Management Commentary

Commenting on the performance, (Hony) Brig. Dr. Arvind Lal, Executive Chairman said:

“Dr. Lal PathLabs remains dedicated to driving sustainable growth in response to the demand for dependable diagnostic services. We’re investing in an efficient, technology-enabled network to accommodate the growing volume of samples and enhance patient accessibility.

Our strategic focus areas, including geographical expansion, portfolio diversification and digital transformation, are driving significant progress. By leveraging our unique strengths, such as DLPL and Suburban’s distinct USPs, we’re prioritizing network synergies as well as employing a phygital mechanism to meet evolving consumer preferences.

As we navigate through competitive landscape and pursue growth opportunities, our approach emphasizes on both organic and inorganic opportunities, particularly in the untapped markets. Through continuous innovation, branding efforts and prudent financial management, we’re dedicated to maintaining our leadership position and enhancing shareholder value.”

(Hony) Brig. Dr. Arvind Lal,
Executive Chairman

Commenting on the performance, Dr. Om Manchanda, Managing Director said:

“A strategic thrust towards widening and deepening our geographical footprint, thereby, delivering sustainable volume and value growth continues to guide us. Initiatives are underway to gain traction in both B2C and B2B segments. Another peg in this approach is the development of medical centers of excellence, whereupon we focus on positive patient outcomes for identified underlying conditions through accurate and timely diagnosis.

Expanding further into Mumbai, and select parts of Maharashtra via Suburban, together with development of presence in tier 3 and 4 towns remains a fundamental goal. To strengthen Suburban’s operations, we’re focusing on sampling promotion and brand building and expect to see traction in the coming months. Additionally, under the DLPL brand, we are developing new lab towns to expand our reach. As the leading brand, we are setting the tone of growth and profitability, with focused actions driven by an experienced team.”

Dr. Om Manchanda,
Managing Director

Commenting on the performance, Mr. Shankha Banerjee, Chief Executive Officer-Designate said:

“We are thrilled to have concluded the year on a strong note, achieving 10.4% growth in Revenue and 50.3% growth in PAT . In FY24, we provided services to 27.6 million patients and tested a total of 78.2 million samples, representing a growth of 8.1% in samples over previous year.

We’re expanding our reach in core markets by strengthening our presence in Tier 3 and Tier 4 towns. Simultaneously, we’re intensifying efforts in key clusters of Western and Southern India.

We continue to leverage our digital infrastructure, including advanced AI and data analytics, to enhance patient experience and deliver operational excellence.

We have taken a lead in bundling routine tests under ‘Swasthfit’ and have been successful thus far. We will continue to expand its reach and develop programs for sustain growth trajectory.”

Mr. Shankha Banerjee,
Chief Executive Officer-Designate

Overview of Dr. Lal PathLabs

Established brand

Established consumer healthcare brand in diagnostic services

Pan-India integrated coverage

280 clinical labs (including National Reference Lab at Delhi and Regional Reference labs at Kolkata, Bangalore & Mumbai), **5,762** Patient Service Centers (PSCs) and **11,619** Pick-up Points (PUPs)

Varied Offerings

Catalogue of **343** test panels, **3,075** pathology tests and **1,439** radiology and cardiology tests

Unique and successful operating model

Scalable model integrated through centralised IT platform allows for network expansion

Well-positioned in one of the fastest-growing segments of the Indian healthcare industry

ABDM - All Milestones achieved, DLPL among early adopters

Ayushman Bharat Digital Mission aims to create a National Digital Health Ecosystem to bridge the existing gap amongst different stakeholders of Healthcare ecosystem through digital highways. The mission also enables interoperability and portability of health records and support innovation and research in the health sector.

The program is divided into 3 milestones from Technology enablement perspective.

Milestone – 1
(ABHA ID : Ayushman Bharat Health Account)

Milestone – 2
(Building HIP - Health Information Provider)

Milestone – 3
(Building HIU – Health Information User)

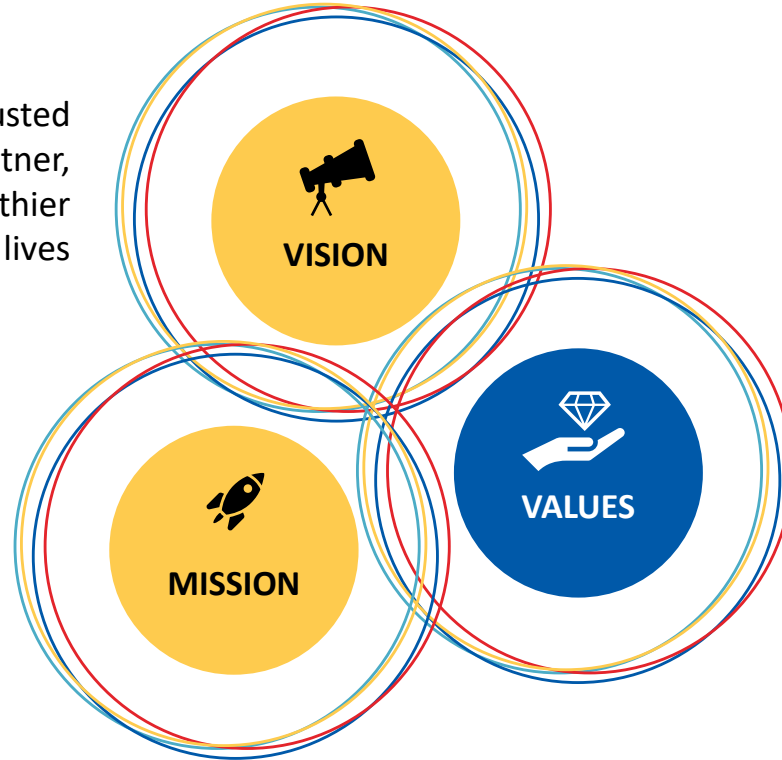

DLPL is among the few early adopters who have received all M1, M2 and M3 certification.

The benefits of the mission are manifold and will help the entire ecosystem, from Policy Makers to Researchers, and Health Care Professionals to Patients.

Vision, Mission & Values

Be the most trusted
healthcare partner,
enabling healthier
lives

To be an undisputed market
leader by providing accessible,
affordable, timely and quality
healthcare, diagnostics, applying
insights and cutting-edge
technology to create value for
all stakeholders

Customer First

Ethics &
Integrity

Quality

Accountability

Empathy &
Compassion

DLPL Strategy for future growth

Significantly leverage the strong digital infrastructure

- Deployed AI, data analytics, machine learning tools to elevate the patient experience & offer customized solutions
- Dedicated digital team in place to amplify the volume trajectory

Enhance high-end test portfolio of super-specialty & bundled test

- Created specialty verticals like Genevolve to focus on genomics, L-CoRD to focus on reproductive diagnostics, and L-ACE to focus on auto-immune disorders.
- 'Swasthfit' remains at the core, to offer comprehensive bundled solutions to patients

Maintain leadership position in the existing core markets

- Leverage strong brand equity in core markets of North India including Delhi NCR
- Offer value to patients by up-selling opportunities

Drive higher volumes in high-potential markets of Western & Southern India and hub labs in rest of north

- Follow cluster city approach to steer growth in key pockets
- Enhance presence in Maharashtra especially Mumbai through Suburban Diagnostics
- Launched Reference labs in Bengaluru & Mumbai

Leveraging digital infrastructure to make life easier for patient

New Website Launch

- New age user intuitive website.
- Responsive , mobile friendly web designs.
- SEO friendly for improved customer reach
- Strategic placement of Buttons and Web forms to generate more leads and better order conversion rates from website

Reco.ai

- LPL's own AI based Recommendation Engine
- Recommends Patient relevant tests as per his current health condition, past report trends, demographic details, etc.

Logistics App

- Machine Learning based FE Route Generation
- Machine Learning based Tube Scanning Bag creation process.
- Secure QR Code based handshake for every process.
- Geo-fencing and Precious sample recognition Intra and Intercity sample movement.

Wallet

- Senior Citizen Wallet: Wallet points on every booking for Senior Citizen Patients.
- Phlebo Wallet: Wallet points on enhanced superior services to customers.

One Registration

- One unified platform for all POS registrations
- Error Proofing

Chatbot 2.0

- New version of Chatbot.
- Book an appointment functionality.
- ETR and Report visibility of customer orders. Recommendation of Preventive Health Checkups

Summary highlights – Technical Lab Operations

Only lab in India to introduce the **Donor derived cell free DNA (LIQUID BIOPSY) technique** for monitoring in cardiac, lung and renal transplant patients.

First lab to introduce the **ONCOPRO TSO500 Comprehensive Genomic Profiling- 500 genes panel**

LACE and the centre of excellence in Reproductive medicine – **LCORD**

Relaunched the Lipid panels incorporating the latest guidelines and the SCVD risk profiling for patients

First lab in India to use **AI as an adjunct reporting for prostate cancer and breast cancer reporting** – enhancing the accuracy of pertinent parameters for reporting which affect the therapy guidelines for patients (Gleason grading and perineural invasion)

Launched **COE in Autoimmunity** – Unparalleled test menu in autoimmune diseases in India

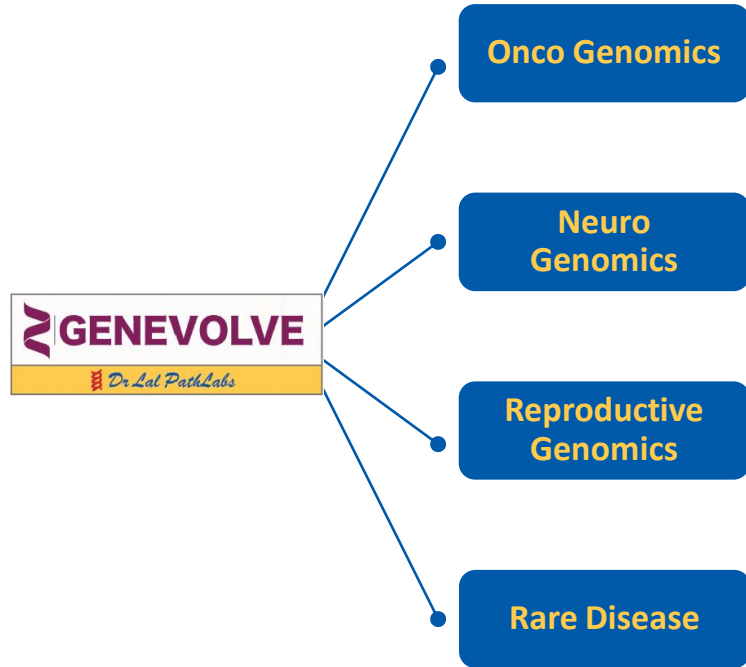

Only private lab to have **two electron microscopes – TEM** (Transmission Electron Microscopy) for clinical diagnostics.

New Research paper published entitled **“Emergence of Multidrug Resistant Enterococcus Species Isolated from Clinical Samples in North India”** in international journal Global Journal of Microbiology Research(GJMR).

Genevolve: Genetic Testing Division

Successful completion of 3 years of Launch

Wide Test offering with 160+ New Tests

Wellness Genomics & Pharmacogenomics are upcoming segment

Direct reach of 3,000+ Doctors

Dedicated Business Development team for Genetic Tests

State of art technologies In-House at 4 Reference Labs

Highest Quality Standards in the Industry

Best in the Industry CAP Proficiency Testing Score at 96% for National Reference Lab

Consistently high EQAS Performance Testing Score at 97.3% for Satellite Labs

CAP accreditation 2 labs, NABL accreditation 36 Labs

Real time quality control monitoring

Risk based quality assurance framework

100+ Quality improvement meetings on a daily basis with the network partners

Digitally enabled solutions implemented for quality audits and trainings

Patent has been granted to Dr. Lal PathLabs for an invention related to REAL TIME QUALITY CONTROL MONITORING for the period of 20 years

Quality Control

Laboratory excellence

- Test Recommendation engine
- NABL 133 implementation
- Risk Based Internal Audits
- LPL proficiency testing program launch
- Analytical Quality Scoring & monitoring of Labs
- ESG Data Gathering process implementation

Capability building

- D L Shah Gold Award for LPL Project
'Improving Laboratory Performance by developing an in-house automated process to monitor Quality control'
- PROJECT NEEV- self learning initiative for phlebotomists
- Quality education programs-- HUNAR for technicians and EDGE for Doctors

Enhanced Customer Experience in Home Collection

CSR Projects

LPL Foundation's flagship program of vocational training focuses on Skilling and Comprehensive School Health Program

1. Skilling: LPL Academy for Laboratory Medicine - Phlebotomist Training

Impact Assessment Metrics (Key findings from survey of sample size)

- 45% of respondents surveyed were BPL (below the poverty line) candidates.
- 51% joined the program due to high placement record and 49% due to program certification by authorized bodies and schemes like NSDC and Skill India.
- 59% of participants' salary expectations were met.
- 100% of participants completed OJT and found the program to be Good and Very Good.
- 99% of participants responded that they were guided enough during OJT through guidance, feedback, monitoring and follow-ups by the training centre Representatives.
- 92% of respondents were provided options from multiple employers indicating placement efficiency.
- 92-93% of respondents reported positive impact in personality, confidence and soft skills.
- 91-93% provided positive feedback on course content and training implementation.
- 92% were able to contribute to savings and household expenses indicating a positive impact on quality of life.

2. Public Health: Comprehensive School Health Program (CSHP)

Program strengths

Quality of trainers and relevance of the course.

Effective candidate relationship management.

Program impact exceeded goals, serving as a transformative platform for trainees and exceeding expectations of participants.

Strong impact and effectiveness of alumni group

Strong placement success and efficiency.

Key ESG Initiatives

Savings of >1.3 million aliquots and >5210 tons of plastic waste in our lab – a strong commitment to sustainability

Dr. Lal Pathlabs' leadership vision focuses on continuous improvement while maintaining best-in-class patient services. Furthermore, we are strongly committed to optimizing our laboratory's environmental footprint.

We **reduced the need for aliquots by 93%** by replacing our previous system configuration^{1,2} with new, innovative automation, analyzers, and IT solutions. Reduced use of plastic for aliquots optimizes **waste management** and **significantly reduces CO² emissions**.

>1.3 millions

aliquots eliminated per year²

>5210 tons

of plastic waste eliminated³

>INR 435 millions

saved in aliquot creation cost^{2,5}

>21,571 tons of CO₂ emissions

eliminated every year⁴

Equivalent to carbon sequestered by

3231 tree seedlings

grown for 1 year⁴

Protecting resources

Reducing the carbon footprint

Saving energy required for aliquot creation

Combating climate change

Supporting return on investment

1. Siemens Healthineers automation and IT solution vs. the previous system configuration from Roche Diagnostics, Abbott Diagnostics, and Beckman Coulter Diagnostics.

2. Case study: Dr. Lal Pathlabs harnesses the power of digitalization. Published by Siemens Healthcare Diagnostics Inc. · Order No. 30-22-DX-1342-76 · 08-2022 · © Siemens Healthcare Diagnostics Inc., 2022.

4. Theoretical worldwide average using the [epa.gov/energy/greenhouse-gases-equivalencies-calculator](https://www.epa.gov/energy/greenhouse-gases-equivalencies-calculator)

5. Expected financial savings for the contract duration, depending on test mix and market pricing during this time period.

Cyber Security Capability

Data Loss Prevention

- State-of-the-art data loss prevention technology to monitor and prevent the disclosure of information
- Data classification platform for information labeling and handling according to severity of data
- Rights management system to enable persistent data-centric protection

Extended Detection and Response

- Deployed next generation cyber technologies such as CASB (Cloud Access Security Broker), EDR (Endpoint Detection & Response), ATP (Advance Threat Protection), File Sandboxing, Email Zero-Day Protection, Risk-Based Conditional access to prevent the new-age cyberattacks

Software Security

- Vulnerability Assessment & Penetration Testing of IT apps and systems including cloud infra
- Periodic secure code and configuration reviews of mission-critical systems

Security Operations Center

- Security operations center to monitor cyber threats 24x7
- Cyber Crisis Management Plan - Readiness, Response & Recovery to achieve the cyber resiliency

Threat Intelligence

- Threat intel platform to monitor the surface, deep and dark web for credential disclosures, data leaks, frauds, scams, etc
- Proactive detection and mitigation of vulnerabilities of publically exposed systems
