MANAGEMENT DISCUSSION & ANALYSIS REPORT

Pursuant to SEBI (LODR) Regulations, 2015, your directors have the pleasure in presenting the Management Discussion and Analysis Report for the year ended on March 31, 2024.

Industry Overview:-

The plastics and polymers industry stands as a cornerstone of modern economies, catering to diverse sectors such as packaging, construction, automotive, electronics, and healthcare. Its significance lies in the versatility, durability, and cost-effectiveness of its products, driving demand across global markets. India is increasingly integrated into the global plastics market, both as a consumer and producer. The country exports a range of plastic products and imports specialized polymers and additives to meet domestic demand.

India has a well-developed manufacturing base for plastics and polymers, encompassing polymerization, compounding, extrusion, injection molding, and blow molding processes. The Indian government has also implemented policies and initiatives to support the growth of the plastics industry.

High-Density Polyethylene (HDPE) is a versatile polymer that holds a prominent position within the plastics and polymers industry. HDPE finds extensive use across various industries. In packaging, it is utilized for bottles and containers. In the infrastructure sector, HDPE pipes are preferred for their corrosion resistance and flexibility in areas like water distribution, gas distribution, sewerage management and telecommunication. It is also used in geomembranes for environmental containment applications and in the automotive industry for fuel tanks and exterior trims.

Moreover, HDPE is considered a relatively environmentally friendly plastic compared to others, as it is recyclable and can be reused in various applications. Efforts are ongoing to increase recycling rates and develop technologies for utilizing recycled HDPE in new products, contributing to sustainability goals.

The future of the plastics and polymers industry in India looks promising, driven by ongoing technological advancements, investments in research and development, and a growing emphasis on sustainable practices. Innovations in bio plastics, recycled materials, and circular economy models are expected to shape the industry's trajectory.

INDEPENDENT AUDITOR'S REPORT

To the Members of
AIK PIPES AND POLYMERS LIMITED
(Formerly Known as AIK PIPES AND POLYMERS PRIVATE LIMITED)

Report on the Audit of the Financial Statements

We have audited the Financial Statements of AIK PIPES AND POLYMERS LIMITED ("the Company"), which comprise the balance sheet as at 31st March 2024, and the statement of profit and loss, and statement of cash flows for the year then ended, and notes to the Financial Statements, including a summary of significant accounting policies and other explanatory information [hereinafter referred to as "the Financial Statements"].

Opinion

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matters described in the basis of Qualified opinion below, the aforesaid Financial Statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, and its profit/loss, and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the *Code of Ethics* issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion except that the company is not complying with the Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 , details of the same is given in Other Legal and regulatory Requirements of the report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the [information included in the Directors report, but does not include the Financial Statements and our auditor's report thereon.]

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, financial performance, (changes in equity) and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- A. Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- B. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls
- C. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- D. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- E. Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in

- (i) Planning the scope of our audit work and in evaluating the results of our work; and
- (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

During the Financial Year 2023-24, the company bought an Initial Public Offer of its shares and for which the Authorized Share capital of the company was increased to Rs. 7 crores, but wrongly shown on MCA portal as Rs. 8.4 Crores.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

As required by Section 143(3) of the Act, we report that:

- A. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- B. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books [and proper returns adequate for the purposes of our audit have been received from the branches not visited by us.]
- C. The reports on the accounts of the branch offices of the Company audited under Section 143(8) of the Act by branch auditors have been sent to us and have been properly dealt with by us in preparing this report

- D. The Balance Sheet, the Statement of Profit and Loss, (the Statement of Changes in Equity) and the Cash Flow Statement dealt with by this Report are in agreement with the books of account [and with the returns received from the branches not visited by us].
- E. In our opinion, the aforesaid Financial Statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- F. On the basis of the written representations received from the directors as on 31st March, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2024 from being appointed as a director in terms of Section 164(2) of the Act.
- G. Since the Company's turnover as per last audited Financial Statements is less than Rs.50 Crores and its borrowings from banks and financial institutions at any time during the year is less than Rs.25 Crores, the Company is exempted from getting an audit opinion with respect to the adequacy of the internal financial controls over financial reporting of the company and the operating effectiveness of such controls vide notification dated June 13, 2017.
- H. As per AS 22 , "Accounting for Taxes on Income" the company was required to set off Advance Tax and Provision for Tax , which is not complied by Company in the Financial Statements.
- I. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us.
- a. The Company does not have any pending litigations which would impact its financial position.
 - b. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - c. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - d. The company has not declared or paid any dividend during the year is in accordance with section 123 of the Companies Act 2013", Hence clause not applicable.
 - e. Rule 11(g) of Companies (Audit and Auditors) Rules 2017
 - i. Based on our examination which included test checks and information given to us, the Company has used accounting softwares for maintaining its books of account, which did not have a feature of recording audit trail

(edit log) facility throughout the year for all relevant transactions recorded in the respective softwares, hence we are unable to comment on audit trail feature of the said software. Therefore Rule 11(G) is not complied here

- ii. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books, except for the matters stated in the above paragraph, on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.
- iii. The modifications relating to the maintenance of accounts and other matters connected therewith are as stated in the paragraph 2 above on reporting under section 143(3)(b) of the Act and paragraph 1 above on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.

AIK PIPES AND POLYMERS LIMITED (Formerly Known as AIK PIPES AND POLYMERS PRIVATE LIMITED)

Notes to the Financial Statements

Year ended March 31, 2024

All amounts in INR Lakhs, unless otherwise stated

1. General Information

AIK PIPES AND POLYMERS LIMITED

(Formerly Known as AIK PIPES AND POLYMERS PRIVATE LIMITED) (the 'Company') is a Public Limited Company, domiciled in India with its registered office located at F-9, VINAYAK ENCLAVE, VAISHALI NAGAR, JAIPUR. The Registration Number of the Company is L25209RJ2017PLC059111. The Company is engaged in the business of Manufacturing of Pipes etc..

2. Significant Accounting Policies

Basis of Preparation of Financial Statements

The Financial Statements of the Company have been prepared and presented in accordance with the Generally Accepted Accounting Principles in India ('Indian GAAP'). It comprises the Accounting Standards notified u/s 133 read with section 469 of the Companies Act, 2013. The accounting policies have been framed, keeping in view the fundamental accounting assumptions of Going Concern, Consistency and Accrual, and also the basic considerations of Prudence, Substance over form, and Materiality. Based on the nature of products and the time between acquisition of assets and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities. These financial statements have been prepared on historical cost basis except certain items like Financial Leases and Defined Benefit Plans are measured at fair value.

Use of Estimates

The preparation of financial statements requires the management to make certain estimates and assumptions that affect the amounts reported in the financial statements and notes thereto. The management believes that these estimates and assumptions are reasonable and prudent but the actual results may differ from them. They are reviewed on an on-going basis and any revision to accounting estimates is recognised prospectively in current and future periods. Accounting estimates and assumptions that have a significant effect on the amounts reported in the financial statements include:

- i) Net Realisable value of items of Inventories
- ii) Useful life and Residual value of Property, Plant and Equipment and Intangible Assets
- iii) Defined Benefit obligations
- iv) Deferred Tax asset or liability
- v) Provisions for Trade Receivables
- vi) Other Provisions and Contingencies

Property, Plant and Equipments

Property, plant and equipments are initially recognised at cost. Cost includes purchase price, taxes and duties and other costs directly attributable to bringing the asset to the working condition for its intended use. However, cost excludes duties and taxes wherever credit of such duties and taxes is availed. It is thereafter carried at its cost less accumulated depreciation and accumulated impairment losses, if any.

Depreciation is provided under the 'Straight-line' method as per the useful life specified in Schedule II to the Companies Act, 2013. Residual values of assets are measured at not more than 5% of their original cost. For assets added or disposed during the year, depreciation is charged on pro-rata basis from the date of addition or till the date of disposal.

Impairment of Assets

At the end of each reporting period, the carrying amounts of Property, Plant & Equipment, and Intangible assets are tested for impairment. An Impairment loss is recognised for an amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and Value-in-use.

AIK PIPES AND POLYMERS LIMITED (Formerly Known as AIK PIPES AND POLYMERS PRIVATE LIMITED)

Notes to the Financial Statements

Year ended March 31, 2024

All amounts in INR Lakhs, unless otherwise stated

Value-in-use is the present value of future cash flows discounted using a rate which reflects the current market rates and the risks specific to the asset.

For the purposes of assessing impairment, assets are grouped at the lowest levels (cash-generating units) for which independent cash inflows can be identified. Impairment losses, if any, are recognised in the Statement of Profit and Loss and included in depreciation and amortisation expenses.

Investments

Long-term investments are valued at cost less provision for diminution in value, if the diminution is other than temporary. Current investments are valued at lower of cost and fair value. Gain or loss arising on the sale of investments is computed as a difference between carrying amount and the proceeds from sale, net of any expenses. Such gain or loss is recognised in the Statement of Profit and Loss.

Inventories

Inventories are valued at the lower of cost and net realisable value. Cost is computed on a 'First In First Out' basis. Cost of raw materials and stores and spares includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. The aforesaid items are valued at net realisable value if the finished products in which they are to be incorporated are expected to be sold at a loss. Cost of finished goods and work-in-progress include all costs of purchases, conversion costs and other costs incurred in bringing the inventories to their present location and condition. The net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and estimated costs necessary to make the sale.

Trade Receivables and Loans and Advances

Trade Receivables and Loans and Advances are presented after making adequate provision for any shortfall in their recovery. The provision and any subsequent recovery is recognised in the Profit and Loss statement. Bad debts are written off when they are identified.

Cash and cash equivalents

All highly liquid financial instruments, which are readily convertible into known amount of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase are considered to be cash equivalents.

Provisions and Contingent Liabilities

A Provision is recognised when the entity has a present obligation as a result of past event and it is probable that an outflow of resources will be required and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. A Contingent asset is neither recognised nor disclosed.

Revenue Recognition

Revenue from sale of goods is recognised when control and significant risks and rewards of ownership of the products being sold is transferred to the customer. This is generally fulfilled at the time of dispatch, delivery or upon formal customer acceptance depending on customer terms. Revenue is measured on the basis of contracted price, after deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the government such as goods and services tax, etc. Previous experience is used to estimate the provision for such discounts and rebates. Revenue is only recognised to the extent that it is highly probable a significant reversal will not occur. Income from services rendered is recognised based

on agreements/arrangements with the customers as the service is performed and there are no unfulfilled obligations. Interest income is recognized on accrual basis, adopting a time proportion method, taking into account the amount outstanding and the rate applicable. Dividend income on investments is accounted for when the right to receive the income is established. Export incentives are recognised on accrual basis to the extent the management is certain of the income.

Employee Benefits

Short-term employee Benefits

Benefits such as salaries, wages and performance incentives are charged to the statement of profit and loss at the actual amounts due in the period in which the employee renders the related service.

Defined Contribution Plans

Payments made to defined contribution plans such as provident and pension fund are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees.

Defined Benefit Plans

All defined benefit plans obligations are determined based on valuations, as at the Balance Sheet date, made by independent actuary using the projected unit credit method. Actuarial gains and losses are recognised immediately in the statement of profit and loss. The fair value of the plan assets is reduced from the gross obligation under the defined benefit plan, to recognise the obligation on net basis.

Other Long-term Employee Benefits

Other long-term employee benefits include leave encashment. Leave encashment is recognised as an expense in the statement of profit and loss as and when it accrues on actuarial basis.

Borrowing Cost

Borrowing costs that are directly attributable to the acquisition or construction of qualifying assets are capitalised. Qualifying asset is an assets that necessarily takes substantial period of time to get ready for its intended use. Other borrowing costs are recognised as an expense in the period in which they are incurred.

Taxes on Income

Income tax expense for the year comprises of current tax and deferred tax.

Current tax

Current tax is the estimated amount of tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date. Minimum Alternate Tax (MAT) is accounted as Current tax when the taxes calculated as per Book profits are greater than the taxes calculated as per normal provisions of Income Tax. Credit for such MAT is availed when the entity is subjected to normal tax provisions in the future. MAT credit Entitlement is recognised as an asset based on the management's estimate of its recoverability in the future.

Deferred tax

Deferred tax is recognised in respect of timing differences between the carrying amount of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes.

A deferred tax liability is recognised based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted, or substantively enacted, by the end of the reporting period. Deferred tax assets are recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised except for deferred tax assets in respect of tax losses, where they are recognised only to the extent the management is virtually certain as to the sufficiency of future taxable income. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(Formerly known as AIK PIPES AND POLYMERS PRIVATE LIMITED)
JAIPUR
Notes to Financial statements for the year ended 31st March FY 2023-24

1. Background

a. Basis of Preparation

The Financial Statements of the entity have been prepared and presented in accordance with the Generally Accepted Accounting Principles (GAAP). GAAP comprises the Accounting Standards notified u/s S.133 read with S.469 of the Companies Act, 2013. The accounting policies have been framed, keeping in view the fundamental accounting assumptions of Going Concern, Consistency and Accrual, as also basic considerations of Prudence, Substance over form, and Materiality. These have been applied consistently, except where a newly issued accounting standard is initially adopted or a revision in the existing accounting standards require a revision in the accounting policy so far in use. The need for such a revision is evaluated on an ongoing basis.

The Financial Statements have been prepared on a going concern basis, inasmuch as the management neither intends to liquidate the entity nor to cease operations. Accordingly, assets, liabilities, income and expenses are recorded on a Going Concern basis.

Based on the nature of products and services, and the time between the acquisition of assets and realisation in cash or cash equivalents, the entity has ascertained its operating cycle as 12 months for the purposes of current and non-current classification of assets and liabilities

Based on the total income of the reporting entity, the amounts presented in the Financial Statements are uniformly rounded off to the nearest Lakhs, except for earnings per share and ratios.

The entity reports its transactions in Indian Rupees.

b. Basis of Measurement

The Financial Statements have been prepared on historical cost convention, on accrual basis of accounting, except for Cash Flow Statement and certain Assets or Liabilities that have been measured either on fair value, or on net realisable value or on recoverable amount basis, as per examples shown below:

a) Certain items of Property, Plant and Equipment to which, after initial recognition, fair value model of accounting has been adopted

b) Where applicable, Defined Benefit Plan Asset is recognised as a net total of value plan assets, adjusted for any unrecognised service costs or actuarial gains, and present value of defined plan obligations.

c) Where applicable, in the capacity of lessees, Finance Leases are recognised as an asset at an amount equal to its fair value, excepting where if the fair value were to exceed the present value of minimum lease payments, it is recognised at fair value, computed by applying either the rate implied in the lease, or incremental borrowing rate.

c. Use of Estimates

The preparation of financial statements requires the management to make certain estimates and assumptions that affect the amounts reported in the financial statements and notes thereto. The management believes that these estimates and assumptions are reasonable and prudent. However, actual results could differ from these estimates. Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in future periods if these are affected. Application of accounting policies that require critical accounting estimates and assumptions that may have a significant effect on the amounts recognized in the financial statements include, wherever applicable, the following :

- i) Net Realisable Value of items of Inventories
- ii) Useful life and Residual Value of Property, Plant and Equipment
- iii) Useful life of Intangible Assets
- iv) Recoverable amount of Cash Generating Units
- v) Provisions for trade receivables
- vi) Defined benefit obligations
- vii) Tax expenses and payable
- viii) Provisions and contingencies

2. Significant Accounting Policies

a. Property Plant and Equipment

An item of property, plant and equipment that qualifies to be recognized as an asset, on initial recognition, is measured at cost. Cost includes purchase price, taxes and duties and other costs directly attributable to bringing the asset to the working condition for its intended use. Where applicable, borrowing cost incurred up to the date the asset is ready for use and the initial estimate of the present value of decommissioning, restoration and similar liabilities are included. However, cost excludes duties and taxes wherever credit of such duties and taxes is availed of. The item is thereafter carried at its cost less accumulated depreciation and accumulated impairment losses, if any.

Items such as spare parts, stand-by equipment and servicing equipment that meet the definition of property, plant and equipment are capitalized at cost and depreciated over their estimated useful life.

The cost of self-constructed assets, if any, includes cost of materials, direct labour and other costs attributable to make it ready for use, as also costs of dismantling and removing the items and restoring the site on which they are located.

Purchased software that is integral to the functionality of the related equipment is capitalized as part of that equipment.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Gains and losses on disposal of assets are determined by comparing the sale proceeds with the carrying amount. These are included, on a net basis, in the Statement of Profit or Loss, under the head 'Profit/Loss on sale of assets' in statement of income.

Assets retired from active use, if any, are carried at lower of carrying amount and net realisable value.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. The carrying amount of replaced part is de-recognised. If subsequent costs are in the nature of repairs and maintenance expenses, they are charged to Profit and Loss.

b. Depreciation

Depreciation of PPE (other than freehold land) is provided on Straight Line method based on the useful lives as prescribed by Schedule II of the Companies Act 2013.

On tangible fixed assets added / disposed of during the year, depreciation is charged on pro-rata basis from the date of addition / till the date of disposal.

Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the entity will obtain ownership by the end of lease term. Depreciation on contract-specific assets are charged, co-terminus over the contract period.

The residual values of assets are measured at not more than 5% of the original cost thereof. The depreciation method, residual values and useful lives are reviewed and adjusted, if appropriate, at the end of each reporting period.

c. Capital Work in Progress

Properties under construction are stated at cost less accumulated impairment losses if any, until construction or development is completed, at which time they are reclassified to be accounted for as an item of Property Plant and Equipment. Cost capitalised include cost of land and other directly related development expenditure, including borrowing costs incurred in developing the asset.

Cost of assets under development and not ready for intended use, as on the reporting date, is shown as capital work in progress. Advances given towards acquisition of an item of PPE outstanding at each reporting date are disclosed under the head Advance for Capital Assets.

d. Investments

Investments, that are by their nature are readily realizable and which the management intends not to hold these for more than twelve months (from date of purchase), are classified as current investments. All other investments, both equity and non-equity investments, even if these are freely marketable, are classified as non-current.

Current investments are carried at lower of their cost and fair value as determined by each category of investment. Long term investments are carried at cost. If however, there were to be a decline, which is other than temporary, a provision is made to reflect the decline in value.

Gain or loss arising on sale of investments, computed as the difference between the carrying amount and proceeds from sales net of any expenses is recognised in Profit and Loss.

Where a long-term investment is reclassified as a current investment, the transfer is made at lower of cost and carrying amount at the date of such transfer. Where an investment is reclassified from current investment to long-term investment, the transfer is made at the lower of its cost and the fair value of such investment at the date of such transfer.

e. Inventories

Inventories comprise of and are classified as raw-materials, work in progress, finished goods, stock-in-trade, stores and spares and loose tools that are used in day-to-day maintenance.

Inventories are measured at the lower of cost and net realisable value. Cost of inventories comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition, including taxes and duties except to the extent that these are otherwise subsequently recoverable. Trade discounts, rebates, duty drawbacks and other similar items are deducted in determining the costs of purchase.

For inventory items, that are not ordinarily interchangeable and goods or services produced and segregated for specific projects, the cost is assigned by specific identification of their individual costs. In respect of other items, cost is ascertained by adopting First-in-first-out method. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Raw-materials and other supplies held for use in production are not written down below cost, if finished products in which they will be incorporated are expected to be sold at or above cost. However, when there has been a decline in the price of materials and it is estimated that the cost of the finished products will exceed net realisable value, the materials are written down to net realisable value. In such circumstances, the replacement cost of the materials may be the best available measure of their net realisable value (NRV). NRV is assessed at each reporting date.

f. Trade and Other Receivables

Trade and other receivables are generally measured at invoice value. An allowance for any shortfall in recovery is established if the collection of a receivable becomes doubtful. The amount of the allowance is the difference between the asset's carrying amount and the estimated future cash flows. The loss allowance as also any subsequent recoveries made is recognized in the Profit and Loss. Bad debts are written off when identified.

Aggregate amount of Trade Receivables aging analysis report as required by the Revised Schedule III applicable from the financial year ended 31.03.2022 are separately disclosed in the format prescribed.

Trade receivables are also further classified as follows :

- (i) Secured
- (ii) Unsecured
- (iii) Considered Good
- (iv) Considered Doubtful
- (v) Disputed
- (vi) Undisputed

g. Cash and Cash Equivalents

Cash and cash equivalents include all cash balances and short-term highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value. Foreign Currency cash if any, and cash equivalents are measured at fair value.

h. Cash Flow Statements

The entity prepares and presents Cash Flow from Operating Activities by adopting indirect method.

i. Revenues and Other Income

Revenue from sale of goods is recognized when the significant risks and rewards of ownership are transferred to the buyer, the entity retains no effective control of the goods transferred to a degree usually associated with ownership; and no significant uncertainty existed regarding the amount of consideration that will be derived from the sale of goods. Revenue from operations is net of sales return. GST and other applicable duties are allowed to be recovered as part of the price are presented separately.

In respect of transactions involving rendering of services, performance is measured either under the completed service contract method or under the proportionate completion method, whichever relates the revenue to the work accomplished. Such performance is regarded as being achieved when no significant uncertainty exists regarding the amount of the consideration that will be derived from rendering the service.

The amount representing unserviced portion of billed contracts, is held as deferred income.

Export benefits, if any, are accounted for as other income on accrual basis, based on reasonable certainty that amounts are collectible.

Interest income is recognized on accrual basis, adopting a time proportion method, taking into account the amount outstanding and the rate applicable.

Dividends from investments in shares if any are recognised as other income only when a right to receive payment is established.

j. Borrowing Costs

Borrowing costs are interest and other costs incurred by an enterprise in connection with the borrowing of funds. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale.

Borrowing costs are capitalised as part of the cost of a qualifying asset when it is probable that they will result in future economic benefits to the enterprise and the costs can be measured reliably. Other borrowing costs are recognised as an expense in the period in which they are incurred. In the case of specific borrowings, the amount eligible for capitalization is determined at actual amount, subject to adjustment of income if any from temporary investments. In the case of general borrowings the amount eligible for capitalization is determined by applying a capitalization rate, being the weighted average rate of such borrowings. In either case, capitalization period is restricted to asset development period.

Capitalisation commences only when (a) expenditure for the acquisition, construction or production of a qualifying asset is being incurred; (b) borrowing costs are being incurred; and (c) activities that are necessary to prepare the asset for its intended use or sale are in progress.

Capitalisation is suspended during periods of delay when the active development of asset is interrupted, unless such a delay is an essential part of the process of getting the asset ready for its intended use or sale. Capitalisation ceases when asset is found to be ready for use or sale.

k. Impairment of Assets

At the end of each reporting period, the carrying amounts of Property, Plant & Equipment, and other intangible assets (if any) are tested for impairment, and at more frequent intervals whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. Value in use is estimated based on future cash flows that are discounted to their present value using a pre-tax discount rate which reflects the current market rates and the risks specific to the asset. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount.

For the purposes of assessing impairment, assets are grouped at the lowest levels for which separately identifiable cash inflows can be generated which are largely independent of the cash inflows from other assets or group of assets (cash-generating units). Assets other than goodwill that suffer impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

Impairment losses, if any, are recognized in the Statement of Profit and Loss and included in depreciation and amortization expense. Such losses, other than relating to goodwill, are reversed only to the extent that the asset's carrying amount does not exceed the depreciated carrying amount that would have been determined if no impairment loss had previously been recognized.

l. Foreign Currency Transactions

A transaction which is denominated in or requires settlement in a foreign currency, is considered as a foreign currency transaction. Monetary items are moneys held and assets and liabilities to be received or paid in fixed or determinable amounts of money. Items that do not qualify as monetary items are treated as non-monetary items.

Transactions denominated in foreign currency are on initial recognition recorded in the reporting currency, by applying to the foreign currency amount, the exchange rate between the reporting currency and the foreign currency at the date of the transaction, except where, for practical reasons it is found necessary to adopt an average rate consistently for all transactions occurring in a given period.

Monetary items are reported using the closing rate. In situations where it is clear that there are restrictions on remittances or where the closing rate is unrealistic and it is not possible to effect an exchange of currencies at the closing rate, a rate that closely approximates to amounts realisable is used.

Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction; and non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

Gains or losses represented by the differences arising on the settlement of monetary items, or where settlement had not taken place, differences arising between two reporting dates, are recognised as income or as expenses in the period in which they arise.

The entity may enter into a forward exchange contract in line with its requirements to establish the amount of the reporting currency required or available at the settlement date of a transaction. The premium or discount arising at the inception of such a forward exchange contract is amortised as expense or income over the life of the contract. Exchange differences on such a contract is recognised in the Profit and Loss in the reporting period in which the exchange rates change. Any profit or loss arising on cancellation or renewal of such a forward exchange contract is recognised as income or as expense for the period.

Although there were no Foreign currency transactions during the year.

m. Provisions and Contingencies

Provisions are recognized if, as a result of a past event, the entity has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. The amount recognised as a provision is determined as the best estimate of the expenditure required to settle the present obligation at the balance sheet date. This amount is not discounted to its present value except in case of decommissioning liabilities etc., that are recognised as cost of Property, Plant and Equipment. The provision is measured before tax. If however the possibility of outflow of economic benefits is remote, the amount is reckoned as contingent liability and is only disclosed. A contingent asset is neither recognised nor disclosed.

A provision for onerous contracts is recognized when the expected benefits to be derived by the entity from a contract are lower than the unavoidable cost of meeting its obligations under the contract. Before a provision is established, the entity recognizes any impairment loss on the assets associated with that contract.

n. Taxes on Income

Tax expense comprises current and deferred tax, and this is recognized in profit and loss. Current tax is the estimated amount of tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date.

Deferred tax is recognized by providing for differences between the carrying amount of assets liabilities, income or expenses, for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to timing differences when they are likely to reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are not offset unless there is a legally enforceable right to offset current tax liabilities and assets, except in special circumstances.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the timing difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

As per AS 22, Advance Tax and Provision for Tax should be setoff with each other while making the financial statements, the same is not complied by the company.

In Financial year 2022-23, the company had mistakenly taken a wrong estimated average annual tax rate.

o. Earnings per Share

In determining earnings per share, the Company considers the net profit after tax and includes the post-tax effect of any extra-ordinary item. The number of equity shares used in computing basic earnings per share is the weighted average number of equity shares outstanding during the year. The number of equity shares used in computing diluted earnings per share comprises weighted average number of equity shares considered for deriving basic earnings per share and also weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

The entity does not have any dilutive potential equity shares, and therefore Basic Earnings per share equals Diluted Earnings per share

p. Segment Reporting

By applying the definitions of 'business segment' and 'geographical segment' in the relevant Accounting Standard, the management has concluded that there is neither more than one business segment nor more than one geographical segment. Accordingly, no separate disclosure is made as to segment information.
