethically driven business process that is committed to values aimed at enhancing an organization’s wealth generating capacity. This is ensured by taking ethical business decisions and conducting business with a firm commitment to values, while meeting stakeholders’ expectations.

The Board of Directors (‘the Board’) is responsible for and committed to sound principles of Corporate Governance in the Company. The Board plays a crucial role in overseeing how the management serves the short and long term interests of shareholders and other stakeholders. This belief is reflected in our governance practices, under which we strive to maintain an effective, informed and independent Board. We keep our governance practices under continuous review and benchmark ourselves to best practices across the globe.

BOARD OF DIRECTORS

The Board meets atleast once a quarter to review quarterly results and other items on the agenda as well as on the occasion of Annual General Meeting of Shareholders of the Company. Additional Board meetings are convened as and when necessary. In keeping with the commitment of the Management to the principle of integrity and transparency in business operations for good corporate governance, the Company’s policy is to have an appropriate blend of executive and independent Directors to maintain the independence of the Board and to separate the Board functions of governance and management.

a. Composition and Category of the Board of Directors:

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF,
ONELIFE CAPITAL ADVISORS LIMITED

1 Report on the Standalone Ind AS Financial Statements

We have audited the accompanying Standalone Ind AS financial statements of **ONELIFE CAPITAL ADVISORS LIMITED** ("the Company"), which comprise the Balance Sheet as at March 31, 2018, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "standalone Ind AS financial statements").

2 Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the state of affairs (financial position), profit or loss (financial performance including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

3 Auditor's Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view, in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

4 Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the state of affairs (financial position) of the Company as at March 31, 2018, and its profit (financial performance including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

5 Other Matters

- A The comparative financial information of the Company for the year ended March 31, 2017 and the transition date opening balance sheet as at April 01, 2016 included in these Ind AS financial statements, are based on the previously issued statutory financial statements prepared in accordance with the Companies (Accounting Standards) Rules, 2006 audited by us, and the report for the year ended March 31, 2017 and March 31, 2016 dated August 11, 2017 and August 13, 2016 respectively expressed an unmodified opinion on those financial statements, as adjusted for the differences in the accounting principles adopted by the Company on transition to the Ind AS, which have been audited by us.
- B Attention is drawn to Note No. 38 regarding the Scheme of Arrangements approved by the Board of Directors for merger of subsidiary companies mentioned therein with the Company with effect from April 01, 2017. The said Schemes are subject to the approval of Shareholders, Creditors, National Company Law Tribunal and other Regulatory Authorities.

Our opinion is not modified in respect of these matters.

6 Report on Other Legal and Regulatory Requirements

- (A) As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of section 143 (11) of the Act, we give in the Annexure "A", a statement on the matters specified in paragraphs 3 and 4 of the Order.
- (B) As required by Section 143 (3) of the Act based on our audit, we report that:
- a We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

**Annexure “B” to the Independent Auditors’ Report
(Referred to in paragraph 6B(f) under ‘Report on Other Legal and Regulatory
Requirements’ section of our report of even date)
Report on the Internal Financial Controls Over Financial Reporting under Clause (i)
of Sub-section 3 of Section 143 of the Companies Act, 2013 (‘the Act’)**

We have audited the internal financial controls over financial reporting of **ONELIFE CAPITAL ADVISORS LIMITED** (“the Company”) as of March 31, 2018 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Control over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India and the Standards on Auditing as specified under Section 143 (10) of the Act, to the extent applicable to an audit of internal financial controls. Those standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with the generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the criteria for internal control over financial reporting established by the Company considering the essential components of internal controls stated in the Guidance Note.

1 Corporate information

Onelife Capital Advisors Limited (“the Company”) is a listed entity incorporated in India. The Company advises companies on fund raising as well as acquisition financing and structuring the deal to maximize value for all its stakeholders.

The addresses of its registered office and principal place of business are disclosed in the introduction to the annual report.

2 Significant accounting policies**I Basis of preparation****i Compliance with Ind AS**

In accordance with the notification ***dated February 16, 2015***, issued by the Ministry of Corporate Affairs, the Company has adopted Indian Accounting Standards (referred to as “Ind AS”) notified under the Companies (Indian Accounting Standards) Rules, 2015 with effect from April 01, 2016.

The Financial Statements have been prepared in accordance with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015. These are the Company’s first Ind AS Financial Statements. The date of transition to Ind AS is April 01, 2016. Refer Note No. 4 for details of First-time adoption - mandatory exceptions and optional exemptions availed by the Company.

Up to the year ended March 31, 2017, the Company had prepared the Financial Statements under the historical cost convention on accrual basis in accordance with the Generally Accepted Accounting Principles (Previous GAAP) applicable in India and the applicable Accounting Standards as prescribed under the provisions of the Companies Act, 2013 read with the Companies (Accounts) Rules, 2014.

In accordance with Ind AS 101-“First Time adoption of Indian Accounting Standards” (Ind AS 101), the Company has presented a reconciliation of Shareholders’ equity under Previous GAAP and Ind AS as at March 31, 2017, and April 01, 2016 and of the Net Loss as per previous GAAP and Total Comprehensive Loss under Ind AS for the year ended March 31, 2017.

ii Historical Cost Convention

The Financial Statements have been prepared on the historical cost basis except for the followings:

- certain financial assets and liabilities and contingent consideration that is measured at fair value;
- assets held for sale measured at fair value less cost to sell;
- defined benefit plans plan assets measured at fair value; and

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

The Financial Statements are presented in Indian Rupees in Lakhs and all values are rounded to the nearest in two decimal point except where otherwise stated.

II Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- a Expected to be realized or intended to be sold or consumed in normal operating cycle
- b Held primarily for the purpose of trading, or
- c Expected to be realized within twelve months after the reporting year other than for (a) above, or
- d Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting year.

All other assets are classified as non-current.

A liability is current when:

- a It is expected to be settled in normal operating cycle
- b It is held primarily for the purpose of trading
- c It is due to be settled within twelve months after the reporting year other than for (a) above, or
- d There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting year.

All other liabilities are classified as non-current.

III Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

The Company categorizes assets and liabilities measured at fair value into one of three levels as follows:

- **Level 1 — Quoted (unadjusted)**

This hierarchy includes financial instruments measured using quoted prices.

- **Level 2**

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 2 inputs include the following:

- a quoted prices for similar assets or liabilities in active markets.
- b quoted prices for identical or similar assets or liabilities in markets that are not active.
- c inputs other than quoted prices that are observable for the asset or liability.
- d Market – corroborated inputs.

- **Level 3**

They are unobservable inputs for the asset or liability reflecting significant modifications to observable related market data or Company's assumptions about pricing by market participants. Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

IV Non-current assets held for sale

Non-current assets and disposal groups classified as held for sale are measured at the lower of carrying amount and fair value less costs to sell.

V Property Plant and Equipment

Property, Plant and Equipment and intangible assets are not depreciated or amortized once classified as held for sale.

For transition to Ind AS, the Company has elected to continue with the carrying value of its Property, Plant and Equipment (PPE) recognized as of April 01, 2016 (transition date) measured as per the Previous GAAP and used that carrying value as its deemed cost as on the transition date.

PPE are stated at actual cost less accumulated depreciation and impairment loss. Actual cost is inclusive of freight, installation cost, duties, taxes and other incidental expenses for bringing the asset to its working conditions for its intended use (net of recoverable taxes) and any cost directly attributable to bring the asset into the location and condition necessary for it to be capable of operating in the manner intended by the Management. It include professional fees and borrowing costs for qualifying assets.

Significant Parts of an item of PPE (including major inspections) having different useful lives and material value or other factors are accounted for as separate components. All other repairs and maintenance costs are recognized in the statement of profit and loss as incurred.

Depreciation of these PPE commences when the assets are ready for their intended use.

Depreciation is provided for on straight line method on the basis of useful life.

The useful life of property, plant and equipment are as follows:-

Asset Class	Useful Life in years
Vehicles	8
Office Equipments	5
Computers & Printers	3

On assets acquired on lease (including improvements to the leasehold premises), amortization has been provided for on Straight Line Method over the period of lease.

The estimated useful lives and residual values are reviewed on an annual basis and if necessary, changes in estimates are accounted for prospectively.

Depreciation on subsequent expenditure on PPE arising on account of capital improvement or other factors is provided for prospectively over the remaining useful life.

An item of PPE is de-recognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of PPE is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the Statement of Profit and Loss.

VI Intangible Assets

For transition to Ind AS, the Company has elected to continue with the carrying value of intangible assets recognized as of April 01, 2016 (transition date) measured as per the Previous GAAP and use that carrying value as its deemed cost as on the transition date.

Intangible assets are stated at cost (net of recoverable taxes) less accumulated amortization and impairment loss. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition, and other economic factors (such as the stability of the industry, and known technological advances), and the level of maintenance expenditures required to obtain the expected future cash flows from the asset. Amortization methods and useful lives are reviewed periodically including at each financial year end.

Depreciation on subsequent expenditure on intangible assets arising on account of capital improvement or other factors is provided for prospectively over the remaining useful life.

The estimated useful lives and residual values are reviewed on an annual basis and if necessary, changes in estimates are accounted for prospectively.

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, and are recognized in the Statement of Profit and Loss when the asset is derecognized.

VII Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity

i Financial assets

a Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

b Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories based on business model of the entity:

- **Financial Assets at amortized cost**

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

- **Financial Assets at fair value through other comprehensive income (FVTOCI)**

A financial asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

- **Financial Assets and equity instruments at fair value through profit or loss (FVTPL)**

A financial asset which is not classified in any of the above categories are measured at FVTPL.

- **Other Equity Investments**

All other equity investments are measured at fair value, with value changes recognized in Statement of Profit and Loss, except for those equity investments for which the Company has elected to present the value changes in 'Other Comprehensive Income'.

- **Cash and Cash equivalents**

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

c Investments in subsidiaries, Associates and Joint Ventures

The Company has accounted for its subsidiaries, Associates and Joint Ventures at cost

d De-recognition

A financial asset is de-recognized only when

- The Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, it evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is de-recognized.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is de-recognized if the company has not retained control of the financial asset. Where the company retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

e Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL), simplified model approach for measurement and recognition of Impairment loss on Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18.

ECL impairment loss allowance (or reversal) recognized during the year is recognized as income / expense in the statement of Profit and Loss.

ii Financial liabilities

a Classification as debt or equity

Financial liabilities and equity instruments issued by the company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

b Initial recognition and measurement

Financial liabilities are recognized when the company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortized cost unless at initial recognition, they are classified as fair value through profit and loss.

c Subsequent measurement

Financial liabilities are subsequently measured at amortized cost using the effective interest rate method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the statement of profit and loss.

- **Trade and other payables**

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting year. They are recognized initially at their fair value and subsequently measured at amortised cost using the effective interest method.

- **Loans and borrowings**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

d De-recognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

VIII Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use.

Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets.

When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

Impairment losses of continuing operations, including impairment on inventories, are recognized in the statement of profit and loss.

A previously recognized impairment loss (except for goodwill) is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited to the carrying amount of the asset.

IX Revenue recognition

- **Sale of Services**

Revenue from rendering of services is recognised when the performance of agreed contractual task has been completed.

- **Interest income**

Interest income from a financial asset is recognised using effective interest rate method.

X CENVAT / Value Added Tax / Goods and Service Tax

CENVAT / Value Added Tax / Goods and Service Tax benefit is accounted for by reducing the purchase cost of the materials/ fixed assets/services.

XI Leases***As a lessee***

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to statement of profit and loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

As a lessor

Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases.

XII Foreign currency transactions

The functional currency of the Company is Indian Rupees which represents the currency of the economic environment in which it operates.

Transactions in currencies other than the Company's functional currency (foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions. Monetary items denominated in foreign currency at the year end and not covered under forward exchange contracts are translated at the functional currency spot rate of exchange at the reporting date.

Any income or expense on account of exchange difference between the date of transaction and on settlement or on translation is recognized in the profit and loss account as income or expense.

Non monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation difference on such assets and liabilities carried at fair value are reported as part of fair value gain or loss.

XIII Employee Benefits**i Short term employee benefits:-**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the year in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting year and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

ii Long-Term employee benefits

Compensated expenses which are not expected to occur within twelve months after the end of year in which the employee renders the related services are recognized as a liability at the present value of the defined benefit obligation at the balance sheet date.

iii Post-employment obligations**a Defined contribution plans**

The Company is not covered under the Employees State Insurance Act and the Provident Fund Act.

b Defined benefit plans**Gratuity**

The Company provides for gratuity obligations through a defined benefit retirement plan (the 'Gratuity Plan') covering all employees. The Gratuity Plan provides a lump sum payment to vested employees at retirement or termination of employment based on the respective employee salary and years of employment with the Company. The Company provides for the Gratuity Plan based on actuarial valuations in accordance with Indian Accounting Standard 19 (revised), "Employee Benefits

“ The present value of obligation under gratuity is determined based on actuarial valuation using Project Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

Gratuity is recognized based on the present value of defined benefit obligation which is computed using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting year. These are accounted either as current employee cost or included in cost of assets as permitted.

Leave Encashment

As per the Company’s policy, leave earned during the year do not carry forward, they lapse if the current period’s entitlement is not used in full and do not entitle employees to a cash payment for unused entitlement during service.

Re-measurement of defined benefit plans in respect of post-employment are charged to the Other Comprehensive Income.

Termination benefits

Termination benefits are recognized as an expense in the year in which they are incurred.

XIV Borrowing Costs

Borrowing costs that are directly attributable to the acquisition, construction or production of qualifying asset are capitalized as part of cost of such asset. Other borrowing costs are recognized as an expense in the year in which they are incurred.

Borrowing costs consists of interest and other costs that an entity incurs in connection with the borrowing of funds.

XV Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting year, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

Contingent assets are disclosed in the Financial Statements by way of notes to accounts when an inflow of economic benefits is probable.

Contingent liabilities are disclosed in the Financial Statements by way of notes to accounts, unless possibility of an outflow of resources embodying economic benefit is remote.

XVI Cash Flow Statement

Cash flows are reported using the indirect method. The cash flows from operating, investing and financing activities of the Company are segregated.

XVII Earnings per share

Basic earnings per share are computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit after tax by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

XVIII Income taxes

The income tax expense or credit for the year is the tax payable on the current year’s taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses, if any.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting year. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the Financial Statements. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting year and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

The carrying amount of deferred tax assets are reviewed at the end of each reporting year and are recognized only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

XIX Critical accounting estimates and judgments

The preparation of restated financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. This note provides an overview of the areas that involved a higher degree of judgment or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgments is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

The areas involving critical estimates or judgments are:

- i Useful life of tangible asset refer Note No. 2 (V)
- ii Useful life of intangible asset refer Note No. 2 (VI)
- iii Impairment of financial assets refer Note No. 2 (VII)(i)(e)
- iv Impairment of non – financial assets refer Note No. 2 (VIII)
- v Provisions, Contingent Liabilities and Contingent Assets refer Note No. 2 (XV)

Estimates and judgments are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

3 Recent Accounting Pronouncements

Application of new and revised Ind ASs

Ministry of Corporate Affairs (“MCA”) through Companies (Indian Accounting Standards) Amendment Rules, 2018 has notified the following new and amendments to Ind ASs which the Company has not applied as they are effective for annual periods beginning on or after April 01, 2018:

Ind AS 115 Revenue from Contracts with Customers

Ind AS 21 The Effect of Changes in Foreign Exchange Rates

The Company is evaluating the impact of these pronouncements on the financial statements.

Ind AS 115 – Revenue from Contracts with Customers

On March 28, 2018, Ministry of Corporate Affairs (“MCA”) has notified the Ind AS 115, Revenue from Contract with Customers. The core principle of the new standard is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity’s contracts with customers.

The standard permits two possible methods of transition:

- Retrospective approach – Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8- Accounting Policies, Changes in Accounting Estimates and Errors.
- Retrospectively with cumulative effect of initially applying the standard recognized at the date of initial application (Cumulative catch-up approach). The effective date for adoption of Ind AS 115 is financial periods beginning on or after April 01, 2018.

The Company is in the process of making an assessment of the impact of Ind AS 115 upon initial application.

Appendix B to Ind AS 21, Foreign currency transactions and advance consideration

The amendment clarifies on the accounting of transactions that include the receipt or payment of advance consideration in a foreign currency. The appendix explains that the date of the transaction, for the purpose of determining the exchange rate, is the date of initial recognition of the non-monetary prepayment asset or deferred income liability. If there are multiple payments or receipts in advance, a date of transaction is established for each payment or receipt. The Company is evaluating the impact of this amendment on its financial statements.

4 Overall Principles:

The Company has prepared the opening balance sheet as per Ind AS as of April 01, 2016 (the transition date) by recognizing all assets and liabilities whose recognition is required by Ind AS, not recognizing items of assets or liabilities which are not permitted by Ind AS, by reclassifying certain items from Previous GAAP to Ind AS as required under the Ind AS, and applying Ind AS in the measurement of recognized assets and liabilities. However, this principle is subject to certain mandatory exceptions and certain optional exemptions availed by the Company as detailed below:

First time adoption of Ind AS

The accounting policies set out in Note No. 2 have been applied in preparing the financial statements for the year ended March 31, 2018 and March 31, 2017.

Exemptions and exceptions availed

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS as at the transition date, i.e. April 01, 2016.

I Ind AS optional exemptions

i Deemed cost

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognized in the financial statements as at the date of transition to Ind AS, measured as per the Previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets and Investment Property covered by Ind AS 40 Investment Properties.

Accordingly, the Company has elected to measure all of its property, plant and equipment, intangible assets and investment property at their Previous GAAP carrying value.

ii Designation of previously recognized financial instruments

Ind AS 101 allows an entity to designate investments in equity instruments at FVOCI on the basis of the facts and circumstances at the date of transition to Ind AS.

The Company has elected to apply this exemption for its investment in equity instruments.

iii Leases

Appendix C to Ind AS 17 requires an entity to assess whether a contract or arrangement contains a lease. In accordance with Ind AS 17, this assessment should be carried out at the inception of the contract or arrangement. Ind AS 101 provides an option to make this assessment on the basis of facts and circumstances existing at the date of transition to Ind AS, except where the effect is expected to be not material.

The Company has elected to apply this exemption for such contracts / arrangements.

iv Impairment of financial assets

The Company has applied the impairment requirements of Ind AS 109 retrospectively; however, as permitted by Ind AS 101, it has used reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments were initially recognized in order to compare it with the credit risk at the transition date. Further, the Company has not undertaken an exhaustive search for information when determining, at the date of transition to Ind ASs, whether there have been significant increases in credit risk since initial recognition, as permitted by Ind AS 101.

v Investments in subsidiaries, Associates and Joint Ventures

The Company has elected to measure investment in subsidiaries, Associates and Joint Ventures at cost.

II Ind AS mandatory exceptions**i Estimates**

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made in for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

Ind AS estimates as at April 01, 2016 are consistent with the estimates as at the same date made in conformity with previous GAAP.

ii Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification and measurement of financial assets (investment in debt instruments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS. Accordingly, classification and measurement of financial asset has been based on the facts and circumstances that exist at the date of transition to Ind AS.

Purple India Holding Limited had signed a Share Purchase Agreement to purchase majority equity shares of Destimony Securities Private Limited

and Sarsan Securities Pvt. Ltd., subject to regulatory approvals. These companies together with their subsidiaries are in the business of stock broking, commodity broking, wealth management, third party financial product sales and a Non-Banking Financial Company. As some approvals were taking time beyond the agreement timelines entered with Destimoney Enterprises Limited, Mauritius, the shares of Dealmoney Securities Private Limited (formerly known as Destimoney Securities Pvt. Ltd.) have been acquired by associated entities. The Board has at its meeting held on August 11, 2017 also approved acquisition of Dealmoney Securities Private. Limited's shareholding and to seek appropriate regulatory approvals as may be required.

38 Scheme of Arrangements

The Scheme of Arrangement earlier approved by the Board on November 14, 2017 has also been discussed and the Board has decided in its meeting held on February 14, 2018 to revise the Scheme to structure it into two separate parts to bring the broking business into one company and to simplify the holding structure at the same time. Accordingly, the Board has approved the following schemes:

- Merger of Dealmoney Securities Private Limited with Dealmoney Commodities Private Limited, a step-down subsidiary, w.e.f. April 01, 2017 (Merger – 1) and to have one operating Company in the group; and
- Merger of wholly owned subsidiaries namely Onelife Gas Energy & Infrastructure Limited, Goodyield Fertilizers and Pesticides Private Limited, Leadline Software and Trading Private Limited, Onelife Ecopower and Engineering Ltd., Dealmoney Distribution and Advisory Services Private Limited, Goodyield Farming Limited and Purple India Holdings Limited, the subsidiaries, with Onelife Capital Advisors Limited w.e.f. April 01, 2017 (Merger – 2) and to have one operating Company for the group.

The said Schemes are subject to the approval of Shareholders, Creditors, National Company Law Tribunal and Regulatory Authorities (Various Authorities) as may be necessary.

- During the year, the Company has extended the lease agreement for premises for a further period of 3 years. Accordingly the balance of the unamortized leasehold improvements will be amortized over the period of 4 years including current year. Consequently, the Company has reversed the excess amortization expenses charged to Statement of Profit and Loss in the earlier quarters aggregating to ₹ 76.75 Lakhs (net) in the quarter ended March 31, 2018.
- In view of losses and unabsorbed depreciation, in the opinion of the Management considering the grounds of prudence, deferred tax assets is recognized to the extent of deferred tax liabilities and balance deferred tax assets have not been recognized in the books of account.

42.3 Financial risk management objectives and policies

The Company's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations and to provide guarantees to support its operations. The Company's principal financial assets include trade and other receivables, and cash and cash equivalents that derive directly from its operations.

The Company's business activities expose it to a variety of financial risks, namely liquidity risk, market risks and credit risk. The Company's senior management has the overall responsibility for the establishment and oversight of the Company's risk management framework. The top management is responsible for developing and monitoring the Company's risk management policies. The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

42.3.1 Management of Liquidity Risk

Liquidity risk is the risk that the Company will face in meeting its obligations associated with its financial liabilities. The Company's approach to managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due without incurring unacceptable losses. In doing this, management considers both normal and stressed conditions. The following table shows the maturity analysis of the Company's financial liabilities based on contractually agreed undiscounted cash flows as at the Balance Sheet date.

42.3.2 Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk. Financial instruments affected by market risk include loans and borrowings, deposits, FVTOCI investments.

The sensitivity analyses in the following sections relate to the position as at March 31, 2018 and March 31, 2017.

Potential impact of risk	Management Policy	Sensitivity to risk
1. Price Risk		
The company is not exposed to any specific price risk.	Not Applicable	Not Applicable
2. Interest Rate Risk		
Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Group's long-term debt obligations with floating interest rates.	In order to manage its interest rate risk the Company diversifies its portfolio in accordance with the limits set by the risk management policies.	As an estimation of the approximate impact of the interest rate risk, with respect to financial instruments, the Group has calculated the impact of a 0.25% change in interest rates. A 0.25% decrease in interest rates would have led to approximately an additional ₹ 2.82 Lakhs gain for year ended March 31, 2018 (₹ 0.21 Lakhs gain for year ended March 31 2017) in Interest expenses. A 0.25% increase in interest rates would have led to an equal but opposite effect.

42.3.3 Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The company is exposed to credit risk from its operating activities (primarily trade receivables) and from the deposits with banks and financial institutions and other financial instruments.

Trade Receivables

Customer credit risk is managed by each business unit subject to the Company established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit rating scorecard and individual credit limits are defined in accordance with this assessment. Outstanding customer receivables are regularly monitored. at March 31, 2018.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on exchange losses historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Company does not hold collateral as security. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets.

43 Capital management

Capital includes issued equity capital and share premium and all other equity reserves attributable to the equity holders. The primary objective of the Company's capital management is to maximize the shareholder value.

Gearing Ratio (A) / (C)	18.40%	2.09%	1.54%

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, interest bearing loans and borrowings, trade and other payables, less cash and cash equivalents, excluding discontinued operations. The company monitors capital using gearing ratio, which is total debt divided by total capital plus debt.

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current year.

No changes were made in the objectives, policies or processes for managing capital during the years ended March 31, 2018, March 31, 2017 and March 31, 2016.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF,

ONELIFE CAPITAL ADVISORS LIMITED**1 Report on the Consolidated Ind AS Financial Statements**

We have audited the accompanying consolidated Ind AS financial statements of **ONELIFE CAPITAL ADVISORS LIMITED** ("the Holding Company") and its subsidiary companies listed in Annexure "A" (collectively referred to as "the Group"), which comprise the Consolidated Balance Sheet as at March 31, 2018, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated Ind AS financial statements").

2 Management's Responsibility for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these Consolidated Ind AS financial statements in terms of the requirement of the Companies Act, 2013 ("the Act") that give a true and fair view of the consolidated state of affairs (financial position), consolidated profit or loss (financial performance including other comprehensive income), consolidated cash flows and consolidated changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act. The Holding Company's Board of Directors is also responsible for ensuring accuracy of records including financial information considered necessary for the preparation of Consolidated Ind AS Financial Statements.

The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Board of Directors of the Holding Company, as aforesaid.

3 Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated Ind AS financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit of the consolidated Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated Ind AS financial statements that give a true and fair view, in order to design audit procedures that are appropriate in the circumstances.

An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated Ind AS financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in paragraph (6) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

(Referred to in paragraph 7(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (‘the Act’)

We have audited the internal financial controls over financial reporting of Onelife Capital Advisors Limited (‘the Holding Company’ or ‘the Company’) and its subsidiary companies as at March 31, 2018 in conjunction with our audit of the consolidated Ind AS financial statements of the Holding Company as of and for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its subsidiary companies which are incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Holding Company’s and its subsidiary companies’, which are incorporated in India, internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on audit of Internal Financial Controls over Financial Reporting (‘the Guidance Note’) issued by the ICAI and the Standards on Auditing as specified under Section 143 (10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those standards and the Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors’ judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiary companies incorporated in India, in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

.....

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us and based on consideration of reporting of the other auditors as mentioned in the Other Matters paragraph, the Holding Company and its subsidiary companies which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the criteria for internal control over financial reporting established by the respective companies considering the essential components of internal control stated in the Guidance Note, issued by the ICAI.

Other Matters

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to separate financial statements of eight subsidiary companies, which are companies incorporated in India is based on the corresponding reports of the auditors of such companies incorporated in India. The financial statements of one subsidiary referred to in the Basis for Qualified Opinion paragraph of the Independent Auditors' Report on the Consolidated Ind AS Financial Statements of the Company of even date, are unaudited and hence the report of the auditors of that subsidiary company is not available. Our opinion is not modified in respect of this matter.

1 Corporate information

Onelife Capital Advisors Limited (“the Holding Company”) is a listed entity incorporated in India. The Holding Company and its subsidiaries are engaged in the business of advisory services, commodity broking and other related ancillary services.

The Holding Company, its subsidiaries, associate and joint venture together referred as “the Company” or “the Group”.

The addresses of its registered office and principal place of business are disclosed in the introduction to the annual report.

2 Significant accounting policies**I Basis of preparation****i Compliance with Ind AS**

In accordance with the notification **dated February 16, 2015**, issued by the Ministry of Corporate Affairs, the Company has adopted Indian Accounting Standards (referred to as “Ind AS”) notified under the Companies (Indian Accounting Standards) Rules, 2015 with effect from April 01, 2016.

The Consolidated Financial Statements have been prepared in accordance with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015. These are the Company’s first Consolidated Ind AS Financial Statements. The date of transition to Ind AS is April 01, 2016. Refer Note No. 4 for details of First-time adoption - mandatory exceptions and optional exemptions availed by the Company.

Up to the year ended March 31, 2017, the Company had prepared the Consolidated Financial Statements under the historical cost convention on accrual basis in accordance with the Generally Accepted Accounting Principles (Previous GAAP) applicable in India and the applicable Accounting Standards as prescribed under the provisions of the Companies Act, 2013 read with the Companies (Accounts) Rules, 2014.

In accordance with Ind AS 101-“First Time adoption of Indian Accounting Standards” (Ind AS 101), the Company has presented a reconciliation of Shareholders’ equity under Previous GAAP and Ind AS as at March 31, 2017, and April 01, 2016 and of the Net Loss as per previous GAAP and Total Comprehensive Loss under Ind AS for the year ended March 31, 2017.

ii Historical Cost Convention

The Consolidated Financial Statements have been prepared on the historical cost basis except for the followings:

- a certain financial assets and liabilities and contingent consideration that is measured at fair value;
- b assets held for sale measured at fair value less cost to sell;
- c defined benefit plans assets measured at fair value; and

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

The Consolidated Financial Statements are presented in Indian Rupees in Lakhs and all values are rounded to the nearest in two decimal point except where otherwise stated.

iii Principles of Consolidation

The consolidated financial statements relate to Onelife Capital Advisors Limited (“the Company”) and its subsidiary companies, associates and joint ventures. The consolidated financial statements have been prepared on the following basis:

- a The financial statements of the Company and its subsidiaries are combined on a line by line basis by adding together like items of assets, liabilities, equity, incomes, expenses and cash flows, after fully eliminating intra-group balances and intra-group transactions.
- b Profits or losses resulting from intra-group transactions that are recognised in assets, such as inventory and property, plant & equipment, are eliminated in full.
- c In case of foreign subsidiaries, revenue items are consolidated at the average rate prevailing during the year. All assets and liabilities are converted at rates prevailing at the end of the year. Any exchange difference arising on consolidation is recognized in the Foreign Currency Translation Reserve.

- d Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary.
- e The difference between the proceeds from disposal of investment in subsidiaries and the carrying amount of its assets less liabilities as on the date of disposal is recognized in the Consolidated Statement of Profit and Loss being the profit or loss on disposal of investment in subsidiary.
- f Non Controlling Interest's share of profit / loss of consolidated subsidiaries for the year is identified and adjusted against the income of the group in order to arrive at the net income attributable to shareholders of the Company.
- g Non Controlling Interest's share of net assets of consolidated subsidiaries is identified and presented in the Consolidated Balance Sheet separate from liabilities and the equity of the Company's shareholders.
- h Investment in Associates and Joint Ventures has been accounted under the equity method as per Ind AS 28 - Investments in Associates and Joint Ventures.
- I The Company accounts for its share of post acquisition changes in net assets of associates and joint ventures, after eliminating unrealized profits and losses resulting from transactions between the Company and its associates to the extent of its share, through its Consolidated Statement of Profit and Loss, to the extent such change is attributable to the associates' Statement of Profit and Loss and through its reserves for the balance based on available information.

II Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- a Expected to be realized or intended to be sold or consumed in normal operating cycle
- b Held primarily for the purpose of trading, or
- c Expected to be realized within twelve months after the reporting year other than for (a) above, or
- d Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting year.

All other assets are classified as non-current.

A liability is current when:

- a It is expected to be settled in normal operating cycle
- b It is held primarily for the purpose of trading
- c It is due to be settled within twelve months after the reporting year other than for (a) above, or
- d There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting year.

All other liabilities are classified as non-current.

III Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

The Company categorizes assets and liabilities measured at fair value into one of three levels as follows:

i Level 1 — Quoted (unadjusted)

This hierarchy includes financial instruments measured using quoted prices.

ii Level 2

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 2 inputs include the following:

- a quoted prices for similar assets or liabilities in active markets.
- b quoted prices for identical or similar assets or liabilities in markets that are not active.
- c inputs other than quoted prices that are observable for the asset or liability.
- d Market – corroborated inputs.

iii Level 3

They are unobservable inputs for the asset or liability reflecting significant modifications to observable related market data or Company’s assumptions about pricing by market participants. Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

IV Non-current assets held for sale

Non-current assets and disposal groups classified as held for sale are measured at the lower of carrying amount and fair value less costs to sell.

V (i) Property Plant and Equipment

Property, Plant and Equipment and intangible assets are not depreciated or amortized once classified as held for sale.

For transition to Ind AS, the Company has elected to continue with the carrying value of its Property, Plant and Equipment (PPE) recognized as of April 01, 2016 (transition date) measured as per the Previous GAAP and used that carrying value as its deemed cost as on the transition date.

PPE are stated at actual cost less accumulated depreciation and impairment loss. Actual cost is inclusive of freight, installation cost, duties, taxes and other incidental expenses for bringing the asset to its working conditions for its intended use (net of recoverable taxes) and any cost directly attributable to bring the asset into the location and condition necessary for it to be capable of operating in the manner intended by the Management. It include professional fees and borrowing costs for qualifying assets.

Significant Parts of an item of PPE (including major inspections) having different useful lives and material value or other factors are accounted for as separate components. All other repairs and maintenance costs are recognized in the statement of profit and loss as incurred.

Depreciation of these PPE commences when the assets are ready for their intended use.

Depreciation is provided for on straight line method on the basis of useful life.

The useful life of property, plant and equipment are as follows:-

Asset Class	Useful Life in years
Vehicles	8
Office Equipments	5
Computers & Printers	3
Air Conditioners	5
Furniture & Fixtures	10

On assets acquired on lease (including improvements to the leasehold premises), amortization has been provided for on Straight Line Method over the period of lease.

The estimated useful lives and residual values are reviewed on an annual basis and if necessary, changes in estimates are accounted for prospectively.

Depreciation on subsequent expenditure on PPE arising on account of capital improvement or other factors is provided for prospectively over the remaining useful life.

An item of PPE is de-recognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of PPE is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the Statement of Profit and Loss.

V (ii) Investment Property

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs. Subsequent expenditure is capitalized to the asset’s carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred.

VI Intangible Assets

For transition to Ind AS, the Company has elected to continue with the carrying value of intangible assets recognized as of April 01, 2016 (transition date) measured as per the Previous GAAP and use that carrying value as its deemed cost as on the transition date.

Intangible assets are stated at cost (net of recoverable taxes) less accumulated amortization and impairment loss. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition, and other economic factors (such as the stability of the industry, and known technological advances), and the level of maintenance expenditures required to obtain the expected future cash flows from the asset. Amortization methods and useful lives are reviewed periodically including at each financial year end.

Depreciation on subsequent expenditure on intangible assets arising on account of capital improvement or other factors is provided for prospectively over the remaining useful life.

The estimated useful lives and residual values are reviewed on an annual basis and if necessary, changes in estimates are accounted for prospectively.

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, and are recognized in the Statement of Profit and Loss when the asset is derecognized.

VII Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity

i Financial assets

a Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

b Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories based on business model of the entity:

- **Financial Assets at amortized cost**

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

- **Financial Assets at fair value through other comprehensive income (FVTOCI)**

A financial asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

- **Financial Assets and equity instruments at fair value through profit or loss (FVTPL)**

A financial asset which is not classified in any of the above categories are measured at FVTPL.

- **Other Equity Investments**

All other equity investments are measured at fair value, with value changes recognized in Statement of Profit and Loss, except for those equity investments for which the Company has elected to present the value changes in 'Other Comprehensive Income'.

- **Cash and Cash equivalents**

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

c Investments in subsidiaries, Associates and Joint Ventures

The Company has accounted for its subsidiaries, Associates and Joint Ventures at cost

d De-recognition

A financial asset is de-recognized only when

- The Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, it evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is de-recognized.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is de-recognized if the company has not retained control of the financial asset. Where the company retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

e Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL), simplified model approach for measurement and recognition of Impairment loss on Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18.

ECL impairment loss allowance (or reversal) recognized during the year is recognized as income / expense in the statement of Profit and Loss.

ii Financial liabilities**a Classification as debt or equity**

Financial liabilities and equity instruments issued by the company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

b Initial recognition and measurement

Financial liabilities are recognized when the company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortized cost unless at initial recognition, they are classified as fair value through profit and loss.

c Subsequent measurement

Financial liabilities are subsequently measured at amortized cost using the effective interest rate method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the statement of profit and loss.

- **Trade and other payables**

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting year. They are recognized initially at their fair value and subsequently measured at amortised cost using the effective interest method.

- **Loans and borrowings**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

d De-recognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

VIII Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use.

Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets.

When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

Impairment losses of continuing operations, including impairment on inventories, are recognized in the statement of profit and loss.

A previously recognized impairment loss (except for goodwill) is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited to the carrying amount of the asset.

IX Revenue recognition

- **Sale of Goods**

Revenue from the sale of goods is recognized when the significant risks and rewards of ownership of the goods have passed to the buyer, usually on delivery of the goods. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates.

- **Sale of Services**

- a) Revenue from advisory services is recognized (net of service tax / GST) when the performance of agreed contractual task has been completed.
- b) Brokerage Income in relation to commodity broking activity is recognized (net of service tax / GST and CTT, wherever applicable) on the date of trade by the client
- c) Other operating income is recognized on accrual basis (net of service tax / GST).

- **Interest income**

Interest income from a financial asset is recognised using effective interest rate method.

X CENVAT / Value Added Tax / Goods and Service Tax

CENVAT / Value Added Tax / Goods and Service Tax benefit is accounted for by reducing the purchase cost of the materials/ fixed assets/services.

XI Leases***As a lessee***

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to statement of profit and loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

As a lessor

Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases.

XII Foreign currency transactions

The functional currency of the Company is Indian Rupees which represents the currency of the economic environment in which it operates.

Transactions in currencies other than the Company's functional currency (foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions. Monetary items denominated in foreign currency at the year end and not covered under forward exchange contracts are translated at the functional currency spot rate of exchange at the reporting date.

Any income or expense on account of exchange difference between the date of transaction and on settlement or on translation is recognized in the profit and loss account as income or expense.

Non monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation difference on such assets and liabilities carried at fair value are reported as part of fair value gain or loss.

XIII Employee Benefits**i Short term employee benefits:-**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the year in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting year and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

ii Long-Term employee benefits

Compensated expenses which are not expected to occur within twelve months after the end of year in which the employee renders the related services are recognized as a liability at the present value of the defined benefit obligation at the balance sheet date.

iii Post-employment obligations

a Defined contribution plans

The Company is not covered under the Employees State Insurance Act and the Provident Fund Act.

b Defined benefit plans

Gratuity

The Company provides for gratuity obligations through a defined benefit retirement plan (the 'Gratuity Plan') covering all employees. The Gratuity Plan provides a lump sum payment to vested employees at retirement or termination of employment based on the respective employee salary and years of employment with the Company. The Company provides for the Gratuity Plan based on actuarial valuations in accordance with Indian Accounting Standard 19 (revised), "Employee Benefits ". The present value of obligation under gratuity is determined based on actuarial valuation using Project Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

Gratuity is recognized based on the present value of defined benefit obligation which is computed using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting year. These are accounted either as current employee cost or included in cost of assets as permitted.

Leave Encashment

As per the Group's policy, except in case of one subsidiary, leave earned during the year do not carry forward, they lapse if the current period's entitlement is not used in full and do not entitle employees to a cash payment for unused entitlement during service. In case of one subsidiary, Destimoney Commodities Private Limited, the Company provides for its compensated absences, which is a defined benefit scheme, based on actuarial valuation at the balance sheet date carried out by an independent actuary using the Projected Unit Credit Method.

Re-measurement of defined benefit plans in respect of post-employment are charged to the Other Comprehensive Income.

Termination benefits

Termination benefits are recognized as an expense in the year in which they are incurred.

XIV Borrowing Costs

Borrowing costs that are directly attributable to the acquisition, construction or production of qualifying asset are capitalized as part of cost of such asset. Other borrowing costs are recognized as an expense in the year in which they are incurred.

Borrowing costs consists of interest and other costs that an entity incurs in connection with the borrowing of funds.

XV Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting year, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

Contingent assets are disclosed in the Financial Statements by way of notes to accounts when an inflow of economic benefits is probable.

Contingent liabilities are disclosed in the Financial Statements by way of notes to accounts, unless possibility of an outflow of resources embodying economic benefit is remote.

XVI Cash Flow Statement

Cash flows are reported using the indirect method. The cash flows from operating, investing and financing activities of the Company are segregated.

XVII Earnings per share

Basic earnings per share are computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit after tax by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

XVIII Income taxes

The income tax expense or credit for the year is the tax payable on the current year's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses, if any.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting year. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the Financial Statements. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting year and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

The carrying amount of deferred tax assets are reviewed at the end of each reporting year and are recognized only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

XIX Critical accounting estimates and judgments

The preparation of restated financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. This note provides an overview of the areas that involved a higher degree of judgment or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgments is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

The areas involving critical estimates or judgments are:

- i Useful life of tangible asset refer Note No. 2 (V)
- ii Useful life of intangible asset refer Note No. 2 (VI)
- iii Impairment of financial assets refer Note No. 2 (VII)(i)(e)
- iv Impairment of non – financial assets refer Note No. 2 (VIII)
- v Provisions, Contingent Liabilities and Contingent Assets refer Note No. 2 (XV)

Estimates and judgments are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

3 Recent Accounting Pronouncements**Application of new and revised Ind ASs**

Ministry of Corporate Affairs (“MCA”) through Companies (Indian Accounting Standards) Amendment Rules, 2018 has notified the following new and amendments to Ind ASs which the Company has not applied as they are effective for annual periods beginning on or after April 01, 2018:

Ind AS 115 Revenue from Contracts with Customers

Ind AS 21 The Effect of Changes in Foreign Exchange Rates

The Company is evaluating the impact of these pronouncements on the financial statements.

Ind AS 115 – Revenue from Contracts with Customers

On March 28, 2018, Ministry of Corporate Affairs (“MCA”) has notified the Ind AS 115, Revenue from Contract with Customers. The core principle of the new standard is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity’s contracts with customers.

The standard permits two possible methods of transition:

- Retrospective approach – Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8- Accounting Policies, Changes in Accounting Estimates and Errors.
- Retrospectively with cumulative effect of initially applying the standard recognized at the date of initial application (Cumulative catch-up approach). The effective date for adoption of Ind AS 115 is financial periods beginning on or after April 01, 2018.

The Company is in the process of making an assessment of the impact of Ind AS 115 upon initial application.

Appendix B to Ind AS 21, Foreign currency transactions and advance consideration

The amendment clarifies on the accounting of transactions that include the receipt or payment of advance consideration in a foreign currency. The appendix explains that the date of the transaction, for the purpose of determining the exchange rate, is the date of initial recognition of the non-monetary prepayment asset or deferred income liability. If there are multiple payments or receipts in advance, a date of transaction is established for each payment or receipt. The Company is evaluating the impact of this amendment on its financial statements.

4 Overall Principles

The Company has prepared the opening balance sheet as per Ind AS as of April 01, 2016 (the transition date) by recognizing all assets and liabilities whose recognition is required by Ind AS, not recognizing items of assets or liabilities which are not permitted by Ind AS, by reclassifying certain items from Previous GAAP to Ind AS as required under the Ind AS, and applying Ind AS in the measurement of recognized assets and liabilities. However, this principle is subject to certain mandatory exceptions and certain optional exemptions availed by the Company as detailed below:

First time adoption of Ind AS

The accounting policies set out in Note No. 2 have been applied in preparing the financial statements for the year ended March 31, 2018 and March 31, 2017.

Exemptions and exceptions availed

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS as at the transition date, i.e. April 01, 2016.

I Ind AS optional exemptions**i Deemed cost**

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognized in the financial statements as at the date of transition to Ind AS, measured as per the Previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets and Investment Property covered by Ind AS 40 Investment Properties.

Accordingly, the Company has elected to measure all of its property, plant and equipment, intangible assets and investment property at their Previous GAAP carrying value.

ii Designation of previously recognized financial instruments

Ind AS 101 allows an entity to designate investments in equity instruments at FVOCI on the basis of the facts and circumstances at the date of transition to Ind AS.

The Company has elected to apply this exemption for its investment in equity instruments.

iii Leases

Appendix C to Ind AS 17 requires an entity to assess whether a contract or arrangement contains a lease. In accordance with Ind AS 17, this assessment should be carried out at the inception of the contract or arrangement. Ind AS 101 provides an option to make this assessment on the basis of facts and circumstances existing at the date of transition to Ind AS, except where the effect is expected to be not material.

The Company has elected to apply this exemption for such contracts / arrangements.

iv Impairment of financial assets

The Company has applied the impairment requirements of Ind AS 109 retrospectively; however, as permitted by Ind AS 101, it has used reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments were initially recognized in order to compare it with the credit risk at the transition date. Further, the Company has not undertaken an exhaustive search for information when determining, at the date of transition to Ind ASs, whether there have been significant increases in credit risk since initial recognition, as permitted by Ind AS 101.

v Investments in subsidiaries, Associates and Joint Ventures

The Company has elected to measure investment in subsidiaries, Associates and Joint Ventures at cost.

II Ind AS mandatory exceptions**i Estimates**

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made in for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

Ind AS estimates as at April 01, 2016 are consistent with the estimates as at the same date made in conformity with previous GAAP.

ii Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification and measurement of financial assets (investment in debt instruments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS. Accordingly, classification and measurement of financial asset has been based on the facts and circumstances that exist at the date of transition to Ind AS.

46.3 Financial risk management objectives and policies

The Company's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations and to provide guarantees to support its operations. The Company's principal financial assets include trade and other receivables, and cash and cash equivalents that derive directly from its operations.

The Company's business activities expose it to a variety of financial risks, namely liquidity risk, market risks and credit risk. The Company's senior management has the overall responsibility for the establishment and oversight of the Company's risk management framework. The top management is responsible for developing and monitoring the Company's risk management policies. The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

46.3.1 Management of Liquidity Risk

Liquidity risk is the risk that the Company will face in meeting its obligations associated with its financial liabilities. The Company's approach to managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due without incurring unacceptable losses. In doing this, management considers both normal and stressed conditions. The following table shows the maturity analysis of the Company's financial liabilities based on contractually agreed undiscounted cash flows as at the Balance Sheet date.

46.3.2 Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk. Financial instruments affected by market risk include loans and borrowings, deposits, FVTOCI investments.

The sensitivity analyses in the following sections relate to the position as at March 31, 2018 and March 31, 2017.

Potential impact of risk	Management Policy	Sensitivity to risk
1. Price Risk		
The company is not exposed to any specific price risk.	Not Applicable	Not Applicable
2. Interest Rate Risk		
Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Group's long-term debt obligations with floating interest rates.	In order to manage its interest rate risk the Company diversifies its portfolio in accordance with the limits set by the risk management policies.	As an estimation of the approximate impact of the interest rate risk, with respect to financial instruments, the Group has calculated the impact of a 0.25% change in interest rates. A 0.25% decrease in interest rates would have led to approximately an additional ₹. 2.82 Lakhs gain for year ended March 31, 2018 (₹. 0.21 Lakhs gain for year ended March 31 2017) in Interest expenses. A 0.25% increase in interest rates would have led to an equal but opposite effect.

46.3.3 Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The company is exposed to credit risk from its operating activities (primarily trade receivables) and from the deposits with banks and financial institutions and other financial instruments.

Trade Receivables

Customer credit risk is managed by each business unit subject to the Company established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit rating scorecard and individual credit limits are defined in accordance with this assessment. Outstanding customer receivables are regularly monitored. at March 31, 2018.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on exchange losses historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 12. The Company does not hold collateral as security. The

Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets.

47 Capital management

Capital includes issued equity capital and share premium and all other equity reserves attributable to the equity holders. The primary objective of the Company's capital management is to maximize the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, interest bearing loans and borrowings, trade and other payables, less cash and cash equivalents, excluding discontinued operations. The company monitors capital using gearing ratio, which is total debt divided by total capital plus debt.

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current year.

No changes were made in the objectives, policies or processes for managing capital during the years ended March 31, 2018, March 31, 2017 and March 31, 2016.
