Chairman's Letter

With a network of more than 1 million schools, 700 universities and 35,000 colleges, Indian education system is one of the largest in the world.

However, concern for not having quality education has become a key theme throughout the education discussions. From the employers' perspective, India is facing serious headwinds with not only the issues of low employment but also a significant gap in employability of passing out graduates.

Career Point is unique in its philosophy of education and in its beliefs for the institutions. We promote a career oriented education while guiding our students on the way to achieve all success in their life. We pride ourselves on the quality of the education we provide.

Career Point institutions offer a distinctive way of education where expertise and experience meet for excellence. Our 'Students First' approach provides a caring and stimulating environment with personalized, balanced and holistic education to young minds.

We, at Career Point, build more collaborative, strategic and meaningful partnerships between our institutions and industries to establish pathways that lead to successful careers. Though we are 'student focused'; however we are 'industry facing'.

For us the partnership is not a buzzword; we have a more strategic engagement functional model. We design our curriculum, set course delivery and take leads based on corporate needs. We have the industry partners to help us in making sure that the outcome of Career Point institutions is always 'industry ready'.

Career Point not only teaches its students the technical skills which are related to their course programs, but also the soft skills which are critical to perform their jobs at workplace. Career Point students see their education more relevant because we define our success with their learning, employment (including self-employment) and the career prospects rather than just a graduation or a degree.

We consider our institutions as a pathway, not a destination and focus on providing holistic education to our students. We also want Career Point students to have passion for learning and a growth mind set which is developed by offering them a joy in learning and the application of their learning. The approach is always to make them aware that how they can contribute to the society at large.

The year in review

During the year 2017-18, our endeavors to diversify business divisions and service delivery channels have been perfectly in-line with our strategic plan to transform company to a complete educational service

provider. Larger growth in formal education and the coaching services delivery through school association network ascertained sustainability to the businesses and provided new avenues for a long-term growth.

Other growing verticals i.e. e-Learning, publications and skill development are also accounted in other wholly owned subsidiaries. The improved financials at top-line as well as at profit levels for consol operations are quite exciting. All these positive developments hold up management's bullish views on overall business prospects going forward.

With expansion through new centers; Career Point group network is now reached at 83 different units in 70 cities across 21 states of the country. Total enrollments were reported at 29,509 (FY2017: 29,086) including 11,274 in formal education division (FY2017: 8,029) and 18,235 in informal education division (FY2017: 21,057).

A remarkable growth of more than 40% (y-o-y) in formal education enrollments is a result of increased admissions in all three sub-verticals including higher education, school education and vocational division. In tutorial division, Career Point has been growing the network by more efficient delivery channels i.e. school integrated programs and franchisee centers.

CP Gurukuls which are residential school integrated with coaching facilities, the performance has been quite phenomenal - in terms of academics as well as extra-curricular. 36 students of CP Gurukul won Gold Medals in Various Scholarship Exams last year. Bronze medals in 2nd TFF Minime Series & Thailand Fencing Championships 2017 and Mousetrap event (MacFare) held at CMS, Lucknow were secured by CP Gurukul students.

With dual advantage of best quality academics with holistic development of CP Gurukul students and seamlessly integrated school education with competitive examination preparation; CP Gurukuls are now positioned in a different league. The institutions are now home to produce students with all round success. CP Gurukul Kota has recently been featured in Forbes Marquee Edition - Great Indian Schools 2018.

Career Point's experience of last 25 years in delivering quality education is also reflected in the chain of Career Point schools located in Rajasthan as well as outside Rajasthan. Career Point World Schools are also on their pathway to establish an edge over other players in their respective regions.

In higher education both the universities - Career Point University at Kota, Rajasthan and Career Point University at Hamirpur, Himachal Pradesh - have performed extremely well on all fronts including academics, placements, new enrollments, industry collaborations, return on investments and brand equity.

We added new undergraduate and postgraduate and diploma courses in school of legal studies, applied sciences and have also added School of Pharmacy to run Diploma in Pharmacy, B.Pharmacy and M.Pharmacy.

During the year, Career Point University signed a MoU with Swasthya foundation to offer UG and PG courses in Public Health Science for overseas students. The faculty of this program will also be from prestigious overseas institutions and universities. We have also executed an association with ICMA that is Institute of Cost Works and Management Accountants of India to run certificate program in Cost and Management Accounting.

In April 2018, 9th Indian Youth Science Congress was held at Career Point University Hamirpur which was chaired by honorable Vice President of India. Similar prestigious events are regularly conducted at Career Point Institutions. Recently, Career Point University Kota was selected by Ministry of HRD, Govt of India for implementation of Unnat Bharat Abhiyan.

Career Point University Law College organized a national seminar in association with Rajasthan Legal Services Authority on Juvenile justice. More than 200 innovative products and projects were presented by Career Point Students in Technovation - popular event for innovations in the area of science & technology.

Moving to financials, the total income in this fiscal reached at ₹ 100 Crores mark at console level. The company reported a y-o-y growth of 7% in EBITDA at Rs.30.6 Crores with EBITDA margin of 34.1%. The net income for the year was ₹ 22.2 Crores with the PAT margin of 22.1% at Consol level. As on March 31, 2018, the net worth of the company was close to ₹ 405 Crores against Rs 381 Crores previous year post Ind-AS conversion.

Overall the business including different divisions and their sub-verticals are performing well in-line with company's growth strategy. The increased contribution from high margin verticals and larger growth from more sustainable businesses are some of the key highlights for the period and we are quite excited with company's well positioned development matrix.

It is my priority to take Career Point to its next leg of growth and I am confident that this development matrix will support this agenda. I look forward to your continued encouragement in this journey while also putting on record my sincere appreciation to the board of directors and all shareholders for all their support and trust.

I would also like to extend my thanks to the executive team and staff of the Career Point group whose dedication and professionalism contributes so much to our achievements, making it possible for us to provide success to the thousands of students we serve.

With best wishes

Pramod Maheshwari

Management Discussion & Analysis

Global economy acceleration that started in 2016 gathered further momentum in 2017 and being continued in 2018. Risks and Concerns

With having the business operations in different industry segments, Career Point is exposed to variety of external and internal risks. Though the company has a robust mechanism for risk management in place, however, complete risk avoidance on all the financial, operational and strategic objectives cannot be promised. Boards of directors and management of the company regularly review and aim to mitigate various risks related to regulatory, competition, geography, human resource, technology, legal, political etc. The company recognizes following key risks to its business operations which may adversely affect the financial performance of the Company:

Regulatory Risk: Any changes in regulatory norms on the Formal as well as Informal Education front may significantly impact the investment made in education by the Company. The Company is continuously making an effort to upgrade its services, diversify delivery channels, leveraging technological advancements, expanding the product portfolio to minimize the regulatory risk, if any.

Decrease in Student Enrolment: With the increased competition, decentralization of the tutorial students or any other reasons; the Company might face a risk of decline in student enrolments. However, the Company's focused academic pedagogy and marketing strategy (which includes direct and indirect marketing) continues to attract students across its courses.

Pressure on Margins: There could be a margin pressure due to staff costs, cost of study material, high advertising and business promotions, etc, going forward. We believe the Company has sufficient tools to counter these factors, if the same arises.

Attrition: Attrition in the senior management/faculty team may impact the business. The Company's strategy for retaining talent involves offering competitive compensation packages, faculty training system in place for new entrants and existing faculty, along with a healthy working environment.

Geographical Concentration: The Company derives the larger share of its revenue from Kota in Rajasthan and Northern part of India. Hence, any disruption in operations, or competition at these locations could impact overall operations significantly. The Company is making a concerted effort to expand its operations pan-India and overseas through franchisees, business associations etc and is also boosting its Technology Offerings, Distance Learning segment etc.

Internal Controls & Systems

The Company has proper and adequate internal control systems, which ensure that all assets are safeguarded against loss from unauthorized use and all transactions are authorized, recorded and reported correctly. The Management continuously reviews the internal control systems and procedures to ensure orderly and efficient conduct of business. Internal audits are regularly conducted, using external and internal resources to monitor the effectiveness of internal controls. The Company deploys a robust system of internal control that facilitates the accurate and timely compilation of financial statements and Management reports; ensures regulatory and statutory compliance; and safeguards investors' interests by ensuring the highest level of governance and periodical communication with investors.

M/s. Sanjay Khandelwal & Co., Chartered Accountants, Kota, is the internal auditor of the Company, who conducts audit and submit quarterly reports to the Audit Committee. The Internal Audit process is designed to review the adequacy of internal control checks in the system and covers all significant areas of the Company's operations. The Audit Committee reviews the effectiveness of the Company's internal control system. The CEO and CFO certification provided in the CEO and CFO Certification section of the annual report further discusses the adequacy of our internal control systems and procedures.

Outlook

During the year 2017-18, our endeavors to diversify business divisions and service delivery channels have been perfectly in-line with our strategic plan to transform company to a complete educational service provider. Larger growth in formal education and the coaching services delivery through school association network ascertained sustainability to the businesses and offers large opportunities to tap enormous potential.

Overall the business including different divisions and their sub-verticals are performing well in-line with company's growth strategy. The company's well positioned development matrix hold up management's bullish views on overall business prospects going forward.

ANNEXURE 'B' TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2(f) of our report of even date)

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of CAREER POINT LIMITED ("the Company") as of 31st March, 2018 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, we report that the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

4 Critical accounting estimates, assumptions and judgements:

In the process of applying the Company's accounting policies, management has made the following estimates, assumptions and judgements, which have significant effect on the amounts recognised in the financial statement. Uncertainty about these assumptions and estimates could result in outcome that require a material adjustment to assets or liabilities affected in future periods.

i) Property, plant and equipment

Property, Plant and equipment represent a significant proportion of the asset base of the company. The useful lives and residual value of the company's asset are determined by the management at the time the asset is acquired and reviewed at each reporting date.

ii) Income taxes

The Company's tax jurisdiction is India. Significant judgements are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions

iii) Contingencies

Management judgement is required for estimating the possible outflow of resources, if any, in respect of contingencies/claim/litigations against the Company as it is not possible to predict the outcome of pending matters with accuracy.

Trade receivables do not carry any interest and are stated at their normal value as reduced by appropriate allowances for estimated irrecoverable amounts. Individual trade receivables and advances are written off when management deems them not to be collectible. Impairment is made on the expected credit losses, which are the present value of the cash shortfall over the expected life of the financial assets.

v) Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the assets's recoverable amount. An assets's recoverable amount is the higher of an assets's or CGU's fair value less costs of disposal and its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

vi) Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

vii) Fair value measurement of financial instruments

When the fair values of financials assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques, including the discounted cash flow model, which involve various judgements and assumptions.

The following methods and assumptions were used to estimate the fair values:

- 1) Fair value of cash and deposits, trade receivables, trade payables, and other current financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.
- 2) Long-term fixed-rate and variable-rate receivables / borrowings are evaluated by the Company based on parameters such as interest rates, specific country risk factors, credit risk and other risk characteristics. Fair value of variable interest rate borrowings approximates their carrying values. For fixed interest rate borrowing fair value is determined by using the discounted cash flow (DCF) method using discount rate that reflects the issuer's borrowings rate. Risk of non-performance for the company is considered to be insignificant in valuation.

Fair Value hierarchy

All financial assets and liabilities for which fair value is measured in the financial statements are categorised within the fair value hierarchy, described as follows:-

Level 1 - Quoted prices in active markets.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable, either directly or indirectly.

Level 3 - Inputs that are not based on observable market data.

NOTES TO THE STANDALONE FINANCIAL STATEMENT
for the year ended March 31, 2018

In preparing these financial statements, the company has availed certain exemptions and exceptions from retrospective application of certain requirements under Ind AS, as explained below.

1) Ind AS optional Exemptions

i) Deemed cost:

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognized in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets and investment property covered by Ind AS 40 Investment Properties. Accordingly, the Company has elected to measure all of its property, plant and equipment, intangible assets and investment property at their previous GAAP carrying value.

ii) Investments in subsidiaries and joint ventures:

On the transition date, the Company has opted to carry investments in subsidiaries and associates at their deemed cost, i.e. previous GAAP carrying amount.

iii) Leases:

For arrangements entered into prior to 1st April, 2016, the Company has assessed all arrangements for Embedded Leases based on conditions prevailing as at the date of transition (i.e. 1st April, 2016).

2) Ind AS Mandatory Exceptions

Estimates:

The estimate at 1st April 2016 and ended 31st March 2017 are consistent with those made for the same dates in accordance with Indian GAAP (after adjustment to reflect any differences if any, in accounting policies) apart from the items where application of Indian GAAP did not require estimation. The estimates used by the company to present these amounts in accordance with Ind AS reflect conditions as at the transition date and as of 31st March 2017.

Footnotes:

Measurement and recognition difference as on April 1, 2016 and for the year ended March 31, 2017

a) Investments others than investment in subsidiary, associate and joint venture

Under Indian GAAP non-current investments other than investment in subsidiary, associate and joint venture arrangement are measured at cost less any permanent diminution in value of investment. Difference between the cost and market price is recognized in profit and loss.

Under IND AS investments are designated as fair value through profit and loss (FVTPL).

b) Deferral of Franchise Income

AS 9 recognizes both completed contract method and proportionate completion method for recognition of revenue arising from rendering of services. It provides that where the performance of the service requires execution of more than one act, revenue is recognized proportionately by reference to the performance of each act. But as per IND AS when the outcome of a transaction involving the rendering of services can be estimated reliably, revenue associated with the transaction should be recognized by reference to the stage of completion of the transaction at the balance sheet date.

c) Cost of borrowing

Borrowing designated and carried at amortized cost are accounted on EIR method. The upfront fee or cost of borrowing incurred is deferred and accounted on EIR. Borrowings are shown as net of unamortized amount of upfront fee incurred.

d) Deferred Tax

The Company has accounted for deferred tax on the various adjustments between Indian GAAP and IND AS at the tax rate at which they are expected to be reversed.

MAT entitlement credit being of the nature of deferred tax, on transition to IND AS MAT credit entitlement of ₹ 242.86 Lacs and ₹141.17 Lacs for April 1, 2016 and March 31, 2017 respectively has been regrouped under deferred tax liability from Current tax assets (net).

e) Defined benefit obligations-

The impact of change in actuarial assumption and experience adjustments for defined benefit obligation towards gratuity liability is accounted in the Statement of Other Comprehensive Income and corresponding tax impact on the same. Due to this, ₹4.62 Lacs (Net of deferred tax) for the period ended March 31, 2017, tax credit there on is shown in OCI and reversal in Statement of Profit and loss.

f) Statement of Cash Flow-

ANNEXURE 'A' TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(f) of our report of even date)

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the Consolidated Ind AS financial statements of the Company as of and for the year ended 31 March 2018, we have audited the internal financial control over financial reporting of Career Point Limited ("the Holding Company") and its subsidiaries (the Holding company and its subsidiaries together referred to as "the Group"), joint venture and an associate which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, its subsidiary companies, its joint venture and its associate are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Holding Company, its subsidiary companies, its joint venture and its associate, which are companies incorporated in India, internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence, we have obtained and the audit evidence obtained by the other auditors in term of their reports referred to in the other matters paragraph below is sufficient and appropriate to provide a basis for our audit opinion on the group's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matter

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to the 8 subsidiaries Companies, a joint venture and an associate company, is based on the corresponding reports of the auditors of such companies incorporated in India.

The following methods and assumptions were used to estimate the fair values:

- 1) Fair value of cash and deposits, trade receivables, trade payables, and other current financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.
- 2) Long-term fixed-rate and variable-rate receivables / borrowings are evaluated by the Company based on parameters such as interest rates, specific country risk factors, credit risk and other risk characteristics. Fair value of variable interest rate borrowings approximates their carrying values. For fixed interest rate borrowing fair value is determined by using the discounted cash flow (DCF) method using discount rate that reflects the issuer's borrowings rate. Risk of non-performance for the company is considered to be insignificant in valuation.

Fair Value hierarchy

All financial assets and liabilities for which fair value is measured in the financial statements are categorised within the fair value hierarchy, described as follows: -

Level 1 - Quoted prices in active markets.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable, either directly or indirectly.

Level 3 - Inputs that are not based on observable market data.

The following table presents the fair value measurement hierarchy of financial assets and liabilities, which have been measured subsequent to initial recognition at fair value as at 31st March, 2018, 31st March 2017 and 1st April 2016:

CAREER POINT LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENT
for the year ended March 31, 2018

In preparing these financial statements, the company has availed certain exemptions and exceptions from retrospective application of certain requirements under Ind AS, as explained below.

1) Ind AS optional Exemptions

i) Deemed cost:

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognized in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets and investment property covered by Ind AS 40 Investment Properties. Accordingly, the Company has elected to measure all of its property, plant and equipment, intangible assets and investment property at their previous GAAP carrying value.

ii) Leases:

For arrangements entered into prior to 1st April, 2016, the Company has assessed all arrangements for Embedded Leases based on conditions prevailing as at the date of transition (i.e. 1st April, 2016).

2) Ind AS Mandatory Exceptions

Estimates:

The estimate at 1st April 2016 and ended 31st March 2017 are consistent with those made for the same dates in accordance with Indian GAAP (after adjustment to reflect any differences if any, in accounting policies) apart from the items where application of Indian GAAP did not require estimation. The estimates used by the company to present these amounts in accordance with Ind AS reflect conditions as at the transition date and as of 31st March 2017.

Footnotes:

Measurement and recognition difference as on April 1, 2016 and for the year ended March 31, 2017

a) Investments other than investment in subsidiary, joint venture & associate

Under Indian GAAP Investments are at cost less any diminution in value of investment. Difference between the cost and market price is recognized in profit and loss.

Under IND AS investments are designated as fair value through profit and loss (FVTPL).

(ii) Investments in joint venture.

Joint venture is accounted on equity method instead of proportionate consolidation as per previous GAAP. As per equity method, if interest in joint venture is reduced to zero, additional losses are not provided for. Therefore, profit for the year have been increased by ₹ 2.70 Lakhs.

b) Deferral of Franchise Income

AS 9 recognizes both completed contract method and proportionate completion method for recognition of revenue arising from rendering of services. It provides that where the performance of the service requires execution of more than one act, revenue is recognized proportionately by reference to the performance of each act. But as per IND AS when the outcome of a transaction involving the rendering of services can be estimated reliably, revenue associated with the transaction should be recognized by reference to the stage of completion of the transaction at the balance sheet date.

c) Cost of borrowing

Borrowing designated and carried at amortized cost are accounted on EIR method. The upfront fee or cost of borrowing incurred is deferred and accounted on EIR. Borrowings are shown as net of unamortized amount of upfront fee incurred.

d) Deferred Tax

The Company has accounted for deferred tax on the various adjustments between Indian GAAP and IND AS at the tax rate at which they are expected to be reversed.

MAT entitlement credit being of the nature of deferred tax, on transition to IND AS MAT credit entitlement has been regrouped under deferred tax liability from Non Current / Current tax assets (net).

e) Other Comprehensive Income

The impact of change in actuarial assumption and experience adjustments for defined benefit obligation towards gratuity liability is accounted in the Statement of Other Comprehensive Income and corresponding tax impact on the same. Due to this, ₹ 4.62 Lacs (Net of deferred tax) for the period ended March 31, 2017, tax credit there on is shown in OCI and reversal in Statement of Profit and loss.

Under Indian GAAP, Equity instruments are at cost less any diminution in value of investment. Under IND AS equity instruments are designated as fair value through Other Comprehensive Income. Due to this, Other Comprehensive Income is increased by ₹ 1.95 Lacs and ₹ .40 Lacs as at 1st April, 2016 and 31st March, 2017 respectively.
