Dear Sir,

With reference to your application, we are pleased to inform you that it has been decided to grant you a licence to use the Standard Mark in respect of the following:

Product: Wire Ropes Used in Oil Wells and Oil Well Drilling - Specification

IS No: IS 4521: 2001

Type/Size/Grade/Variety covered under licence:
Tenile designation - 1770 Nxtent & 1770 Nxtent, size - 13mm to 40mm, Steel core, Unplated/Uncoated.

2. The number assigned to this licence is CML- 7700106412 which has been made operative from 27/02/2017 and is valid upto 26/02/2018. The licence number should invariably be referred to in your future correspondence.

3. According to sub-regulation (2) of Regulation 6 of Bureau of Indian Standards (Certification) Regulation, 1988, the licence fee of Rs. 1000/- and the marking fee of Rs. 4000.00 as stipulated in the Second Schedule of the licence is payable by you with effect from 27/02/2017 for the period of validity of the licence. Service fee as applicable shall also be charged.

4. Minimum marking for stipulated items is payable by you regardless of the whether you actually mark your product or not with the Standard Mark. Our Receipt No. 7722589 dated 27/02/2017 for the marking fee shall be valid for the period of validity of the licence. The marking fee shall be payable by you with effect from 27/02/2017 for the period of validity of the licence. Service fee as applicable shall also be charged.

5. This licence entitles marking the well be carried over to the next year on every renewal. The actual marking fee as stipulated in the Second Schedule of the licence shall be payable by you with effect from 27/02/2017 for the period of validity of the licence. Service fee as applicable shall also be charged.

PRODUCT DESIGN

Our product is well designed with design software from renowned source, experience of best rope manufacturers technical heads and our own team, which is highly experienced in field of steel wire ropes. Thus, design parameters are tested with comprehensive testing in quality laboratory, which supports the ultimate rope performance parameters like breaking force, rotation resistance, fatigue, MOE etc. This makes our ropes world class product with guaranteed performance.

Dura FORM® and Dura FLEX® are our brand for compacted and higher flexibility rope products in various segments. Fatigue and Bend test of ropes: We are testing all wire for bending and SPC techniques are used for validating designs and practical values of wire, strand, rope. Further, all batches are tested for fatigue and since fatigue plays vital role in wire ropes the testing is comprehensive and monitored with strict controls. PRE-STRETCHING FACILITY: We produce best ropes with inline pre-stretching arrangement in line with our closing machine. This can pre-stretch the ropes up to 24 mm diameter in line. Pre-stretching is a specialized process opted for removing the constructional stretch from the rope. This stretch is permanent in nature. The inline method of removing stretch is reliable and efficient as rope is not handled multiple times, as it is done in off-line PS beds. Thus, we offer better rope to our customers!! In effective way.

QUALITY ASSURED

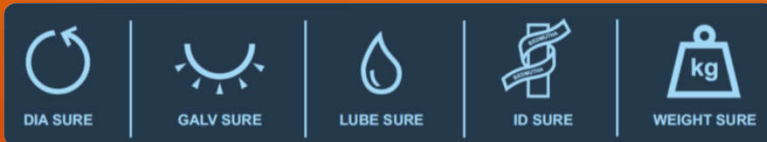

THE QUALITY APPROACH :

QUALITY ASSURANCE FACILITY

We have a fully equipped laboratory to monitor and maintain a well-defined quality assurance system, which tracks and tests steel at every stage right from rod stage tests like physical testing, metallurgical testing and chemical testing, the Lab is well equipped with spectrometer for checking the rod composition. Lab is manned by professionally qualified highly experienced technical team comprising of metallurgists and chemical graduates. The team is always guided by some of the world's best technical experts and developments/process are accordingly validated with all test records. Besides this, all equipment are selected from world's best makers like:

1. Spectrometer from Shimadzu, Japan
2. Tensile testing machine from Shimadzu, Japan
3. Tensile testing machine from Zwick, Germany
4. Wire bend test machine from Zwick, Germany
5. Rope testing machine 300Tf South Asia
