HAIRSPA

ROSSANO FERRETTI

- The key to the success of Rossano Ferretti is the creation of his own method which revolutionized the understanding of hair's style and is considered one of the most respected innovations in haircutting of the past 40 years.
- The Method created by Rossano and Lorenza Ferretti is a completely new concept of hair cutting. It is all about the natural fall of the hair.
- This method allows the designer to enhance the individual beauty of every client, customizing the haircut according to the hair type and the characteristics of the individual person. In an era over-saturated by new trends and complex beauty techniques, Rossano masterfully strips beauty and hairdressing to its most natural elements, emphasizing beauty in a natural way, creating a connection between personality, body and hair, deeply renewing the image of beauty.

GLOBAL CONSULTANCY BY SANGHVI GROUP

Sanghvi Group has expertise working with best wellness brands, leading global architects & designers along with the world's largest hotel groups

Sanghvi Group has experience with over 70 projects spanning USA, Middle East, Indian Ocean and India. Sanghvi Group has a global employee base of more than 700 employees Worldwide

Each company and/or project has its own set of needs, challenges, goals and available resources. Global Spa Consultancy Services help address the following issues faced:

- Existing Management has a lack of knowledge and skillset required to make informed decisions and resolve issues faced in the set-up of a spa/salon/gym/clubhouse.
- A property does not have the required expertise and resources required to develop / operate / manage / market at premium spa/salon/gym/clubhouse.
- Due to the above, existing Management is unable to produce effective results viz. Customer Satisfaction, Revenues etc.

We maximize a property's opportunity to create memorable service experiences while driving top line and bottom line results

EXPERTISE

SCOPE OF WORK

- **Space Design:** Design and Develop the most aesthetically appealing and functional spaces for spas, fitness and wellness facilities. You should focus on operational flow and functional aspects related to design and not just the aesthetic appeal as most of the mistakes that occur are of a functional nature.
- **Concept:** It is important to think through the concept and theme first before plunging into actual design. Having a brand to complement your property will assist in making your property more attractive and compelling.
- **Trained Personnel:** The single most important factor is to hire and train service staff that positively influence the image and perception of consumers with regard to the spa “experience” so that they will return time and again. This requires constant training in all areas of guest and customer service and the small touch points needed to provide exemplary service need to be constantly reviewed
- **Unit Economics:** Our approach is to manage the property as a business unit and not just as a viable amenity to a project with an emphasis on effective promotions and maximizing the opportunity for generating enough revenue to produce a solid return on the investment for our client

SCOPE OF WORK

- **Spa Feasibility Services:** Provide a comprehensive feasibility and needs analysis study to help our clients make the most informed decisions regarding the development of the property. This includes size, scope and complexity for the facility and projected financial results.
- **Spa Pre-opening Services:**
 - Planning and preparation are crucial to the successful opening of your property
 - Creation of a complete and creative menu of services, Retail product selection, display and merchandising plan, Finalizing the operating budget, Standard Operating Procedures and protocols, Strategic marketing and promotion plan, Preparation for Soft and Grand Openings
- One-stop solution for Spas, Wellness & Lifestyle projects of all types Globally
- Complete integration into your Property or Brand
