BUSINESS UPDATE

We appreciate the interest of our Shareholders in the future of our Company expressed by them by emails/ phone calls etc. and we consider it our duty to keep them abreast of the working of Company and remove the doubts in the mind of our Shareholders by answering their queries.

You are aware that your Company is 100% Export oriented Unit and a STAR Export House having ISO 9001:2008, ISO 14001:2004 OHSAS 18001:2007 and many international quality certification. Approx 80% of exports go to USA.

Many of our Shareholders have expressed the concern about effect on our raw material prices due to rise in crude oil prices.

We have to inform that when the Raw material price is increasing our sale price also get increased to compensate for rise in our cost. As explained many a time for example if Polypropylene our main Raw material which is imported from World renowned Exxon Mobil Company price is US \$ 1200 per M. Ton our sale price is US \$ 2200 per M. Ton and if prices go upto to say US \$ 1500 per M. Ton the sale price will be US \$ 2500 per M. Ton. Our spread of US \$ 1000/- per M. Ton remains same as such our profitability is not effected.

Further good news for our Shareholders is that while fixing the price our estimated realization was at Rs. 66/- for US \$ 1/-. Now with US \$. getting strong Vs. Rupee, the present rate is US \$ 1 = RS.72, which result in nearly 9% additional benefit.

Product is manufactured in the plant, where the Management system is certified for ISO 9001:2008, 14001:2004, OHSAS 18001:2007
